SESSION OF CITY COUNCIL

Water Question Occupies the Attention of the Solons—Against Graphophones.

AFFAIRS OF WEBER COUNTY.

After Land for County Jail—Funeral of Nels Peterson—Suits for Divorce.

Ogden, Sept. 24.—The greater portion of last night's session of the city council was devoted to the consideration of the water question. A resolution was adopted calling upon the water company to build an additional reservoir and to clean the old one. This action was taken after a report had been submitted by a self-appointed committee consisting of Councilman Dickson, Prof. P. M. Driggs and State Chemist Harms. The report was to the effect that a visit had been made to Wheeler canyon where the city water supply is obtained, also to the reservoir and that both had been found to be free from objectionable matter. Samples of water taken from both places were analyzed by the chemist and found to be free from poisonous substances. Several other members of the council said that they had visited the reservoir and found it to be in good condition. The mayor submitted the name of Joel J. Harris as director of the Carnegie library to succeed R. T. Harris, resigned. The appointment was confirmed by a petition from the members of the

SESSION OF CITY COUNCIL.

Daniels Electric Light Franchise Forfeited—Buried in Gravel Pit.

Special Correspondence. Provo, Sept. 24.—The franchise granted to T. E. Daniels Jr., Walter C. and Henry Stage, under the name of the Daniels Electric Light & Power company, Jan. 27, 1890, was annulled by resolution in the city council last night. The company was granted the right for a short time under the franchise, and then abandoned the project. The resolution was passed under the opinion of the council that the terms of the franchise had not been complied with.

An offer from the Daniels company to sell the city its rights under the franchise for \$500 was rejected. A street crossing was ordered on petition of Thomas Martin, to be put in west of Academy avenue.

W. A. Scott, representing E. H. Rollins & Sons of Denver, who bought the city bond issue, asked the council to consider the purchase from his company of some of the last issue of the city bonds at par. Referred to the city attorney for his opinion as to the legality of purchasing the new bonds in preference to the old bonds, before the old bonds are purchased.

Mayor Frelby presented a communication stating that he had offered the position of city physician, resigned by Dr. Slater, to every practicing physician of the city, and none had been found willing to accept it, under the present salary, \$100. Dr. Slater had, however, consented to serve a short time till a successor could be found. The mayor suggested that a committee of the council be appointed to meet with a committee from the Medical society, with a view to settling the question of compensation, which is the bone of contention between the doctors and the council. The following committee was appointed: President Booth, Councilmen Evans and Knudsen, and Mayor Frelby.

A report from the committee of claims, recommending that \$100 be paid B. H. Larson for a horse, injured by stopping into a defective culvert, was adopted.

The bill for an ordinance to submit the question of the erection of a municipal light plant to a vote of the taxpayers was brought up. Councilman Evans presented a bill for an ordinance to submit the question of extending the waterworks to the vote of the city will not permit the undertaking of the two projects and then moved that both bills be laid on the table. The motion carried, thus leaving both questions disposed of temporarily, at least.

The matter of securing an option on land for waterworks site was referred to the committee on waterworks.

WEBER COUNTY BUSINESS.

Commissioners After Land for New Jail—Infirmary Improvements.

Ogden, Sept. 24.—The Weber county board of commissioners at its regular session discussed the advisability of purchasing a small piece of land at the rear of the county court house property for the erection of a new jail. The commissioners favor the proposition and a committee will see what the owners of the desired land will sell for. The matter of horse hire for the sheriff's office came up for consideration. The board is of the opinion that \$40 per month is more than should be paid for that purpose. A team of horses and a buckboard may be purchased by the county for the sheriff's use. A number of requests for aid for poor persons were considered. An electric lighting system may be established in the county infirmary. The matter is being considered.

Thursday afternoon Oliver Paulsen arrested a Mr. Fitzpatrick, violinist of the Saltair Beach orchestra, and M. J. Stanford of Evanston, Wyoming, who is here under the employ of L. F. McCreary, oil expert, for playing "craps." The parties were having an exciting game, drawing more or less attention, when the city marshal "got next." He arrested the gentlemen for violating the city ordinance prohibiting gambling, the game having been for bets up to a dollar. Neither one had any money. The violinist was to leave on the afternoon train, and as the marshal required a deposit of \$25 each for their appearance the following day in court, he rustled about and succeeded in making his violin to a brother musician. The make matters worse, just before the train pulled out he received a "phone from Provo, wanting him to play at a party that evening. Of course, he was up against it, which caused him to complain considerably at "craps" games, pollockmen, and everybody in general. Mr. Stanford got his employer to see his security of \$25, but as the train pulled out for the north, he managed to climb aboard. He was located at Tumble Junction, where the constable held him for the marshal from Mr. Pleasant, who went after him.

The mines mentioned have been furnished with several miners each and teams have been hauling for some time. From 20 to 30 teams have been counted in one day on the road to the local mines. As a consequence Mt. Pleasant and neighboring towns are in a better position this year than last, as far as the coal question is concerned.
