

TWO THIEVES CAUGHT AFTER HARD STRUGGLE

Then They Got Away While Police
Are Called—Were Hitting
School Desks.

After a desperate struggle in which he overpowered two burglars caught ransacking the Bryant schoolhouse on First South between Seventh and Eleventh East streets early this morning, Robert Stocker, the janitor, looked them in a toilet. While he was talking to the police, the thieves tried to open a window and jumped out landing on the pavement 20 feet below. Stocker saw the men as they crept through the shadows, but was quick to overcome them. When the police arrived about an hour afterward, he furnished them with a description. So far the police have been unable to obtain any trace of them.

When Stocker entered the building he heard a noise on the second floor. He listened for a moment and then took off his shoes, slipping up the back stairs he saw them rifling a desk. He jumped upon them, a struggle ensued. The burglars were apparently young men and tried desperately to get away. They fought with their hands, feet and teeth, but Stocker throttled them and dragged them into the toilet, locking and bolting the door.

Miss Grace Frost, principal of the school, said that the burglars were interrupted before they had time to steal anything. There were valuable papers stored in the desks, Miss Frost said, but no money was kept in the building. Upon investigation it was found that the burglars had climbed up the fire escape and entered the building through a trap door in the roof.

Principal E. S. Hallcock of the Jackson school also reported to the police that the Jackson school building had been entered. An inventory of the property was taken but nothing was missing. A window had been broken through which an entrance was gained. Several desks were broken open and searched.

ARMY NEEDS NO MEN.

Orders from the war department received this morning, close up the auxiliary recruiting station at Ogden, but continue for the present the central recruiting station in this city. Moreover, orders are received to accept no more original enlistments, only applicants being received who have previously been in service. The reason is that the army is full—all branches of the service being practically up to the standard strength. This strength is as follows: Infantry, 27,000; cavalry, 13,000; coast artillery, 19,000; field artillery, 8,000; engineers' corps, 2,000; signal corps, 1,200. The Salt Lake office turned away 10 applicants in the last 10 days.

The total strength is now about 88,000 men.

CAPT. MORETON LEAVES.

Amos R. Moreton, for many years associated with the fire fighting force of this city, and of recent years captain of No. 2 station, has resigned his position and left the department at noon yesterday. Capt. Moreton was appointed a fireman in January of 1885, and remained with the department until May, 1891. In January of 1908, he was appointed by Charles T. Vail, then chief, and shortly thereafter was made captain of No. 2. Capt. Elkanah has been detailed by Chief Glone to take charge of No. 2 until a successor to Moreton is named.

Y. W. C. A. ANNUAL REPORT.

The third annual report of the Young Women's Christian association has just been published in booklet form, showing the work done by the organization during the past year. It includes reports from the general secretary, the traveling aid, the social committee, the house committee and the treasurer. There are 540 members of the association, with 209 girls cared for in the boarding home during the year, and 110 transient guests during that time. The travelers' aid report showed that 3,000 trains were met by members, and sympathy and aid extended to many women in need. Appreciation is expressed of newspaper assistance.

DRUGS CAUSE FIT.

A "Dope" head giving the name of Marlon, was arrested yesterday by Patrolmen Betts and Taylor at the city jail. The man had a fit in front of the Bungalow theater, brought on by cocaine. When searched at the station enough morphine and cocaine to kill a dozen men was taken from him.

YOUNG TOURIST STOPPED.

Horton Page, aged 14 years, and Arthur McCuey, aged 12 years, had their globe trotting career suddenly stopped at Ogden yesterday when they were taken from a train en route to California and sent back to this city where their anxious relatives were waiting for them. The youngsters determined to see the world. They started together \$24 and with this started for the coast. They were not a bit backward in informing any and everybody of their purpose and were apparently most proud of the undertaking. Asked how they expected to get very far on so little money they explained they would give the Pullman porters a dollar and ride in the linen closet. Their departure from Salt Lake was delayed in time to head them off at Ogden.

A fireman, due at a rooming house occupied by Mrs. Annie Wrenth, 224 South Main street, caused a rather early blaze at 6 o'clock this morning. The fire burned a hole in the wall and roof of the building and did damage to the extent of about \$25 to the building and \$25 to the contents. The fire is covered by insurance.

During the fire several windows were broken and property lost. The fire was caused by the fireman who was on duty at the time. The fire was caused by the fireman who was on duty at the time.

CITIZENS INDIGNANT

Will Urge Council to Use Sours on The Board of Works.

Indignant on account of the action of the board of public works because its members failed to award the contract for the construction of the North Temple street conduit after opening the tenders Friday night, residents, who will be benefited by the improvement, will appeal to the council tonight for assistance. Unless the council, which is to be held to take care of the flood waters in city creek in the spring, is completed by the latter part of May, the damage from floods will be great. This year the council tonight will be asked to award the contract for the construction of the conduit. It was promised by the administration when the bonds were voted on for the construction of the project that it would be completed this spring in time to handle the high water. Every day the citizens are protesting against any delay on the part of the board of public works. The bid of Davis & Houser, cement contractor, was \$14,282. The bid of the reinforced concrete and \$4,500 for plain concrete. The conduit is to be built from Fourth West on North Temple street to the Jordan river.

The committee on streets will report on the result of their visit to the Oregon Short Line depot in regard to the position where the first viaduct will be built. The railroad company is constructing the viaduct 125 feet north of the north line of South Temple street. The residents of the district ask that it be placed on the north line of the street.

The school ordinance which was laid over six weeks is due to come up tonight. It is probable that it will be laid over again on account of pending legislation although Councilman Stewart, father of the ordinance, and Juristons are prepared to fight it.

There will also be some changes in the budget as it now stands. Jake Rabaglietti, street supervisor, who asked for enough to rebuild the streets in Salt Lake has been cut down \$2,000 and it is possible that they will still his regulation down to about half.

Several public improvements are being held up and are likely to remain so unless the legislature passes the bills prepared by the city administration. This state of affairs exists because the city has no money to carry on its portion of the work.

COMMENTS DES MOINES PLAN.

Commissioner MacVicar Says Citizens Control All Affairs.

The Civil Improvement League sent a dispatch a few days ago to John MacVicar, one of the commissioners of Des Moines, Iowa, asking him to give his opinion as to whether there were any serious defects in the working of the plan whereby that city is governed. The telegram of William Wallace, representing the league, and the answer of Mr. MacVicar were as follows:

"John MacVicar, Des Moines, Ia., Legislature considered Des Moines plan. Opposite claims serious defects developed in operation in Iowa cities. Please wire your opinion."

"WILLIAM H. WALLACE."

"Des Moines, Ia., Feb. 28.—William R. Wallace, Salt Lake City, Utah, No. 10 defects have developed in Des Moines plan. Every city department above increased efficiency because business methods are permitted under it. Des Moines Righter and Leader of last Friday says educationally. Des Moines has made strides of progress under its new system of city government. Under it the people have absolute control, and the city council is able to control the city government that no city council governed by old plan is under. Des Moines is most economically and most honestly managed city of its size in the middle west. Results show exact places where municipal harness has been mended, expenses lessened, municipal work honestly done, streets cleaned, sidewalks built, garbage laid, better homes, cleaner gambling driven out; in fact, a new Des Moines is shown."

WOMAN RELEASED.

Deputy Sheriff Carlson Asks Leniency For Pearl Curtis, Amazon.

But for the kindness of Deputy Sheriff Carlson, Pearl Curtis would be locked in a cell at the county jail instead of being a free young woman this morning.

On Saturday she interfered with Carlson, the latter was taking to jail her lover, Frank Houtenelson, who was this morning bound over to the district court on the charge of burglary in the second degree. When the young woman interfered with Carlson, she seized him by the hair and tried to pull it backwards until the member was dislocated. She was arrested for assault and for resisting arrest. This morning Carlson asked the county attorney to release her on her own recognizance and the motion was granted. The young woman appeared most grateful to Carlson and agreed to be in the jail before the court before, is charged with robbing the "V."
