PRESIDENT'S REPORT IS UP.

Resignations of Dr. Widtsoe and Prof. Merrill Are Only Verbal and

(Special to the "News.")
Logan, June 5.—There was harmony at arms' length and difference of opinion at the same distance at a secret session of the trustees of the Agricultural college, held here today. Notwithstanding the statements of some of the members that they would never attend another meeting all were present this

What passed within the meeting chamber is not known to the public except as it was given out at 1 o'clock this afternoon, when the members emerged from their long deliberation. McAllister was elected president pro tem and presided over the deliberations of the body. Several matters were disposed of without the least friction.

These included the reading and adoption of the reports.

F. B. Farrell was announced, resigned as assistant secretary, and his place was filled by the election of J. J. Cohn. E. R. Owen was named as auditor.

WHERE DIVISION CAME.

The rocks were hit again when it came to a renewed effort to elect a treasurer. Since the 1908 N. A. N. convention at the place, and Owen named Robert Murdoch. The vote resulted in a tie, just as it did the other day, 2 to 2.

There was much effort and persuasion to get some one to change base. But it was all in vain. The election of this officer was finally deferred to a time when conditions may be different.

PRESIDENT'S REPORT.
After this the president's report came up and the reading was proceeded with. When it is disposed of the effort at an adjournment of the conference.

dent Kern will come up. And when that stage of the business is reached there will be a renewal of hostilities. So far as can be seen now there will be the same tie as there was last week. If a letter has been received from Gov. Cutler the members will say nothing about it.

CONDITIONAL RESIGNATIONS.

An interesting feature was made clear there today when Profs. Widdows and Merrill stated in effect that their resignations were only conditional. That is to say, if the existing difficulties and differences of opinions can be smoothed out of the way, they will

man with the A. C. Only verbal expressions have been made by them with reference to resignations.

AFTERNOON SESSION.

The trustees are scheduled to meet again at 3 o'clock. At that time it is feared there will be a renewal of strife though everything possible is being done as a view to settling the controversy that exists.
