## EDITORIAL NOTES.

There are 9,000 saloons in New York. If placed side by side in a direct line they would extend a distance of forly-five miles.

Fatalities through the use of toy pistols on the "Glorious Fourth" are numerous. No less than six boys have died in the neighborhood of Boston alone, since July 4th, from lockjaw, caused by wounds from toy pistols, inflicted during "the day we celebrate." The record in other sections is equally shocking.

An English parson gives ginger ale at the sacrament. Lady Brassey mentions that in one of the South Sta Islands the missionaries had to substitute coccanut milk for wine, as the cup never reached the third communicant without replenishing. It is suggested that possibly the parson has had similar painful experience.

A society has been incorporated at Albany, New York, with the staggering title of the "Suprema the last and least in the "Mormon" Secular Benevolent Association of system. If sensuality were the Port Jervie." The inquirer after governing motive, the "Mormons" the objects of this magnificentlynamed society finds that they are the abrogation of Sundays, Thanksgiving days, religious observances, and the use of the Bible in schools.

A COMMON MISTARE ABOUT THE "MORMONS." Two parties of Mormon missiona-ries are now in England, whose ries are now in England, whose avowed purpose is to seek out pret-ty young girls who are willing to be-come 'converts' to the Mormon 'faith.' The Providence, R. I., Star BBys: "The first rumor that comes concerning the possible re-election of certain Congressmen is the most disheartening. It is to the effect that Speaker Kelfer will probably bereturned, not because he is not locally unpopular, but because there is no one who has confidence to enter the field against him. What a remarkably independent community he must hall from."

A census of the parriageable princes of Europe appears to have been taken. The age for marriage of a prince is, it seems, from 24 to 40; for a princess, from 18 to 28. There are thirty-eight marriageable princes, and only twenty-four mar-Hnese riageable princesses. Germany fur-nishes the chief supply. There are twenty German princes now in the market, including King Ludwig, of Bavaria, the most eligible bachelor in Europe.
