A. Kunzel- man of this committee said that the principal point now was to keep 20,000 nen-union men who had gone on a strike with the union men from rushing back to work. "There are 50,000 machinists on strike for the shorter work day throughout the United States," he continued. "Of these, 20,000 belang to the union, and we have to keep the other 20,000 in line. We accept the challenge of the Na- tional Trades association, and will fight until we win er until the end. Should we will, as I hope and believe, it means a nihe-hour work day for 650,000 peo- pie throughout the United States." The said that the fight would be a long and bitter one, and asked the cen- tral body to lend its aid financially and otherwhee. It would require \$150,000 a week, he said, to pay strike benefits for the non-union men. The meeting voted to give \$100 directly to the machinists and adopted a resolution directing the secretary to write to all the affiliated unions asking for financial assistance for the strikers. <b>LOST IN NEW YORK.</b> A Yery Aged Californian Becomes Bewildered in the Metropolis.
