

PRICE OF GOLD.  
 Received Daily by BANK OF DEPOSIT.  
 Buying at \$1.25; selling at \$1.15.  
 SALT LAKE CITY, August 12, 1872.

LOCAL AND OTHER MATTERS.

**THEATRE.**—On Saturday the play of "Monte Christo" was enacted with a success to which accompanied its production on Friday evening. The comedy of "Perfection" we have seen played in better style. A mishap with the gas produced sudden darkness in the house, which was soon rectified.

This evening Mr. Chaplin will appear as "Joseph" in the drama of "Joseph and His Brethren." Miss Graham, Thorne and Marden are also in support, as well as others of the company.

**THE CIRCUS** people played twice on Saturday, and had a large audience in the evening. This evening they entertain the good citizens of American Fork.

**FEARFUL CRIME AT OGDEN.**—The following was received by Deseret Telegraph line, on Saturday afternoon, too late for publication:

Ogden, Aug. 10th.  
 Jeannette Lowe, about 15 years of age, daughter of James Lowe, residing at Ogden, Weber county, went out on Saturday morning to hunt a cow. Purdy and Nielsen, Peter Nielsen, aged 14 and 13, who pulled her off the horse and after a long struggle violated her. She threatened to tell her mother, when they pushed her into a deep well. She got into deep water, and was drowned. The body was not found till yesterday morning. Suspicion is attached to the boys, and being questioned apart, Purdy confessed the crime. Coroner Fife went to Hooper and held an inquest, when Nielsen also made a clean breast of it. They declared they did not mean to harm her, but only to scare her. Dr. L. P. Anderson made a post mortem examination, which demonstrated the rape. The boys are now in the custody of sheriff W. Brown, and are confined in the city jail. The whole community is horrified at the unparalleled crime.

C. W. PENROSE, Ogden Junction.

ELECTION RETURNS.

**BEAVER, 10.**—The following is an abstract of the returns of the general election held in Beaver county on the 5th inst.:  
 For Delegate to Congress, Geo. Q. Cannon received 401 votes. Geo. R. Maxwell for delegate to Congress, received 248 votes.  
 WM. FOTHERINGHAM, county clerk.

**RICHFIELD, Sevier Co., Aug. 8.**—I have just forwarded by mail an abstract of election returns, from this county, to State atretary Black, which stands as follows:  
 Geo. Q. Cannon, for delegate to Congress, 452 votes.  
 Representatives to Territorial Legislature, George Pascock and Wm. Morrison 425 votes each.

For Commissioners to locate University Lands, John Van Cott, Lewis S. Hills, John Rowberry, 423 votes each.  
 It was a unanimous ticket; no contrary vote being cast. Respectfully,  
 Wm. Morrison.

**Nephi, Juab Co., Aug. 9.**—Returns of election, as received, show that Geo. Q. Cannon received 310 votes.  
 Geo. R. Maxwell, 43 votes.  
 John Van Cott, Lewis S. Hills and John Rowberry, 597 votes each.  
 SAM'L FITCHFORTH, county clerk.

Return of an election held in Sanpete County, Utah Territory, on Monday, the 5th day of August, A. D. 1872, as appears from precinct returns in my office.  
 Delegate to Congress, Geo. Q. Cannon, 1,361 votes.

Representatives to Territorial Legislature, George Pascock, 1,523; William Morrison, 1,347; Parley P. Pratt, 1,347; Walker, 3; Antonio H. Lund, 3; Jeremiah D. Page, 3; Thomas Dutton, 2.  
 Commissioners to locate University Lands, John Van Cott, 1,888; Lewis S. Hills, 1,559; John Rowberry, 1,559.  
 Wm. T. Reid, County Clerk.  
 August 9th, 1872.

**CITY WATER WORKS.**—H. Schumler, Esq., C. E., who has achieved great reputation as a Hydraulic Engineer in California, has been busily employed since his arrival from San Francisco in examining City Creek and the ground around with a view to the establishment of Water Works.

On Friday night he was present at a meeting of the City Council, and laid his plans and suggestions before that body. He thinks our position a most admirable one to obtain all the water necessary for use. We have twice as large a supply as San Francisco with its 150,000 inhabitants. His proposition is to put a wing dam in City Creek from which a flume is to be lead to a settling tank. In this flume there will be a gate, which when closed will shut off the flow of water into the tank. The latter will be divided into at least two compartments by a water-tight bulk-head. The first compartment will be designed to catch all the floating materials which may be in the water, as well as whatever settlements may sink to the bottom while the water is passing through. A little flume carries the floating substances back into the creek, and an orifice at the bottom, which can be opened and closed at pleasure, is used for the purpose of carrying off the sediment when necessary. The water flows gently through a fine wire sieve into the next compartment, and from that conveyed, in another flume, into a tank that will be from 15 to 20 feet wide, 8 feet deep and 50 feet long. This tank will be divided into four compartments, and they will be so arranged as to gather from the water all the sediment and leave it pure and limpid. In this tank the water will flow through three or four compartments, and finally, through a body of charcoal, into the last compartment, from which the pipe will lead to conduct it to the city. This charcoal will be frequently changed. If necessary, this last tank can be so arranged as to have the water pass through a body of gravel also; but the charcoal probably will be sufficient. The object of the tanks and the compartments in them, is to cleanse the water from every impurity, and the latter are arranged to be so constructed that the tanks will be built of timber, and the entire works, as Mr. Schumler proposes to erect them, will be built at a much less cost than we supposed.

With so ample supply of water as City Creek affords for the present population, Mr. Schumler thinks the construction of a reservoir unnecessary at present. It can be built whenever needed without interfering with the present proposed works, and his plan of arranging a reservoir is an exceedingly simple and effective one, the water itself, as required by the demand in the city, regulating its flow automatically into and out of the reservoir.

We are pleased that the Mayor and City Council have employed so skillful and thoroughly practical an engineer, as we believe Mr. Schumler to be, to arrange the Water Works of this city, and we hope before long to chronicle their completion and successful working.

[For Deseret Telegraph.]

**FAIRVIEW, Aug. 12.**—Nathan Stewart, one of the herders, shot by the Indians in the raid on this place on Saturday, p. m., died a short time ago from his wounds.

**HOMER MINISTRY MEETINGS YESTERDAY.**—South Oskowood—Elder H. S. Eldredge spoke on the training of the young; H. P. Nelson, on the necessity of the young preparing to bear the responsibilities of the Kingdom of God; Joseph Rollins, on the unity that should exist among the Saints; H. P. Nelson, on the matrimonial relations and the responsibilities of parents; H. S. Eldredge, family government and the unity of the Saints.

**West Jordan.**—Elder David Candland and Charles H. Nelson, on the present duties of the Saints, necessity of unity and of the people maintaining the policies of the Kingdom of God.

**Sugar House Ward.**—The appointment at this place was filled by Elders Isaac Groo and George Thumale.

The appointments for the city wards were filled with the exception of those of the 2nd and 3rd.

**SUNDAY** was cool, breezy, dusty, cloudy, with some lightning displays and numerous attempts at big drop showers.

**INDIANS STEALING.**—A correspondent writing from Gunnison, Aug. 6th, says that three days previous to the date of his letter, the Indians had stolen three horses from the herdmen of that place.

**DECISION RESERVED.**—Charles Cason was before Justice Clinton to-day charged with robbing Alexander Livingstone, who resides near the Sandy smelting works, of \$50 on Saturday last. Decision in the case was reserved till to-morrow at ten o'clock.

**TELEMETHER 81°** in the shade at 1:30 p. m. to-day.

**FRIGHTENING WOMEN.**—J. S. Maderia, a miner, was on the rampage on Friday night. He visited several houses on the south side of First South street and endeavored to frighten and abuse the female inmates thereof. While he was at one of the houses two men came up to him, pounded him a little and ran off. This seemed to have the effect of partially bringing him to his senses, for he went away for a time, but returned in about a quarter of an hour, when he went up to Mrs. Peterson, a respectable woman, and told her that he could fight, and furthermore that he "was on the shoot," and so convince the lady of his sincerity, he drew a pistol and fired it in an upward direction, and so close to her face as to slightly burn her with the flash from the powder.

He was finally arrested, and the case was before Justice Clinton on Saturday morning, when he was fined the sum of \$50. He offered to leave his watch with the Judge, as security for his return with the necessary amount of greenbacks, the watch, however, was pinched, reminding one of the saying that "all that glitters is not gold," and the Judge did not accept.

One of the witnesses, on being asked what kind of a pistol Maderia fired, said he did not see it very plainly as she was partially blinded by the flash, but it was about like a clothes peg.

Maderia requested half an hour's grace until a friend of his could go up town and fetch the money, which was granted. Instead of his friend coming back with the necessary funds, however, he returned bringing with him a lawyer. The lawyer was informed that the case was concluded, so he uttered an expression more forcible than elegant and left the hall, and the prisoner was promptly locked up in the city jail.

The above was written on Saturday, but was crowded out of that day's issue.

**SICKNESS.**—There has been considerable sickness in this city during the past few weeks, especially among children. It is gratifying to know, however, that it has not been of such a malignant type, thus far, as the same ailment, which has been so fatal last year, the mortality being much smaller. When the weather becomes much cooler, sickness will, of course, proportionately decrease.

**ACCIDENT.**—This afternoon while James Wickens, of the 11th Ward, and James Yantessell were at work on a new building in the rear of the City Hall, the scaffold on which they were standing gave way, precipitating them a distance of about twelve or fourteen feet. Both would probably have escaped without severe injury had not a plank fallen upon Brother Wickens, striking him upon the right side of the head, near the ear, inflicting a very severe wound.

**ROBERT.**—On Saturday night the railroad station house at Sandy was robbed of about \$20 currency and a quantity of railroad tickets, and the telegraph office, at the same place, of about \$20 currency. The thief or thieves have not yet been caught.

**IN TOWN.**—General James A. Garfield, M. C. for the 19th District of the State of Ohio, is now in this city, en route for Montana, whither he is accompanied by Major Swalm, their business being to remove the Flathead Indians. General Garfield is one of the leading men in the House of Representatives from his State. He was elected to the 38th, 39th and 40th Congresses, was re-elected to the 41st and 42nd, and has received the unanimous nomination of his district for re-election.

In his early career the General distinguished himself as a scholar and lawyer. He was for several years the president of a literary institution, and so became known as a lawyer in his native state. In '59 and '60 he was a member of the State Senate of Ohio. In 1861 he entered the Union Army as colonel of the 42nd Ohio volunteers. Was soon promoted to a brigadier-generalship, was subsequently appointed chief of staff to General Rosecrans, and was promoted to the rank of major-general.

Major Swalm formerly belonged to General Garfield's staff, but now belongs to the Judge-Advocate's department, and is stationed at Leavenworth, from which he has been detached for the purpose of accompanying General Garfield on his present mission to Montana.

General Garfield and Major Swalm visited Camp Douglas this morning, and a very pleasant interview with General Garfield and his officers. They left for Montana this afternoon.

**WILL LECTURE.**—We learn that Dr. P. M. Brenner will lecture in the city in the course of a few days, his subject being "What is the soul of man?" The Dr. has lectured in Laramie and in Ogden City, his lectures in both places being well spoken of.

**REPAIRING DONE.**  
 H. B. CLAWSON, Supt.

**Special Notices.**

**NOTICE.**—The Empire Mills, City Creek, will be stopped on Monday the 13th inst., for the purpose of erecting a new water-wheel. Due notice will be given to the public when the mill is in running order.
