

Today's Ogden News

VALE WEBER CO.
FAIR ASSOCIATION.

Intermountain Fair Association
Buys Exhibition Grounds and
Incorporates for \$25,000.

BUSINESS IN DISTRICT COURT.

Irrigation Damage Suit Settled on Trial—
Beet Growers Signing up Contracts—
Quick-Nye Nuptials.

Ogden, March 15.—The Weber County Fair association is no more, the company having been absorbed by a new corporation, which was organized yesterday afternoon, to be known as the Intermountain Fair association. A meeting was called for 3 o'clock yesterday afternoon of the old company, which was represented by over two-thirds of the stock of the company. Reports were received from the officers, showing the company had realized money enough out of the sale of its property, including on Seventeenth grounds, and buildings on Seventeenth grounds, to pay off all indebtedness against the corporation, and therefore the company was dissolved, and the new corporation organized, and the new corporation will take over the old company's property and other belongings.

The Intermountain Fair association will incorporate for \$25,000, divided into shares of the par value of \$5 each. J. C. Nye, former city councilman, was elected president; Oscar B. Madison, vice president; O. M. Runyon, treasurer; Ezra Richardson, secretary; and they with Moroni Stone, Thomas Ethington and Robert Cowan form the board of directors. The new company is composed of practically the same gentlemen who formed the old fair association, and they hope to be able to make a better success of the new company than was made of the old one. The fair association's grounds on Seventeenth street is a valuable piece of property, well located for a race track and fair purposes, as the streetcar company has a track already laid right to the grounds. The company expects to have some of the best horse races this summer that have ever been seen in Ogden, and may have an exhibit this fall of Weber county products; and it is believed the public will support it in its enterprise.

IN THE DISTRICT COURT.

Suit for Overflow of Irrigating Stream—
Other Cases.

Ogden, March 15.—The damage suit of Sarah J. Helnap against James G. Widdison et al is still on before Judge Howell in the district court. The prosecution completed its testimony

TWO COUPLES WED.

Judge Livingston Delivers Lecture on
Dairying Before Students.

Special Correspondence.
Provo, March 15.—County Clerk Geo married the following couples here yesterday:

L. Hassell, 50, and Katie Anderson, 33, both of Springville.
Pratt P. Thomas, 23, of Spanish Fork, and Mima Christina, 22, of Lake Shore.

JUDGE LIVINGSTON ON DAIRY-
ING.

Judge W. D. Livingston, of Mant, delivered an instructive lecture on dairying before the students of the Brigham Young University agricultural department yesterday, giving much valuable information in regard to the care and feeding of dairy cows, etc. As an illustration of the profits he cited a case of a Mant man, who had produced butter fat to the value of \$1,000 from 13 dairy cows one year, and as an example of one of the indirect benefits to a community, of the dairy industry, it was stated that before dairying was engaged in in the Mant district, alfalfa hay was worth \$2.50 a

SUGAR BEET CONTRACTS BEING

SIGNED.
Field Supt. Job Plunger, with several other employees of the Amalgamated Sugar company, will be very busy next week visiting the various towns of Weber and Boxelder counties for the purpose of signing up contracts for the raising of sugar beets for the Ogden factory. All contracts should be signed within the next two weeks, so that planting can be commenced about April 1. The field men have been meeting with much better success during the past week in signing up the contracts and now believe that they will have no difficulty in getting contracts signed for a sufficient acreage for the local factory. Tomorrow Kanesville and Hooper will be visited and Saturday the beet raisers will be met at the Ogden office.

QUICK-NYE NUPTIALS.

Victor Nye of Ogden and Miss Florence Quick of Spokane, Wash., both of lawful age, were granted a marriage license and were married by Elder Ernest Brown at the county clerk's office. The groom is night clerk at the Broom hotel.

BRIEFS AND PERSONALS.

Tonight "Human Hearts" will be played at the Grand Opera House. Mrs. George Gibson presented her

husband with a fine baby boy yesterday.
Mrs. John M. Hanson is at the Ogden general hospital, where she has been under a critical operation.
Supt. Manson is making a tour of inspection of the Salt Lake division of the Southern Pacific.

Logan Needs More School Room—
Damage by Wind.

Special Correspondence.
Logan, Cache Co., March 12.—G. W. Leishman has filed suit in the district court against the Logan Driving Park association to recover \$320 balance claimed due him for building a fence around the park grounds.

NEED MORE SCHOOL ROOM.

The city board of education is considering the advisability of erecting another school building during the coming summer. It is understood that the present buildings are not adequate to the needs of the schools and a new building is almost a necessity. The board meets tonight to determine the amount of money required for building purposes and will meet with the city council tomorrow night to see if a scheme cannot be devised to raise the money needed without increasing the tax levy over last year. The intention at present is to raise the money by direct taxation in preference to bonding.

DAMAGE BY WIND.

The high wind on Saturday evening blew in one of the large plate glass

George Maule and wife have returned from an extended trip to California. Miss Olga Wehrndt gives a song recital tonight at the Congregational church.
The Fifth ward Primary association has arranged to give a St. Patrick's day entertainment tomorrow night.
The Ogden High school alumni gives another of its enjoyable dances tomorrow night.
Tonight at 8 o'clock at the Presbyterian church a meeting will be held for the purpose of reorganizing a local branch of the State Humane society.
A. J. Chapple, who has been serving in the navy during the past four years, has been honorably discharged, and has returned. Burbridge of Salt Lake was an Ogden visitor yesterday on business.

ACTIVE, EARNEST, PERSISTENT EFFORT

GENERALLY NECESSARY TO DISLodge AN ENEMY

Energetic, persevering action is generally necessary to overcome the obstacles and attain great and noble ends in life. So, too, if one is afflicted with a dread disease which has fastened itself upon some of the organs of the body and become firmly seated as a lingering or chronic malady, active and persistent treatment is generally necessary to dislodge the enemy.

Since any medical treatment, however good it may be, must be long continued in order to be effective in old established and therefore obstinate cases, how important that the remedial agencies employed be of a harmless character. To be safe and harmless, when their use is continued, they should be of such nature as to be easily eliminated or carried out of the system when they have performed their work. Just as the refuse of food is carried out of the system, most mineral medicines, taken easily gotten rid of. Take arsenic, for instance, if introduced into the system in any considerable quantity it will lodge in the brain, liver, kidneys and other parts and there remain as a foreign body to set up irritation and disease for a long period of time if death does not sooner intervene. This is also true of most mineral medicines.

With medicines of vegetable composition it is different. They do their work by aiding the natural functions of the several organs of the body for which they have an affinity, and like the refuse of our food, are carried out of the system through the natural excretories—the lungs, skin, kidneys and bowels. Thus no injury is done to the system in cases where the use of such medicines is continued for a long period of time. Especially is this true if the medicine taken is free from alcohol. It is well known, however, that a small portion of alcohol taken for a considerable period of time will do serious injury to the body organs and functions and especially to the brain. How important, then, in choosing a medicine to be used which are known to be free from alcohol and of vegetable composition.

With most medicines put up for family use and sold through druggists, their composition is kept a profound secret, known only to those who compound and put them out for sale. Any afflicted person who buys and uses them, does so, as it were, in the dark, if he realizes the risk or peril. They may and generally do, contain a very large percentage of alcohol or cheap whiskey which thoroughly unfit them for protracted use. But this is not the worst fault of many of them, objectionable though it is. Narcotics and mineral poisons, which we have shown to be so harmful, especially when used protractedly, are contained in many of these secret compounds.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and has published, broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. This he has done in his numerous patents and patents into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them *Reveries of Reasonable Composition*. By this bold step he has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny. He has come forward, and is willing to concede that his patients and all who take his put-up medicines have a

perfect right to know what they are taking into their stomachs.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomachs, torpid liver or biliousness, and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents; that they are made from indigenous, or native, medicinal roots of great value, the properties of which are extracted and perfectly preserved by the use of triple-refined, chemically pure glycerine of proper strength. It will also be found that the glycerine employed greatly enhances the curative principles of the several roots employed, as it is the best possible solvent of their medicinal principles, besides possessing intrinsic medicinal value of its own, being a fine demulcent, nutritive, antiseptic and antiferment.

From perusing this little book of extracts, it will be found that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Wood," and knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, the dragging-down distress in the pelvis, if relieved, it is a tender, nervous over-worked, "run-down," and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Wood," and knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

YOU FACE THE PROBLEM

Some Business Men Are Too "Conservative."
If a farmer concluded not to plant seed, but to "conserve" it, because crops it, because crops sometimes fail, he would be as wise as the merchant who "conserves" the money which should be invested in publicity, because he has it in bank, and because he fears that publicity may not be completely profitable.
