

# NEW YORK STATE OFFERS DEMOCRAT

National Club Think They Have Winner in Person of Lieut. Gov. Chanler.

WON ON TICKET WITH HUGHES.

Hon. John Fox Says He is Best Available Material for Candidate—The Democratic View.

New York, Sept. 13.—The Hon. John Fox, president of the National Democratic club, believes that New York is a Democratic state, and that Lieut. Gov. Lewis Stuyvesant Chanler can carry it again. Mr. Fox is acknowledged by Democrats of this state to be one of the coolest and most experienced observers of politics in this party. His judgment of men, situations and issues was one of the chief reasons of Richard Croker, his intimate friend, in the long series of campaign successes of that adroit leader of Tammany Hall.

Said Mr. Fox, in discussing the presidential candidacy of Lieut. Gov. Chanler, which is now receiving such hearty support from Democrats throughout the country:

"The extraordinary run of Lieut. Gov. Chanler last fall made him a commanding state figure and his conservative course as presiding officer of the state senate has properly given him national prominence. The more he is discussed by Democrats as a presidential possibility the more it adds to his availability. Neither of the two great political parties possesses a monopoly of the virtues or the follies of politics, and as the management of each party is responsible for a share of the faults committed, I consider it my duty, so far as is in my power, to aid in their correction and in the improvement generally of existing conditions."

## EYE TO PUBLIC INTEREST.

"Mr. Chanler came to the assistance of Gov. Hughes at the recent session of the legislature upon the principle that he best serves the interests of the public. Without his aid some of the reforms projected by the governor would undoubtedly have been lost on account of the action of balking Republican senators. Mr. Chanler told the members of the National Democratic club, at a dinner last winter, that he intended to support the reform governor just so long as that officer followed the principles enunciated by him in the campaign. 'While,' he said, 'I would much prefer seeing a Democratic governor carrying out much needed reforms, right is right and should be endorsed and supported whether advocated by a Republican or a Democrat. Neither of the two great political parties possesses a monopoly of the virtues or the follies of politics, and as the management of each party is responsible for a share of the faults committed, I consider it my duty, so far as is in my power, to aid in their correction and in the improvement generally of existing conditions.'"

## FAIRNESS APPROVED.

"The lieutenant-governor adhered to this high resolve, and his services as presiding officer and as a member of many important state boards have proved very beneficial to the public and have been correspondingly helpful to the Democratic party as a whole in the state. Gov. Hughes, I understand, has generously acknowledged these services, and as for the senate, it unanimously adopted a resolution approving his fairness as its presiding officer, something very unusual in a body so widely at variance with itself in matters political."

## HOPE FOR DEMOCRACY.

"The elevation of a Democrat of Mr. Chanler's high ideals has given great encouragement to the rank and file of the party and especially to its younger members. They begin once more to feel that Democracy holds out some hope for the earnest and independent in political life. He is the first Democrat to fill the high office of state since the days of his election, accompanied as it was with the defeat of the head of the ticket (for which of course he was in no way responsible) by 60,000, in the face of the Democratic contention that New York is a Democratic state when the Democrats are given preference and the issues are genuinely Democratic and unequivocally defined in the platform."

"Mr. Chanler has carried the state of New York once and he will carry it again by no means majority, if unopposed by the presence of a Democratic party. The old-time Democratic, so-called, voted for him to a man last fall for he was no stranger at their state conventions or in their councils."

## SAFE CANDIDATE.

"Mr. Chanler represents neither of the extremes reached by the Democratic pendulum in recent presidential campaigns and his presence in the presidential field will be welcomed by Democrats generally in this state as that of a progressive, sane and safe candidate. On the one hand, as a man of peace and affairs, he naturally induces confidence on the other, he has earned the sincere respect of a great body of workers by his own philanthropic labors in fields seldom trod by men of means."

## OF GOOD STOCK.

"As the saying is, 'he comes of good stock,' which is a blend of the colonial American, the German and the Celt."

Several of his ancestors bore a distinguished part as commanding officers of high rank in the war of the revolution and also in the early civil history of this country. With his father, John Winthrop Chanler, I served in the Fortieth and Forty-first Congresses in the reconstruction days, and a more partisan period and having incurred the displeasure of a partisan house, it was natural that he should be censured by its speaker, Schuyler Colfax, just as it was natural that he should rise in his seat and announce with equal formality that he regarded censure from such a source as a badge of the greatest distinction that could be pinned upon a Democrat. He selected me for his second in a duel which he was anxious to fight with another member, but state and Boyd Winchester, both of Kentucky, and finally convinced him that one gentleman who had belabored another with an umbrella, in the sight of all men, as he had, was not really an aggrieved party, and that the states of the situation required him to stand pat and await developments. Much to his disgust, the other gentleman made up his mind that he had had enough, and no challenge was forthcoming, although Chanler haunted the postoffice several days in the hopes of receiving such a document. He was quite as indignant to royalty as to the speaker's censure. When the Prince of Wales, now King Edward, visited New York and Colonel Cavanaugh refused to obey the order to parade the Sixty-fifth regiment, Congressman Chanler promptly presented him with the finest sword that money could purchase.

**STRAIN OF INDEPENDENCE.**

"There is a strain of independence in the son which must be reckoned with in any attempt to swerve him from a right course of duty. He is a Democrat, it is true, and he believes in the democratic party, but he is a citizen also who does not forget that the first duty of a party is to the public. He has had practical experience in ring-smashing himself, in Dutchess county, where with the help of Republicans the Democrats twice elected him a supervisor."

## NEW YORK'S OFFERING.

"If the Democrats of the south are serious in their determination to clean the Augean stables before the New York, which stood shoulder to shoulder with them in more than one campaign in the past, will offer a favorite son to the national convention, next year, who will merit their confidence and support."

## FAVOR A STRIKE.

Ninety-Five Per Cent of Engineers on Missouri Pacific.

Kansas City, Sept. 16.—The Star today says the Brotherhood of Engineers in Kansas City asserts that as a result of a vote recently taken 95 per cent of the membership of the Missouri Pacific railway favor a strike because of the company's refusal to make certain concessions involving the roundhousing of locomotives at the end of the runs. It was said by the engineers that a strike of the engineers on the Missouri Pacific system would also involve the engineers on all the Gould lines, including the Iron Mountain, the Denver & Rio Grande, the Wabash, the Texas Pacific and the International & Great Northern. There are 1,200 engineers employed by the Missouri Pacific and the Iron Mountain alone.

Representatives of the firemen were in Kansas City yesterday canvassing the situation with a view to joining the strike. A conference of the engineers' order and the railway officials will be held in St. Louis this week.

It is expected that the Moors will return from their mission on Thursday and effect a general submission of the hostile tribesmen.

## DRUDE'S MISSION.

Casa Blanca, Sept. 16.—With the submission of the Moors, which now seems practically assured, it is expected today that the mission which took Gen. Drude into Morocco has been fully accomplished. Persons acquainted with the country declare that the movement of the tribesmen is over. They are essentially agriculturists, and they are in a hurry to return to their fields for the next grain.

It is understood that when absolute calm is re-established here, the troops now quartered in and about Casa Blanca will be distributed to eight sectors to inaugurate a police system.

## U. S. ATTY. BURKE WILL ASSIST IN RUIK CASE.

Boise, Ida., Sept. 16.—Timothy F. Burke, United States district attorney for Wyoming, has, at the request of Special Atty.-Gen. M. C. Busch, been ordered by the department of justice to take charge of the grand jury investigation of charges made against Dist. Atty. N. M. The grand jury will meet Wednesday. Members of the grand jury which found the indictments have been summoned as witnesses. Charges to the effect that Ruick used illegal means to secure the indictments are made.

William Sweet today denied that he had repudiated his confession and said he would give the same testimony in the Borah trial that he gave before the grand jury. Sweet is under indictment with Borah, but turned state's evidence on promise of immunity.

## GARY TAKES OPTIMISTIC VIEW OF BUSINESS.

New York, Sept. 16.—E. H. Gary, chairman of the directors of the United States Steel corporation, took an optimistic view of business conditions in an interview today. He declared that a general quickening of business will follow the sale of \$100,000,000 worth of crops which he expects to take place in a few weeks if the weather remains favorable. In the near future, he added, the public will realize that not in 10 years has it had such a chance to pick up good wheat. When that comes, he said, the companies will be enabled to raise funds for renewals and extensions. Mr. Gary continued:

"To me, the general situation is this: The country was in need of between \$500,000,000 and \$1,000,000,000 additional capital, and could not get it. If the favorable weather continues for the next two or three weeks, we will get \$700,000,000 for our crops. That will keep the railroads. The railroads must order new cars and rails. A general quickening of business will follow. In my opinion, the forthcoming presidential election has been discounted earlier than usual, and it has been reflected in the securities market."

# FROM FEET TO HEAD

With Eczema—When Indoors, Itching Was Fearful—Prescription Did No Good—Followed Friend's Advice and Found Speedy Relief.

A PERFECT CURE BY USE OF CUTICURA REMEDIES

"I was raw from my shoulders down to my feet. As soon as I went into a warm room I could not stand the itching sensation. I tried several remedies with no relief, and I consulted a doctor who told me that I had eczema and gave me a box of ointment. I used it about two weeks and got no benefit. I then tried another ointment, and the same result. Then I was advised to try the Cuticura Remedies. I got a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and commenced to use them. By the time I had used about half of each of them I could see an improvement. After that I continued to use them until I had used four cakes of Soap, two large boxes of Ointment, and three large bottles of Resolvent in four or five weeks' time. At the end of this period, my skin was as clear as it could be. It is now three or four years since I used them and I wish to state that the Cuticura Remedies are the best in the world not only for eczema but for female trouble, from which my wife has been a sufferer for years. Cuticura Remedies, used in conjunction with one of the Cuticura syringes have done wonders for her. Fred E. Baker, 14 Grotto St., Watervliet, N. Y., Nov. 30, '06, and Jan. 20, '07."
