Billy Made a Fortune by Careful In. restments and Saving His Earnings-Worth About \$60,000.

According to a Los Angeles writer, Battling Nelson has again placed himself un he management of "Billy" Nolan der from whom he had been estranged for some time. Concerning the reconciliation Nelson said:

"I have made up with 'Billy.' I found that his enemies had been telling me lies about him. We'll leave for a tour of Euafter I do some 'cleaning up' out rope

Battling Nelson has been rated wealthy. Batting Melson has been rated wealthy. Among the fighters he has been placed in Class AA, which is the fattest. It has been generally supposed that he had the first collar he earned in the ring. This supposition was probably based on the fact that the Dane was never caught stringing his money on the bars and ask-ing the boys what their pleasure will be. was conducted at the time of M. Del-casse's downfall. The Patrie, supplementing the al-leged revelation in the Action, says that only M. Deleasse and M. Loubet who was then president of France were aware of the Anglo-French nego-tiations. When M. Rouvier took M. Deleasse to task at the famous cabinet meeting of June 6, 1905, for keeping his colleagues in ignorance of these nego-tiations, and demanded his resignation within half an hour, he used, according to the Patrie, the following words: "Your attitude is criminal; you de-serve to be stood up against a wall and shot." Cleveland, O., Jan. 27,—At 10 o'clock to-night the scores of the five lenders in the six-day "go-as-you-please walking match which began at 1 c'clock this morning were: Kluberlans, 105 miles: Shelton 101.12; Dineen, 35.5; Prouty, 91.5; Barnes, 88.11. ## DOGS IN TRAINING.

Prove to be of Great Value to New York Police.

The Eclaire contributes a chapter of this alleged secret history. It alleges that M. Delcasse threw over the entire policy of M. Hanotaux, former minister of foreign affairs, for the purpose of playing England's game. After the battle of Colenso, during the Boer war. Russia proposed a mutual understand-ing, that should make easier France's course in Moroeco and Russia's pro-jected plans in Egypt. This M. Del-casse refused, however, and notified Great Britain of Russia's action. The final result, the Eclaire concludes, was an entente by which Great Britain traded something she did not possess in Moroeco for France's interests in Egypt. York Police. York Police. New York, Jan. 28.—New York's police dogs were put into active service early this morning for the first time. Experi-ments with the Belgian hounds brough from Europe and trained with an es-pecial view to service as an adjunct to the city's police force, proved the ef-fectiveness of their instruction. Sham attacks on uniformed men by policemen in plain clother were promotily resented by the dogs, only the muzzlee on the animals preventing serious harm being done the agreesors. The dags after their exercise in the district between Prospect park and Coney Island after midnight, were taken before daylight, but will be on duty tonight at 10 o'clock and kept working until 3 o'clock tomor-row morning. For the present they will be restrained by leaches, but after they learn the prednet they will be allowed to roam at large. ## LAND FRAUD CASES.

No Intention on Part of Government

Emperor William learned of the treaty, according to this newspaper, he told the Italian ambassador at Berlin that on the day it was signed he would march German troops into Lorraine. This threat reached France, whereupon M. Rouvier, who was then premier, ac-cused M. Delcasse of carrying on se-cret negotiations. M. Delcasse admit-ted that this was true, and at the re-quest of his conferee, he resigned. Denys Cochin, in an interview today, pronounced the statement in a great measure untrue, and says it is an out-growth of the alarmist campaign that was conducted at the time of M. Del-casse's downfall, Portland, Or., Jan. 28.—While no more land fraud cases will be tried at the present term of the federal court, there is no intention on the part of the government to abandon them. Rheumatism is caused by an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste have failed to carry off. This waste or refuse matter ferments and sours and generates uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism, with its torturing pains and aches, inflammation and other disagreeable symptoms, gets possession of the system. The aches and pains may be relieved and the inflammation temporarily reduced by the application of a good plaster, penetrating liniment or some other simple home remedy, but the disease can never be cured while the blood remains saturated with the irritating, pain-producing uric acid poison. The cause should be driven from the blood before the trouble reaches the chronic or helpless stage. S. S. S., a purely vegeteble remedy, cures Rheumatism by thoroughly cleansing the blood of every particle of the uric acid poison, and making the visual fue plood of every health-sustaining. It filters out from the circulation the remotest particle of the poison, and when S. S. S. has renovated the blood, Rheumatism is thoroughly and permanently cured. ## Bequeaths a Million to American Mu-

seum of Natural History. New York, Jan. 28 .- Morris K. Jessup's bequest of \$1,000,000 to the American museum of natural history here tean museum of natural history here announced last night by his executor, is the last of a long succession of gifts the noted banker and philanthropist had made to the institution since 1852. As lately as last year he had financed the F. W. Putnam expedition to Alaska for the investigation of the origin and relationship of the Indian tribes on both sides of Earing sea. The expedi-tion cost \$150,000. Mr. Jessup also paid the expenses of last year's Henry Fair-field Osborn expedition to the Fayum desert. Egypt, on the hunt for the bones of the prehistoric elephant. An-other scientific expedition that received his support was the Lumholtz expedi-tionship between the North American and the Central American Indians. The fruits of all these expeditions and re-searches have accrued to the museum, which alse added largely to its stock of stuffed animals through the Stone ex-pedition to Alaska, another enterprise which received aid from Mr. Jessup, Mr. Jessup was a constant giver, as well, towards the purchase of private collections of articles which the muse-um desired to acquire. Last year he spent \$30,000 in such collections. He was also in the habit of contributing annually to meet the deficit in the museum's funds. announced last night by his executor, is
