Many of the leading politicians of the nation are expected to be present, and it is said that the movement is endorsed by republicans in all sections.

A hanging day seems to be badly needed among the politicians of New York and Brooklyn. A dispatch to-day says two of these worthless, belonging to New York, returning drunk from a picnic, without provocation, nearly beat to death two innocent citizens. But Brooklyn has the same pliancy for villainy in this respect. A servant-girl appealed to one of these guardians of the peace of that city to protect her from the insults of a rowdy; the policeman took her under his "protection," conveyed her to a retired place, outraged her, and then sent her so severely that physicians say she will die. Hanging is too lenient for a scoundrel like that.

The Den of Orleans and Conservative State Central Committee of Louisiana has issued an address to the people of the State, in which they expose and denounce in strong terms the usurpations and outrages of the carpet-bag rulers and office holders of Louisiana.

The loss by the fire at Moke-lumne Hill, Cal., last Friday afternoon, is estimated at \$175,000.

The Governor of Kansas renews his request to the President of the United States, to take steps to protect the frontier of that State, from the depredations of the Indians, since the 18th of June sixteen citizens of Kansas have been murdered by Indians, and that not one of the murderers has been punished or arrested.

A message signed by the leading citizens of Shreveport, La., was sent to President Grant last Friday night, denying that outrage and lawlessness, beyond the control of the local authorities, exist there, and asking for the appointment of an investigating committee as the above cannot more be hoped for for Shreveport, or for Louisiana, than for Utah. It was asked for Utah and the Poland bill was passed. It is asked for Louisiana and Kansas are placed at the disposal of the carpet-baggers, the worst enemies of the State and people.

## ANOTHER KICK FOR THE CARPET-BAGGERS.

THESE rascally carpet-baggers are catching it all around. They appear to have no friends among the people. The most they do is to stir up the peace and stir up strife and litigation, sedition and violence.

It is stated that the troubles in Louisiana, and the part taken by the carpet-baggers, have been incited by Federal and other officials for the express purpose of getting U. S. troops into the State, not to protect the people, but to control elections.

It is much the same here. The carpet-baggers in this region strain themselves in endeavoring to smooth and gloss over the election riot in this city, and the attempt to seize the ballot-box and murder the mayor. But it won't do. The subterfuge is too transparent, and it will fail.

Public indignation seems to be waxing hot generally against the unscrupulous carpet-baggers through the Union, and we should not be surprised to see many of them yet marked 24 times for any where, anywhere, out of the world, with their rascally, carpet-bags in their hands, and visions of indignant boot-tops helping them a position, which nobody needs them.

## ON HIS KNEES FOR ALMS OR ARMS AGAIN.

Governor Osborne, of Kansas, is down on his knees again, to President Grant, begging, once more for some guns, not big guns, little guns will do. The Indians have killed a few whites on the borders of Kansas, and the Governor wants federal rifles and ammunition to drive them off and punish them.

An exchange says, "If Kansas people go to hunt buffalo, and happen to kill a few Indians, that is a mistake. If the Indians happen to kill a few Kansas people, that is an Indian war." But saying nothing of the origin of the difficulty, does it not really look as if Governor Osborne and the Kansas administration were small potatoes concerns? Here he is, a man in a little bit of a corner with the Indians, and he begs pitifully of President Grant for a few guns, a little powder, and a few bullets to pop the red skins with and teach them obedience. That is a thing the Utah people never asked, although they were not on the borders of civilization and help, but a thousand miles away from either.

Gov. Osborne must feel slightly white-livered, to go crouching to General Grant a second time, and subject himself and the State and people of Kansas to the probable indignity of another rebuff and refusal, and of being told again of the State's impotence and slowness to pay its debts.

MUST STICK TO THEIR POSTS.—Here is a dispatch from the St. Louis Democrat, which will be interesting to federal officials hereabout, who have a wonderful taste for absenteeism—

"Washington, Sept. 1.—It has been years since the practice of the U. S. District Attorney to absent himself from

their districts and duties whenever they desired, leaving their business to subordinates, to take care of itself, and it was found that a large number of cases that were pending in the Department of Justice, to communicate with the district attorneys, to be found. This has been particularly the case in the South, where Marshalls were never present in their districts, except during terms of court.

"The Attorney General is now making a strenuous effort to prevent them from leaving their districts, except on official business, without his consent. The Attorney General says that the law requiring judges to reside permanently in their districts should also be binding on the officers of the court."

#### The Wheat Crop, Critics Disagree.

CHICAGO, 7.—The Inter-Ocean wheat crop, according to the present estimate of the U. S. Department of Agriculture, is 2,000,000,000 bushels, or 27,000,000 bushels per acre.
