POISONED AT THE BREAKFAST TABLE

Lucy Morgan Hansen of Logan Is Dead and Husband Very III Man.

THOUGHT TO BE CANNED MEAT

Sad Case Wherein Niece of Bishop Morgan of Salt Lake Loses Her Life.

(Special to the "News.") Logan, Sept. 28 .- As the result of a case of poisoning here this morning Lucy Morgan Hansen is dead, and William S. Hansen, her husband, is in a eritical condition. There are slight hopes for his recovery. The cause of the polsoning is not definitely known, and will probably not be determined until after an inquest. The condition of Mr. Hansen is so critical that it is impossible as yet to learn any of the details from him, and no one else was present when the poisoning occurred.

That something eaten at their breakfast caused the death of Mrs. Hansen is generally conceded, as both Mr. and

Mrs. Hansen were taken deathly sick immediately after eating breakfast together. The meal consisted of canned meaf and oatmeal mush, and investigatien will probably discover the poison in Dr. Budge and Dr. Calderwood were summoned as soon as possible after the poisoning was discovered, and did all in

polsoning was discovered, and due to their power to save the patients. However they arrived too late to be of assistance to Mrs. Hansen, who was most seriously afflicted, as she died in great agony at 9:30 o'clock. The doctors are still working on Mr. Hansen, and while he is very low, they entertain hopes that he will recover.

Mrs. Hansen was the daughter of Mrs. Hanson was the daughter of Thomas Morgan of the Fourth ward, and a niece of Bishop Morgan of Salt Lake City. She was well and favorably known here, and her untimely death has cast a feeling of gloom over the entire community. Mr. Hansen was due to leave in a few days for Samoa on a mission. For same time he has because a mission. For some time he has been proprietor of the City Shoe Store, which he has just sold preparatory to going

GOT WHEEL BACK.

Manager Rust Recovered His Stolen Bike on the Street.

Manager Rust of Dun's agency took his chainless blke to Ogden with him the other day, and at every place where he stopped, but one, he locked his wheel. And it was at the one place that the wheel was stolen. Mr. Rust notified the police, who immediately went in "hot pursuit of the thieves," and for all that Mr. Rust knows, they warm chase. However, the wheel was not found, and Mr. Rust re-turned to Salt Lake. Yesterday, as he was standing at the Walker bank cor-ner, ruminating on the uncertainties ner, ruminating on the uncertaintes of this life, a stranger rolled right by him on the missing bike. It did not take Mr. Rust long to nab the rider, and take his plunder from him. The fellow put up a transparent story, and was handed over to the policeman with a request to look the man up, and he himself would appear later to prosecute. But the officer saw fit to turn the man loose, and immediately he was not. But Mr. Rust got his wheel back, and low he invariably locks it when leaving it at any place,

STUDENTS MEET.

Interesting Occasion at the University Of Utah This Morning.

The students of the University of Utah held a most enthusiastic meeting this morning on which occasion the orchestra made its initial appearance and played the students to their seats. The orchestra, which is a very good one, is composed of Beesley, violin. Freeman, planist: Nelson, cornet, and Watson clarionet.

The first speaker at the meeting was John C. Brown who made an address of welcome and spoke on athletics and the Chronicle. At the conclusion he introduced Prof. Fred Reynolds who for the past five years had been a student at Harvard, Prof. Reynolds tool as his theme "Student Life at Harvard and furnished a very interesting talk on the big football games between the universities of the east. He stated that these big games were witnessed by crowds of fully 40,000 people who yelled courage the opposing teams but to en-courage their own men. A noticeable feature of the college yell was, he said that no epithets were hurled at the rival players such as is the custom out in the wild and wolley west Since President Elliot has beed at the head of the university the institution has increased its force from \$0 to \$600 instruccreased its force from \$0 to 600 instruc-tors while during the same period of 36 years the library has grown from 180,000 volumes to the grand total of 840,000 and the wealth of the college from \$2,225,000 to over \$18,000,000. An-other striking feature regarding Har-vard as set forth by the speaker, is that every freshman has to pass an examination ere he can be admitted to the university, as no certificates or

credits from other colleges were taken Coach Maddock was the third speak er and he was enthusiastically cheered as he arose. He took as his subject, Athletics. He spoke regarding the need of a good gymnasium and a tackle and charging machine for the students The latter machine, he said, registered the percentage of each man and is would be a good scheme to get one and give prizes as an incentive to the can-didates for the 11. He then spoke re-garding yells and intorduced a new one

Prof. Cummings followed and confined his remarks to the financial con-dition of the athletic association. George C. Reiser then announced the game between the University of Colo-rado and the U. of U. elevens, which is scheduled for Saturday. The visit-ing team is expected to arrive on Friday and will be given a reception and ball in the University building or that evening when music will be furished by the cellege orchestra free of

TWO FIRES.

Residence and a Barn Scenes of Small Losses This Morning.

At II o'clock this morning there was a fire at the residence of Owen Myers, 930 south Second West, caused by a defective flue. The damage to the building and contents was about \$50, both covered by insurance. The blaze was extinguished be for the department arrived, although the run was made in good time.

At an early hour this morning a barn owned by A. W. Ensign, 152 Tenth East, was destroyed by fire. A horse was also burned, the total toss being in the neighborhood of \$200. The cause of the blaze is unknown and no insurance was carried on the place.

SHOT THROUGH HEART.

Another Fatal Gun Accident-David H Hutchison the Victim,

Special Correspondence.

Wellsville, Sept. 27 .- Leaving home on Saturday morning on horseback and against the expressed wish of his mother taking a double-barreled shot gun with him David H., eidest son of David Hutchinson of this city was brought home on Sunday night dead.

As he was alone when he met his death the manner of the happening is altogether conjectural. An examination of the body showed that he had been shot through the heart at such an angle as to lead to the supposition that the horse had probably stumbled, the gun dropped to the ground and went off on striking the hard earth. Parley

Murray, returning home down Pine canyon from his father's sheep camp came upon the dead body.

Funeral services were held here today and were largely attended, considering the exceedingly busy season. Great sympathy is expressed for the boy's parents who are literally frantic with grief at the dreadful tragedy.

SMITH CASE DISMISSED.

Judge Morse Sustains Defendant's Mo tion for a Non-Suit.

Judge Morse this afternoon sustained defendant's motion for a non-suit in the case of Mrs. W. R. Smith against H. J. Smith and dismissed the action. Th action was brought by plaintiff to re-cover \$5,000, the value of a home which it was alleged defendant promised to give plaintiff if she would dismiss the divorce proceedings against her husband, the son of defendant in this action, if she would return and live with

INDIANS NOT WISE

Such is the Conclusion Reached By the American Bar Association.

SEVERALTY ACT APPROVED.

Recommends That Federal Courts be Given Jurisdiction in All Cases Where Indians Are Parties.

St. Louis, Sept. 28.-The final session of the convention of the American Bar association was occupied today in receiving committee reports, the election of officers and the transaction of routine business. Marked interest has been shown in the daily proceedings of the association, and there has probably not been a convention held on the world's fair grounds that has been more uniformly attended in the daily sessions. Two eminent lawyers from Pekin, Chlna Chow Tsch Chi and Sun Sze Yee, accredited representatives of the emperor of China to the Universal Congress of Lawyers and Jurists, which convenes here, have attended every day's session, and evinced deep interest in the deliberations.

A resolution was introduced by Ferdinand Shack of New York, and adopted, that the association express its, deep gratification at the steps recently taken by the Inter-Parliamentary union in the settlement of controversies between nations in the same manner as disputes between individuals are settled, that is, by judgment in accordance with recog-nized principles of law, and this association records its great satisfaction at the announcement by the president of the United States of his intention to comply with the request made to him by the Inter-Parliamentary union that he invites the nations to a conference.

The report of the standing committee

of uniform state laws was adopted. A report of the special committee on Indian legislation was received and fil-ed. It embodies the conclusion that "in the majority of the Indian reservations the prompt carrying out of the provis-ions of the 'severalty act' approved Feb. 8, 1887, is apparently the best practi-cal solution of the Indian problem. The report states "our policy toward

the Indian is neither wise nor humans. We require of him no labor. We fee him and allow him to spend his time in listless idleness. This naturally leads to vice, degeneracy and extinc-tion. Yet he can work, We think that in the greater portion of the country the time and circumstances are ripe fo the application of the severalty act. In the arid lands of the southwest a difficuit problem confronts us. We think that throughout this arid region the federal courts should be given jurisdic-tion of all litigation, civil and criminal,

"In other words, it was confessedly an imaginary letter, written for the sake of bringing out certain truths in regard to the meat strike."
The Evening Post also says:
"We had no thought, of course, of

being able to make even a presentable imitation of the president's literary style, and as the article was at the time commented upon and reproduced somewhat extensively in the press, we never dreamed of its ever coming to figure as a 'campaign forgery.'"
