WRATH TO COME

North Ogden and Eden Irrigators
Fighting to Save their Crops—
Court Orders Ignored.

FUNERAL OF AND. PATTERSON.

Forty-two Candidates for Teachers' Honors—A. G. Horn Wins Suit.

Ogden, Utah, Aug. 9.—Already three contempt proceedings have been commenced in the Second District Court by members of the North Ogden Irrigation company against George A. Fuller et al, members of the Eden Irrigation company, and the plaintiffs have asked for \$10,000 damages in each suit. The water question between these parties is becoming a very serious one, as notwithstanding the order of the court that the defendants Fuller et al must not interfere with the water of the North fork of the Ogden river, the defendants are charged with tearing down the dam.

The last proceedings to be brought in the difficulty were commenced last evening by James Bidwell, Nathaniel Bailey, George and James Roylance, representing the North Ogden Irrigation company, against George Fuller, Frank Clark, Jr., Hyrum Carver, John Bachman, Thomas Clark and Joseph Nelson, all stockholders in the Eden Irrigation company. The complaint charges that on Sunday last the defendants built up the dam in the river in violation of the order of the court, thereby diverting the water of the river from its channel to plaintiff's damage in the sum of \$10,000.

Both parties have been keeping watchmen in the dam site to see who builds up and who tears down the dam. The plaintiffs in this suit allege that on Sunday the defendants attempted to rebuild the dam, making the third time the dam has been built up and three times torn down. The North Ogden people claim that their crops suffer as a result of the water being let the water down the main channel of the river their crops will be ruined. The Eden people claim that if they let the water down the main channel of the river their crops will be ruined. No woman's happiness can be complete without children; it is her nature to love and want them as much as she is to love the beautiful and

pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror.

There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This

great and wonderful remedy is always applied externally, and has carried thousands of women through

the trying crisis without suffering.

Read the true book containing information of priceless value to all expectant mothers.

Probably about 1843, a man named Bailey got up a military organization of boys and young men of about 6 to 18 or 20 years of age. I was one of the members. The organization was called the Nauvoo Legion. We had a band of music with drums and fife. The boys carried United States flags and wooden guns, which were made of tin. We were dressed in uniform and had broad paper caps, decorated with artificial flowers and ribbon. We were put through regular military drill, and marched through the city. We were city and presented a fine military appearance. I do not remember the name of the organization was known by, unless it was called the Young Nauvoo militia. Some have mixed it up with the Nauvoo legion, but it had nothing to do with that organization. I do not remember how often these military drills took place, probably once a month.
