BREVITIES.

Jersey City has a club of Johns. No one with any other Christian name is allowed to join.

The horn of a Patagonian ox has been forwarded to Baltimore. It is sixty-five inches long, seventeen inches in circumference at the base, and will hold seven quarts.

At North Hatfield, Mass., it is stated that in the early days a road was laid out which was described as "running from Pochaug meadow to the stream where old Mr. Doolittle's horse died."

"Mother," said a bright little girl, "is hell a hot place?" Being a little puzzled at what reply to make, the mother answered, "Yes." "Then," said the child, "why don't they turn the damper?"

"Boy," said an ill-tempered old fellow to a noisy lad, "what are you hollerin' for? when I'm going by?" "Humph?" replied the boy, "what are you going by for when I'm hollerin'?"

The Providence *Journal*, discussing the question as to how soon a mob should be fired on, says: "We think that under such circumstances 'patience ceases to be a virtue' after a second brick, and is not much of a virtue after the first."

Napoleon visits London every day, generally following along the sunny side of Bond street, or haunts the bow windows of a club house. He is very popular with the working classes, who cheer him, and he is getting very fat.

An enthusiastic Yale student gazed long and earnestly through a telescope at the movements of Saturn, and afterwards discovered that he had been watching the receding head-light of the New York steamboat.

A New York lady whose children have the whooping-cough sends them to the park every day, with a large label round their necks on which is printed in large letters, "I have the whooping-cough: Keep away."

This is the Philadelphia *Post's* idea of seasonable poetry:

"Where warbling aloft on the thingumbob tree,
The what's-its-name sings to the jiggamaree,
And the bulbul tewks on the beautiful vine,
Where the nightingale and jim jaw entwine,

The Cornersville (Ind.) *Times* tells of an old rail-splitter in that county who put a quietus upon a young man who chaffed him about his bald head, in these words: "Young man, when my head gets as soft as yours, I can raise hair to sell!"

An Ohio Postmaster advertises that the Postoffice Department makes a distinction between samples and specimens. For example, a clipping of cloth which cannot be sold as merchandise is a sample; a ready-made circumference is a specimen, and would have to pay letter postage.

During a fine starlight evening lately, a three-year-old philosopher, after a silent and apparently profound scrutiny of the heavens, asked his mother abruptly where the stars came from. Mamma replied: "I don't know, Willie; I don't know where the stars came from." "Well, you bet I do; the moon laid 'em."

A little boy who went to church was cautioned to remember the text, which was: "Why stand ye all the day idle? Go into my vineyard, and whatsoever is right I will pay thee." Johnny came home and was asked to repeat the text. He thought it over a while and then cried out: "What d'ye stand round here doing nuffin for; go into my barnyard and work, and I'll make it all right with you."

The operation of clearing out the ruins of the Hotel de Ville is progressing rapidly. The Court-yard of Honor has already been freed from the ruins. The two bronze statues of Francis I. and Louis IV., which were believed to have been destroyed, escaped the fire. The first has one leg damaged by the fall of burning materials, but the other escaped intact.

Simultaneously with the announcement of the disappearance of the yellow fever at Buenos Ayres comes that of the breaking out of the Asiatic cholera in Poland and Persia. It is six years since this fearful scourge made much havoc in Europe or Asia. In 1865 the cholera was very severe in Alexandria, Constantinople and several Mediterranean ports.

Oh! speak not harshly of the stricken one weeping in silence. Break not the deep solemnity by rude laughter or intrusive footsteps. Despise not woman's tears; they are what make her an angel. Scoff not if the stern heart of manhood is melted sometimes into sympathy; such tears help to elevate him above the brute. I love to see tears of affection. They are painful tokens, but still most holy. There is a pleasure in tears—an awful pleasure. If there be none on earth to shed a tear for me, I should not wish to live; and if no one might weep over my grave, I could never die in peace.

WASHINGTON, D. C.

WASHINGTON, 9.—The President received the following dispatch from Earl Dalkeith, Edinburgh: "The proceedings of the national celebration of the centenary of Sir Walter Scott in this, the city of his birth, are on the eve of beginning. Many distinguished Americans have accepted our invitations. We offer congratulations to the American people through their President; General Grant, himself of Scotch descent. May a lasting friendship subsist between us and the United States."

The President has appointed J. D. Creigh, of California, a Commissioner to the centennial exhibition at Philadelphia.

The new Commissioner of Internal Revenue will to-morrow take up the subject of the contract for supplying the bureau with paper for whisky, tobacco and beer stamps, the plates for which have been ready for several months, but the printing of which was delayed owing to the late troubles. The commissioner to-day revoked the commission of Henry who succeeded Clifford Thompson in the office under Gen. Pleasanton. Other changes will also take place in the bureau.

NEW YORK.

Two men killed.

TROY, 9.—Two men were killed in the east end of the Hoosac tunnel, during a shower yesterday afternoon, by the premature discharge of glycerine, caused by a flash of lightning which entered the tunnel on the rails.

BUFFALO, 9.—The attendance at the races to-day was 10,000. The 2.27 race, postponed yesterday, was won in three straight heats by Major Allen; time, 2.27¾, 2.25½ and 2.21.

NEW YORK, 9.—A deposit of copper, silver and some gold has been discovered on the farm of Samuel Barnes & Bro's. Ledyard, Connecticutt.

Gov. Evans, of Colorado, sailed for Europe to-day.

Under arrangements made by Judge Richardson for the negotiations of the new five per cent loan, a sum of not less than twenty to thirty millions of dollars will be placed to the credit of the Treasury on or before the twenty-fifth inst. applicable to the payment of the old 5-20's loan, taken by Cook, McCulloch & Co.

Pleasanton's removal elicits considerable comment in political and business circles. Many heavy business men and bankers regret the necessity which led to the President's course, as among this class the ex-commissioner has strong support, on account of his efforts to repeal the income tax last winter.

NEW JERSEY.

NEWARK, 9.—The Democratic State convention for the nomination of a candidate for Governor is called to meet in Trenton on the 30th of September.

NEW HAMPSHIRE.

CONCORD, 9.—N. W. Gore, ex-Secretary of State, died last evening of chronic dyspepsia.

PACIFIC COAST DISPATCHES.

SAN FRANCISCO, 9.—The Democratic Municipal Nominating Convention last evening accomplished nothing beyond receiving the names of candidates for supervisors and school directors. The Democratic Legislative Convention nominated Owen McMahon, of San Mateo, for joint Senator, and J. A. McClellan and Wm. A. Corper, Senators from San Francisco.

Lewis Beach, who committed suicide in Laurel Hill cemetery, by taking strychnine at the grave of his sons, left the following note in his pocket:

"My dear wife, forgive me, but I cannot live longer. I have not been as I ought, but I have tried to be honest, and I hope God will forgive me. Ask Mr. Miller to take my tickets and see to them for you. You will find one in the pocket of my flannel coat. Good bye; God bless you! You have been a good wife to me. I am going to see our darlings.

I remain your affectionate husband,
LEWIS BEACH."

"Dear Tilpha: Here by the graves of our dear boys, I breathe my last. I tried to get means from my friends, but could not do so. Farewell my darling; I hope we may meet in a better world.
L. B."

His last son was killed by the building thrown down by a gang of boys on Leavenworth street, two weeks since.

The board of education adopted a resolution to make a thorough investigation of all affairs of the department, with the view of economising sufficiently to avoid the threatened deficiency of $75,000 this fiscal year if possible.

A temporary injunction has been granted on the suit of J. D. Montague *et al.*, stockholders in the Hidden Treasure mining company, to restrain the collection of an assessment of two dollars a share now due. The petitioners charge the president and board of directors with mismanagment, contracting to pay twice the value of the Big Smokey mill, desiring to break down the stock; and allege that no mill is necessary, and if necessary that the present rate of profits from the working of the mine will pay for it in sixty days without assessment.

James Behrens, agent for the Eugene Cliquot champagne manufactory has been arrested, charged with misappropriating $6,000, the proceeds of sales.

OAKLAND, 8.—The opposition ferry company has ordered the building immediately, of a first-class, powerful, swift double-ender, 190 feet in length. The *Chin du Wan*, carrying at ten cents a head, goes loaded every trip.

The weather is warm and cloudy. Arrived this morning the steamer *Montana* from Manzilan and way ports, with $388,000 in treasure and fifty-two passengers.

Dr. Kitchen, surgeon of the U. S. steamer *California*, arrested at the Mission on Monday night, on a charge of burglary by breaking into houses while intoxicated, has been discharged; as it was evident he was not after plunder.

Advices by the *Montana* say that Buelna, the Juarist candidate, is elected Governor of Sinaloa. Both Sinaloa and Sonora went for Juarez for President.

Two-thirds of the goods in the Pavilion are now arranged for exhibition, and by to-morrow night everything will be in order.

Gold 112½; greenbacks are selling at 90 and 90¾.

SAN FRANCISCO, 9.—Col. Von Schmidt leaves for the mountains to-morrow morning, to agree with an engineer designated by the Central Pacific R.R. Company on the initial points for the Lake Tahoe tunnel, and to superintend the erection of quarters for a large force of laborers to be put to work as quickly as accommodations can be provided for them. The tunnel will be bored as first intended, with a machine cutting out a core seven feet in diameter, and then enlarged by blasting to nineteen feet in height and twenty-one feet wide.

The time for the collection of the original Hidden Treasure assessment of two dollars has been postponed until the 7th of September. It is probable that the assessment will be rescinded altogether.

This morning, Mrs. H. Heyneman, wife of a prominent merchant of San Francisco, riding with her son in the western part of the city, was thrown from the carriage by the team running away. Her skull is fractured and it is supposed she is fatally injured. The young man was also severely but not dangerously hurt.

The Governor of Lower California writes to the Mexican consul, De Rivas, that the last remnants of the Magdalena Bay colony have arrived at Cape St. Lucas, and are awaiting transportation to San Francisco. Meanwhile he is issuing them rations to keep them from starvation.

The schooner *Fanny Hare* is loading flour for Singapore direct.

Paper table cloths are the latest novelty announced.
