Address on Sampler—The Utah Society of Engineers will listen next Friday evening, to an address on sampling machinery, from H. P. Saunders.

Boilermakers' Dance—The Boilermakers' union gave a largely attended ball last night, in the Odeon. The decorations were profuse and attractive, and the music was good.

Pleasing Entertainment—Mr. and Mrs. Byron W. King and Miss King pleasantly entertained an audience last night in the First Methodist church; the first two as elocutionists, and Miss King as the pianist.

Sell Much Farming Land—The Anderson-Cummings Realty company has within the last four weeks, sold 3,500 acres of farm lands in Utah county. There is a good demand for that class of property.

Now Living in New York—Morris Evans, formerly well known in this city as a dealer in general sporting goods for many years, is now living in Lockport, N. Y., where he is in charge of his father's estate.

Amateur Tree Trimmers—Supt. Byhouver of Parks, warns property owners against men who are going around as tree trimmers, stating that they do not know their business, and are liable to ruin trees they attempt to doctor.

Chorus Rehearsal—The entire festival chorus was present last evening in the tabernacle, where the "Wedding Feast" was sung with the more important chorus of "The Golden Legend," Conductor Stephens is much encouraged over the prospects.

New Apartment Structure—Work has begun on the Gibbons' apartments to be erected on Third South street, between Second and Third East streets. The structure will be 40 by 93 feet, three stories high, with 14 suites of apartments, and cost $30,000.

Engineer to Lecture—Charles P. Brooks will lecture tomorrow afternoon, before the Engineering society of the state university, on underground surveying. Mr. Brooks was formerly assistant city engineer of New Haven, Conn., and has been an experienced civil engineer for nearly 40 years.

Girls Got the Reward—A little stray pet poodle wandered into Walker Bros. store the other day, where it was straightway corraled by two hall boys. But the girls at the glove counter "got wise" and by sharp manoeuvering, got the poodle away from the boys and secured the $5 reward.

Cross Burning Sands Tonight—The Mystic Shriners will meet tonight, to initiate 25 candidates into the Masonic mysteries, and before 100 visitors from out of town. A banquet will end the ceremonies. No one can be admitted to the Mystic Shrine who is not either a thirty-second degree Mason or a Knight Templar.

Turn Out Decoration Day—When the roster of the light battery of the U. N. G. includes 50 enlisted men, the command will incorporate, purchase horses and become established on a permanent basis. The entire gun equipment is being painted the new regulation olive drab green. The battery will turn out on Decoration day with full four gun equipment.

Might Divert Waters—Residents of the Tintic precinct are wondering why the city cannot divert the flood water of the Salt Lake and Jordan canal into one of the streams or canals running westward through the southern part of the city, instead of letting it run into City creek. Such a plan, they claim, would greatly relieve the creek from the extra pressure due to the added water from the big canal.

MEETING OF OSTEOPATHS.

Learned Discussion of Healing Art Followed by Banquet.

A meeting of the Utah Osteopath Society was held last evening, at the home of Dr. Mary Gamble, 177 I street, at which were present a majority of the members resident in this state. Owing to the fact that some officers of the association were unable to attend, the annual election was postponed for one week.

A paper on "Hygiene and Dietetics," prepared by Dr. G. A. Gamble, one of the absentees, was read by Dr. E. E. Keeler Dr. Alice Houghton spoke on "Women as Physicians," and both subjects were discussed by Drs. J. C. Woodmansee, Grace Stratton, Keeler, Mary Gamble, W. S. Ramer, H. Phillips and others.

A banquet followed the rendition of the first part of the program, a number of invited guests sitting at table with the members of the society. Dr. Keeler was toastmaster, and a number of responses were made. A steady growth in the profession of osteopathy and a corresponding increase in the number of practictioners in this state were reported. A toast offered in honor of Dr. A. T. Still, of Kirksville, Mo., originator of osteopathy, and who will shortly reach the 80th milestone of life, brought the assembly to their feet as the response was made.

MARCH PLAYS BIG JOKE ON FOLKS

Coaxes Out Shirt Waists and Then Makes Overcoats Necessary.

WHAT'S AHEAD IS CONJECTURE

This Month Has Been Rather Unusual So Far in Spite of Pranks, However.

Was there ever anything so changeable as a day in March? Yesterday was almost hot—this morning brought out overcoats and mufflers. This afternoon will be a repetition of yesterday's warm spell, if all indications count for anything. It was not as cold as it felt this morning. Thermometers at 6 o'clock showed the temperature to be 32 degrees above zero. This is cold but owing to considerable moisture and dampness in the regular March wind, the cold went right through one's clothing. But as a whole this month so far has been rather unusual. Even the oldest inhabitant, who is always on hand with a memory of something "wusser or colder or hotter" than the weather that is, has to admit he can't remember a March so generally clear and warm as this. It began to get fair about Feb. 18—a month ago today—just after the heaviest snowstorm of the winter, Feb. 11 and 12. A heavy rain marked the beginning of March, as the 4th and 5th saw considerable precipitation. Since then the weather has been ideal, considering the earliness of the season.

While town folks are strolling around in their light apparel and going over in their minds the advisability of bringing out shirt waists and parasols, the farmer folks are wondering about the summer's water supply should this kind of weather continue. Heavy thawing is on in the hills and if the sun keeps in the open as it has been for a half a month, the usual spring floods will be much earlier and severer than is usual. The supply for the coming hot season will not be so large as has been expected if the thaw continues. So present weather is like a rose-bush; it has both roses and thorns.

What is ahead? That is almost an unanswerable question. The weather man is perfectly willing to talk about tomorrow or the day after but a week ahead or two weeks ahead is too far ahead. March is a flighty month, as a rule, and there may be storms coming; the March wind can carry storms many miles in a few hours so long distance guessing is something the weather man does not fancy.

"It will be partly cloudy tonight and cooler; fair tomorrow" is the prediction made yesterday.

WEATHER MAN TALKS.

"I have been at this station several years," said Dr. Hyatt, section forecaster, with headquarters here, "and I do not remember, off hand, a warmer March than this month has been so far."

71 DEGREES MONDAY.

The temperature has been as high as 71 above zero—the point reached Monday—and the lowest has been 21 degrees. Some of the minimums and maximums recorded for the month of March in past years show this month to be among the most unusually warm ones. Away back in 1874 the average minimum was 40 degrees and the maximum 73. On the 30th of March, 1872, the maximum was 77 and a degree lower on the 27th of March in 1895. It must be understood the figures for past years are the highest and it will be noticed the highest temperatures were taken towards the end of the month. Although March is just about half gone this year the mercury has been as high already as record-climbs.

PRECIPITATION FIGURES.

The rain storms of the 4th and 5th were heavy, showing a precipitation of 1.4 inches. The bureau reckons 2 inches as the probable average for the month. Some unusual Marches so far as precipitation is concerned were in 1876, 4 inches; 1879, .67; 1880, .43; 1881, .88; 1884, 3.69; 1887, .35; 1891, 4.66, and in 1900, .33 inches of precipitation.

BATHED IN LAKE.

Late in the 80's, about 1888, Gov. West, then the state's highest executive, and the late Major Thaddeus Stanton, paymaster in the U. S. A., deemed the last week in March so fair that they went out in the lake for a swim and created some little stir in so doing. Swims in the lake in March are out of the ordinary but if it stays warm some persons may take another such swim as Gov. West and the army officer did. Street cars moved about yesterday with windows opened and the breeze was refreshing; the pavements in the down town district began to emit that "tarry" smell which is so suggestive of mid-summer. The drug stores report a sharp decline in the demand for hot drinks and rapidly increasing call for cool beverages. Down in Pioneer and Liberty parks dozens of idlers stretched out in the sun with their coats rolled under their heads for pillows. A number of young women were seen on Main street yesterday, hatless, coatless and with short sleeved waists—and they looked comfortable, too.

Spring openings of millinery and exhibitions of light dresses are being held by local stores and there are no more heart-reaching (or is it purse-tugging?) signs of approaching spring and summer than these.

Last but not least, the mud is drying up and house cleaning is on.

UNEQUALED AS A CURE FOR CROUP.

"Besides an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequaled as a cure for croup," says Harry Wilson, ow Waynetown, Ind. When given as soon as the croupy cough appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by all druggists.

HORSE FALLS IN DITCH.

A horse attached to a light delivery wagon stumbled into a wooden ditch on Third South near the Armour company's building near the Rio Grande freight depot this morning and became so tangled with harness, wagon shafts and the ditch that it took half a dozen men an hour to get the unfortunate animal out. The horse was more or less bruised by the accident.

INFANT FINDS HOME.

A good home has been found for the infant found Monday night upon the steps of the home of John K. Nicholson, 335 E street. The baby, a boy, was placed in custody of Mrs. W. M. Young of the juvenile court, and yesterday a number of applications were made to adopt the child. It was given to the person deemed most suitable to have its rearing, but the name of the individual will not be divulged by the court officials.

MELODRAMATIC CAPTURE

Policemen Surround Bold Burglars in Act of Stealing and Seize Them in Approved Stage Style.

Three daring burglars, giving the names of Pat Mullen, a fireman; R. E. Sherwood, a marine fireman, and George Morris, a laborer, were caught in the act of robbing the fur store of L. C. Glosz, in the Wilson hotel annex, 24 east Second South street, last night.

Credit is chefly due to Police Officer Joe Bush and former Chief of Police George A. Sheets for the capture of the three men.

The burglars went to the rear of the store and smashed out a window. The crash of the glass attracted the attention of William S. Lane, a porter at the Wilson, who was in a room directly over the rear of the store. He saw one of the men reach through the broken window and unlock the door. Lane lost no time in reporting the matter to A. Fred Wey, proprietor of the hotel, and the latter rushed out for a policeman. He saw former Chief Sheets and told him of the burglary. Sheets quickly summoned Bush and the two hurried to the rear of the store while Wey telephoned to police headquarters for officers and the patrol wagon.

Sheets and Bush saw the three men at work in the store selecting sealskin and beaverskin coats. As the men were about to depart they were confronted by Sheets and Bush. The latter covered the burglars with their revolvers and commanded them to halt.

"The first man that moves will be shot dead," warned Bush.

"Don't get nervous, an' don't pull that trigger, we ain't goin' t' move," said one of the robbers.

By this time the patrol wagon with Officer Cassidy and Jailer Ripley arrived. They stood guard at the front door and then the three men were marched out, loaded into the wagon and hauled to police headquarters. They had no weapons on them and their combined capital was only $2.07. They claimed to have just arrived from San Francisco. They will be charged with burglary in the second degree.

Ogden officers are on their way to Salt Lake to look over the men captured as they believe from telephone reports that George Morris alias Clark is the same fellow who participated in the jail break at Ogden preferring to leave with others to serving six months for larceny.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security & Trust co., 32-34 Main street, $3.50 per year.

SAMPLE DANISH BUTTER.

Consul Hansen Has Received 150 Pounds of Old Country Product.

Danish Consul Hansen of this city has received $3,000 from his home government as pensions for old Danish soldiers in this state, of the war of 1848. Veterans of the war of 1864 are expected to receive their pensions later. Consul Hansen is also the recipient of 176 pounds of Danish butter as a sample to show here, as home dairies are anxious to open a market in Utah mining camps. The butter comes in cans.

TRINLOAD OF UTAH BEEF.

Fifteen cars of cattle make up a trainload of beef for Yankee sailors that left Cache valley yesterday bound southwest. The animals will go to Los Angeles to be used there by the Cudahy company in preparing an order for Admiral Evans' fleet. Cattle for the coast trade have been largely furnished from Utah and surrounding states during the past few months.

UTAH QUARRIES ACTIVE.

The Thistle quarries are reported in full spring operation, with the tramway being completed, and preparations made to ship heavily during the season. The Sanpete and Manti white sandstone quarries are working steadily with all the orders they can attend to from San Francisco and Los Angeles. A car of Thistle stone has been ordered for trial by San Francisco parties. An altar in one of the San Francisco churches is made from the Sanpete stone, which is much admired.

DISTRIBUTING FIR SEED.

The local offices of the Forestry service are sending out today 288 pounds of fir seeds to 22 different Forest stations for experimental planting. The shipment includes, 143 pounds of Douglas fir, 65½ pounds Engleman's fir, and 28½ pounds of Lodge Pole Pine. The small size of these seeds may be understood when it is stated that there are 36,000 seeds in a pound of Douglas fir, 122,400 seeds in a pound of Engleman fir, and 68,000 seeds in a pound of Lodge Pole. The new firs are intended to recover denuded ranges.

PROF. H. A. HOWELL, OF HAVANA, CUBA, RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now, writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd, our baby was taken sick with a very severe cold; the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I though of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by al druggists.
