ENTER STORMY PROTEST

Merchants Object to Show of Discrimination and Granting of Special Privileges.

Hardware dealers and mining machinery firms who were compelled by enforcement of the city ordinance to remove all wares from the sidewalks in front of their premises, were not satisfied when they saw that favoritism was shown in the matter. It was found that the Salt Lake Hardware company, with which firm Councilman Black is associated, was not complying with the law. Consequently a letter was addressed to the council, calling that body's attention to the matter. The letter, like some other important communications of late, was intercepted after reaching the hands of the recorder and before presentation to the council.

Finding that nothing was being done to place all persons on an equal footing in regard to the ordinance mentioned, another letter has been sent to the mayor and council, reading as follows:

"Salt Lake City, Utah, July 15, 1908. To the Hon. Mayor and City Council, Salt Lake City, Utah.

"Some months ago the undersigned was requested to remove all pieces of machinery occupying sidewalk space in front of their respective places of business. We were glad to comply with this request, but it would assist in a great measure to help beautify the principal streets of this city.

"Certainly machinery houses on Second and South streets have complied with this order and the sidewalk display is being increased from time to time.

"We understand certain ordinances prohibit the use of sidewalk space for this purpose and we respectfully petition your honorable body to enforce the ordinance against all dealers in machinery and not discriminate in favor of one dealer over another.

"Respectfully submitted, Fairbanks, Morse & Co., By C. E. Bolton, manager.

"Mine and Smelter Supply Co., By J. W. Gates, manager.

"Utah Mining Machinery & Supply Co., By J. E. Gallagher."

This is not the first case where communications are lost in transit or never get back from committees. The mayor's letter and the above are only two of many."

"Dr. Thomas' Eclectic Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. L. Whiteacre, Buffalo, N. Y.

IS MAKING MANY IMPROVEMENTS

Church Completes Paving of Street East of Temple Block.

WALL RECEIVES IRON COVER.

Big Barn Being Removed to Make Way for New Gymnasium—Old Landmark to be Preserved.

The latest of a series of extended improvements being made by the Church upon and around the district comprised in the Temple block and the titling office block just to the eastward, is the covering of the southern portion of the Temple block wall with heavy galvanized iron. For several years erosions in the wall have been making through the action of the elements and the wish of the presidency of the Church that the wall be retained in as intact a form as possible, has been carried out by the presiding bishop and the experience of covering the wall with iron is being tried, and if it proves to be what is claimed for it as a means of protection, the other three sides of the wall will receive similar covering later on.

The wall will also receive a coating of cement plaster on its outer face, and when finished will present a pleasing appearance to the eye.

Among the other improvements around the block may be mentioned the magnificent piece of paving which has just been completed on Main street between North and South streets. This work was done by P. J. Moran, and together with other improvements made at the same time by the Church, cost upwards of \$20,000. On the east side of the street beautiful lawns have been planted and trees set out, making a park effect on each side of the paving.

Before the paving work was finished a large cement conduit, 42½ feet, was placed under the street, and this will contain the water, heating and lighting pipes and wires when the complete system of Church building and improvements shall have reached that stage.

NEW GYMNASIUM. To make way for the new L. D. S. gymnasium, for which plans have been approved and the contracts for construction will be let in a few days, the large barn in the center of the titling office block, which was erected some years ago at a cost of about \$12,000, is being removed and torn down. The new gymnasium will be 90x150 feet by 60 feet in height, will include a locker room, swimming pool and gymnasium, and will cost \$150,000.

Work is proceeding upon the new administration building, which fronts Main street, and altogether the improvements being made upon Church property are keeping pace with the progress of the times and the growth of the city.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY HAVE SAVED

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do any work. On August 1, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy. It gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I known of it in 1902, I would have saved me a hundred dollar doctor's bill." Sold by all druggists.

WAYNE COUNTY PROSPERING.

Bishop David A. Smith and Party Return from Interesting Trip.

Heavy thunderstorms, accompanied by cloudbursts, is the story brought back from southern Utah by David A. Smith of the presiding bishopric, who has been spending ten days in Wayne and adjacent counties on a vacation trip home over the Sanpete Valley branch floods delayed the train and near Elsinore, Panguitch and Milburn, the bishop and his party were forced to travel through a sea of mud and water after section hands had cleared the tracks of roots, poles and boulders that had been washed down the river banks.

In Wayne county the outlook for crops is decidedly promising, the only problem confronting the farmers being the daily thunderstorm which makes haying out of the question. Bishop Smith, accompanied by Atty. Carl A. Badger, Frank B. Woodbury and Geo. E. Carpenter, has been spending his vacation in the schoolhouse, where fishing has been excellent. Judging from the number of sage hens, quail and deer encountered when the shooting season opens, southern Utah will be a veritable success man's paradise. During their stay at Loa the party made their headquarters at the ranch of President G. S. Bastian on Thousand Lake mountain, in the heart of the stock raising country.

The celebration of Pioneer day at Loa, the seat of Wayne county, was characteristic and included a parade, appropriate exercises in the schoolhouse, horse and foot races and a strenuous baseball game between the married and single ladies clad in bifurcated skirts in which the spinners triumphed over the bachelors.

During the outing the party traveled over 200 miles by team.

OVER THIRTY-FIVE YEARS. In 1872 there was a great deal of diarrhoea and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into Utah. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained its record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists.

WILL TEAR UP MAIN STREET. Plan to Resurface Thoroughfare is Again Being Agitated.

The matter of resurfacing Main street, from South Temple to Fourth South street, is again to be agitated. Property owners favorable to the proposition claim that their ranks have been added to by persons who fought down the matter a few weeks ago. Those who have changed their minds have done so, it is said, upon the assurance that the street will be permitted

TO REMAIN UNIMPROVED WHEN REPAIRED.

and not be subject to being torn up incessantly for the laying of pipes and mains. Mayor Brandorf is back of the new movement to resurface, and is working with a view of getting the co-operation of a sufficient number of taxpayers to make the project feasible. The executive is also endeavoring to effect the removal of all poles from Main street in the immediate future.
