Fuel Experiments.

Fraklin of the Atlantic Transpor company, still claim that they are en tirely ignorant of any big plan to con-trol ocean freights. Under the plan as alleged the financial interests of the five lines will reach the enormous sum of about \$250,000,000. The Leyland line will have sixty-five ships, the International Navigation company about twenty-eight, with four building, the White Star about twenty and the Cunand about fifteen. Mr. Lee takes the position that any deal must merely be one of agreement and not purchase. Members of the firm of J. P. Morgan & Co., when questioned, denied that the banking houses had under way a consolidation of transatlantic lines, So as the arrangement goes in effect among the various companies is concerned, it will, apparently, be merely the application of the community of interest plan of operation to the steam-ship business. The flags and funnels of the three fleets will remain linct as at present, and the lines will be managed separately as is now the case. The idea of the alleged combina-tion most general in shipping circles is that the plan of operation will be to organize a new company to own stock in steamship lines and operate them as far as is found advisable in connection with the railroads-railroad in terests themselves being stockholders. The aim will be to avoid a duplication of service.

unning to New York.

Narrow Escape by Fire.

New York, Jan. 19 .- Fire broke out tonight in the building on Broadway compled by Blumenthal & Stinger manufacturers of artificial flowers and 1853 to 1860, in which year h feathers: Roche, Croil & Co., manufac made grand secretary-general H. E. In turers of neckties, and Samuel Folkoff, 1856 he became dean of the supreme cloaks and suits. Fifteen of Folkoff's employes at work on the fifth floor, were rescued with difficulty and several council to writing and publishing Masonic works. firemen ere overcome. The loss is put at \$75,000.

Pioneer Coal Dealer Dead. Chicago, Jan. 20 .- Charles A. Reno. who is said to have been the first retall coal dealer in Chicago and to have supplied the domestic trade entirely with a one-horse wagon at one time la dead at his home in this city. He was \$4 years old and came to Chicago it 1845. His business grew with the growth of the city and later he organized one of the leading firms of Chicago Reno became a police commissione in 1872 and held the office until it was abolished by the present city charter.

102 Years Old.

Quincy, Ill., Jan. 20.-Leonard Roeder cf this city will, next Tuesday, cele-brate his 102nd birthday. He is one of the very few persons left in the world who willow who witnessed the conflict on the plain at Waterloo, which changed the map f Europe and humbled the pride of the "Little Corsican." That will be eighteven years ago on the 15th of next June, but the events are still fresh in the mind of this centenarian. He was there as a member of Gen. Blucher's ermy and has his discharge papers. It is now to has his discharge papers. is now 58 years since he came to this country from Germany. A few years less he lost control of the English language, which he spoke fluently and new can converse only in German. His hair is white as snow, but other

KING EDWARD AND THE WONDERFUL STATE COACH IN WHICH HE RIDES TO OPEN PARLIAMENT.

The spectacle in the house of lords is a most brilliant one when King Ed ward opens parliament in person. The king sits on the throne, a magnificent oaken chair, richly carved and raised on a crimson dais at the end of the chamber. The crimson benches are crowded with the peers in their scarlet robes, with the bishops in their black, flowing robes and lawn sleeves of liberal amplitude, and the galleries around are bright with the fair faces. The king rides to the house of lords in a gilded landau which is probably the most gorgeous carriage in use today.
