Washington, 2.—The General has sent to Congress the report of the committee appointed to prepare WASHINGTON, 2 .- The Postmaster improved plans for carrying the malls on railroad routes. The committee is composed of Gen. Richard A. Elmer,

of various rallroads in connection with the official report of the rallway mail service; 3d, that pay for all mail trans-portation hereafter be at a fixed rate per linear foot of car per mile run, this rate to cover the entire cost of service, furniture and axtures in the car, trans-portation of clerks, etc.; 4th, that the Postmaster General may at any time Postmaster General may at any time order an lucrease or reduction of the amount of space to be paid for, if after weighing it be found sufficient increase or diminution of mail transported on any railroad to require the same; 5th, closed or pouch mails now carried on express or baggase cars without postal clerks accompanying them, requiring no space for distribution en route be paid on the following basis: Aggregate weight of closed, or pouch mails carried on any road on all trains for 24 hours shall be made the basis of pay, and this aggregate weight reduced to an equivalent of linear feet car space in the following proportions: 200 pounds of mail or less to be rated equivalent to six linear inches, and be paid

valent to six linear inches, and be paid for at five mills per linear foot per mile run; 500 pounds of mail to be rated one linear foot; for each additional 500 pounds one linear foot car space to be allowed, with a proviso for payment for mails on any railroad route for six for mails on any railroad route for six round trips per week, not to be less than \$85 per mile per annum; 6th, that side service be discontinued. The Postmaster General may increase the compensation on any railroad route not to exceed 50 per cent per annum for special mail trains performing service on schedules fixed by him.

The Postmaster General has issued an order changing the rate of postage on a number of articles heretofore rated third class, or printed matter, paying a postage rate of one cent for every two onnees. Under this order these articles will hereafter be classified as merchandles, or fourth class matter, upon which will be a postage of one cent per ounce. Following is a tent of the order: "The character of the paper as an article of merchandles within the meaning of the postal law is not necessarily changed by printing or stamping thereon the words, letters, characters, figures, images or any combination thereof, labels, patterns, photographs, playing cards, visiting cards, address taxs, paper sacks, wpapping-paper with printed advertisements thereon, bill heads, letter heads, envelopes, and other matter of the same general character, printing upon which is not designed to instruct, amuse or cultivate the mind or taste, or impart general information, are mere Charges Changed. 343, 345, 347 Brondway, 90, 92, and 94 Leonard FLOOR OIL CLOTHS, DRUGGETS, MATS, ETC. DEPRAVITY AND DISASTER. St. Louis, 2 .- Verdict in the Bond

St. Louis, 2.—Verdict in the Bond case, not guilty.

Kansas City, 2.—Judge Krekel, of the U.S. Court, to-day announced his decision on the question of the right of the Federal Government to the custody of Frank James on the charge of the Muscle Shoals robbery in Alabama. The court orders the prisoner remanded to his bondsmen on the Blue Culrobbery, holding that the State tribunal first gaining possession, is consequently entitled to his custody until the disposal of the State cases. This leaves James at liberty on bonds.

Galveston, 2.—The News San Antonio special says: Henry Hane, a well-to-do German, in a drinking carouse in his frenzy attempted to brain his wife with an axe. He cut two fearful gashes in her cheek and arm. Making up, he obtained from her a promise never to speak of the affair, went into the kitchen and blew his brains out with a pistol.

New York 2.—Leon Cronson, a sales-

on rairoau routes. The committee is composed of Ges. Riches A. Elmers, second assistant postmastic postmaster. Second assistant postmastic postmaster. The committee index of the strike with the service; and is postmaster general superfuse. The committee finds each decade witnessed a doubling of the service; and if present rates of lacrease and pay are maintained, the war 1,900 will see a service by mail of at least 20,000 miles, with annual cost of 257, 500,000. When the system of weighing the mail was first established in 1897, the most astonishing inconsistencies were discovered in the matter of compensation. At that time mails were generally carried in haggage cars. It was found is lines were receiving \$300 per mile; daily service manged from an average of more than \$1,900 pounds on one line to less than 400 on another; that is, one received the same pay for carrying the less amount. On roads a paid, the greatest average daily service was 6,488 paunds, and the least 15 pounds. The act of 1873 broughts degree of order out of this confusion, in that it prescribed an even rate of pay for transporting a like daily average veight of mails; but on the vital point, required to the committees recommendations: First, that compensation of the railroads for carrying mails shall be determined by the absence of the assist of space used, and frequency and speed of mails conveyed; 2d, that the space factor be determined by the assist of space used, and frequency and speed of mails conveyed; 2d, that the space factor be determined by the assist of space used, and frequency and speed of mails conveyed; 2d, that the space factor be determined by the assist of space used, and frequency and speed of mails conveyed; 2d, that the space factor be determined by the factors are fined by their legs tangled in the wreck, and while their bodies were protruding from the burning pile, their legs were being gradually roasted; others, who had been scalded and afterwards extricated, implored those standing about to throw water on their wounds. The Singgers in a Free Fight. Denver, 2.—A lively free fight between slugger Slade, of the John L. Sullivan combination, and local celebrities occurred in front of the Arcade saloon this morning. All hands were drunk, hence no serious damage was done. An officer interfered, but was soon done up; others came to the rescue, and all hands were jailed. During the melee champion Sullivan ran into the American House and demanded a revolver with which to "do up" some one. Proprietor Smith refused, when Sullivan attempted to take it by force. Smith, however, revolver in hand, ran him out of the house. If some of the slugger combination don't bite the dust before leaving Colorado, they will be in luck.

Why cannot a deaf man be legally convicted? Because it is not lawful to condemn a man without a hearing. It is unfortunate for thirteen people to alt down to a meal at once, especially when there is only enough for eight. A medical student says that he has never been able to discover the bone of contention, and desires to know if it is not near the jawbone.

Long to be remembered—such names as aschaffenburg, Sondershausen and Peitropaulvitch. In fact, they are too long to be remembered. 'I see the villain in your face,' said a western judge to a prisoner. 'May it please your worship,' replied the prisoner, 'that is a personal reflection.'

A gentleman was wondering why there are so many bad reputations, when a friend said: "It is probably be-cause every man has to make his own." It's about an even thing between man and the orange-peel. Sometimes the man throws the orange-peel into the gutter, and sometimes the orange-peel throws the man in.

A man up town made a wager with a lady that he could thread a needle quicker than she could sharpen a lead

Then he began to use hair dye, and just as he had succeeded in getting his hair turned yellow he heard that the widow had married another. Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about ive years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are tew men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and acrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used darsaramilla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being new able to do a good day's work, although 73 years of age.
