Superintendent Christensen's office hours yesterday and today are from 1 to 12 o'clock a. m.

Principal A. S. Martin of the Grant, received a most unique souvenir from his teachers in the form of a sym-phony of pictures of the teachers of that building.

Walter Girsch, one of Mrs. Burton's pupils at the Webster school has re-ceived a well merited promotion for faithful and efficient work.

Miss Harrison's room at the Grant has worked out a most excellent repre-sentation of the life of Robinson Crusee, as they have gathered it from their reading.

Miss Estella Dunford of the Lowell school is spending a week with her sis-ter at Kimberly, this state.

# DESERET EVENING NEWS: SATURDAY, DECEMBER 27, 1002. AREWS: SATURATION for a long delay took place before a bargain was made. Finally, on May 2, 1801, the island was sold by Mr. Stone to the United States government and the sum paid was \$325, quite a rejuction from the original figures of the owner, although he was doubling his money on the transaction. Turing the time that the island remained in the hands of private elitzens it was used as a part of the farm of the owner, and each spring it was plowed, planted and taken care of the spine as any farm land. The farmers owning it usually went to the island in old fashioned scows, taking with them a pair of cattle to do the plowing with old fashioned scows, taking with them a pair of a hundred years that was the by the farmers to live in during the was always fertile end the time they were tending their crops. # PAIN IN THE BACK A Sure Sign of Kidney Trouble. Dr. Kennedy's Favorite Remedy will cure you.

Pain in the back is a never failing sign of kidney disease; another sure sign is the condition of the urine; ff you have a pain in the back then look to the condition of your urine. Take a glass tumbler of your urine; after it has stood 24 + .urs, if it has a sediment, if it is milky or cloudy, pale or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condi-tion and need immediate attention, or the consequences may prove fatal.

F. C. Wilcox of 559 New Billiam Ave Hartford, Conn., says:

"I had a frightful pain in my back the result of kidney trouble. My phy-sician seemed powerless to relieve me. I determined to try Dr. David Ken. nedy's Favorite Remedy; it helped me wonderfully, and in a short time cured me completely."

cured me completely." Dr. David Kenendy's Favorite Rem-edy is the one medicine that really cures all diseases or the kidneys, liver, bladder and blood, rheumatism, dys-pepsia and chronic constipation and corrects the bad effects of whiskey and beer on the system. It is wonderful how it makes that pain in the back dis-appear, how it relieves the desire to burinate often, especially at night, and drives sway that scalding vain in pass drives away that scalding pain in pass-ing water and in a remarkably short time makes you well and strong.

At the Grant on Friday afternoon the plan of two rooms uniting for the Christmas programs was followed. All of the boards were beautifully decor-ated-the work of pupils entirely.

There was a large attendance of patrons. After the programs the patrons assembled in room 16, where they had a business session. It was decided to purchase the two new planos now in the building, and to pay for same by raising funds by an entertainment to be given early next year, probably about Washington's birthday. The following patrons were named as a committee to assist the teachers in preparing for the entertainment: Mesdames Reeves, Brown, Jensen, Eardley, Keate and Joynt. necticut knows that Faulkner's island lies in Long Island sound opposite Guilford harbor, and hundreds have on a pleasant day sailed with some of the many coast "skippers" to its shores and spent an hour on the tiny island, but very few regard it as a pince of any historical importance and as they saft by or see it from the shore merely consider it a small piece of land in the sound and think no more of it.

The Island has ben of more or less importance for upward of 200 years and besides being fre-quently mentioned in the Guilford town records the island has an important mission in the war of 1812. and during the past century has been an Important station of the United States lightbouse service. This small plece of land lies about four miles from the mainland at Guilford and contains

The island was probably classed until 1677 with the probably classed until 1677 with the undivided lands of the town and got its name from the birds which frequented the place, says the Hartford Courant.

of the last century the island remained in private hands. On Oct. 31, 1715, Thos. Stone, father of Caleb and Ebenezer, deeded to them his claim on the two islands, but how he came possessed of it is not known. Ebenezer deeded his half to his son Seth Oct. 5, 1761, and Caleb gave his share to his sons Caleb and Reuben. Seth Stone willed his share on Oct. 18, 1780, to Noah Stone, and the latter probably bought out the other owners, for on May 19, 1800, he paid to Medad Stone \$158.34 for the share he owned, and thus became the

sole possessor of the island. It looks as if the shrewd Noah had an eye on the "cornering business" as early as 1800, for he became informed some way or other that the government had a plan on foot to establish a lighthouse on Falcon island. In the years of the eighteenth century, when there was no danger signal on the 1st and, many wrecks occurred there and probably more than one poor seaman was drowned for the want of a suitable light on the dangerous piece of land. The government authorities, realizing this, sent an agent to Guilford early in the year 1800 to see Mr. Stone and ndeavor to settle on a purchase price. Mr. Stone, besides owning Falcon island, also owned a tavern at the northwest corner of Guilford green and when the commissioner entered the town he necessarily had to "put up" at Mr. Stone's hostelry. After dinner he in-quired about the ownership of the island and was, of course, given all the information he desired. During the af-ternoon Mr. Stone settled upon a price for the island and told the government agent that Uncle Sam could have it for \$500, but the price did not seem sufficiently attractive to the government,
