A Wonderful and Destructive Tornado in Illinois!

A Heavy and Dismal Flood at New Orleans!

Disagreement between the Indian Bureau and Indian Commissioners!

The Army placed on a Peace Footing!

WASHINGTON.

Disagreement between the Indian Bureau and Indian Commissioners—Admission to Cadets—Colfax.

WASHINGTON, 5.—There is a misunderstanding between the Indian bureau and the Board of Indian Commissioners, relative to the purchase of Indian goods.

WASHINGTON, 5.—The flood is increasing. It is now at the mouth of the Mississippi river, and is doing much damage.

WASHINGTON, 5.—The International Typographical Convention convened today at New York.

WASHINGTON, 5.—An appeal in Mrs. Fair's case will be taken to the Supreme Court immediately.

WASHINGTON, 5.—The boy O'Brien, who was arrested on the charge of killing the Chinaman on 4th street, was today brought before the court.

WASHINGTON, 5.—The army has finally been reduced to a peace footing, in accordance with the act of Congress of July 18th 1870.

WASHINGTON, 5.—The regular army will consist of one General, one Lieutenant-General, four Major-Generals, three Brigadier-Generals, with the usual complement of staff in the field.

WASHINGTON, 5.—The rank will consist of 30,000 enlisted men, 3,000 non-commissioned staff, 2,500 regulars, and 10,000 militia.

WASHINGTON, 5.—It is expected that it will be necessary to re-equip the army in the next year, and as pay will be reduced to the minimum, this will be no easy task.

regulations except for reasons recognized in war time, are absolutely among those who have thus far realized any army who achieved reputations for hard service during the war.

Next Wednesday is now set for the departure of the Polar Arctic expedition. The ship is here and will remain in the harbor until the vessel leaves. All the crew will be taken on board before the vessel leaves the wharf here, except the Regimental Surgeon and his staff.

The Secretary of War has issued an order relieving members of the 4th Cavalry from further operation, the order confining them within certain limits and depriving them of all privileges and indulgences granted cadets, for their late disgraceful mobbing of certain members. The Secretary says it is to be hoped that these cadets who have been guilty of this offense and who are soon to graduate and become officers of the army will again place themselves in any situation which may be creditable to them or require the voice of authority to remind them of their duty as officers and gentlemen.

ILLINOIS.  
Ecological controversy—A tornado. CHICAGO, 5.—Rev. S. H. Tyng, Jr., of New York, preached yesterday afternoon and evening in Christ Church, the Rev. Mr. Chesney's, to the largest congregation ever gathered there. Bishop Whitehouse formally warned Mr. Tyng of the consequences of participating in services with a deposed clergyman, but no notice was taken of this warning. Mr. Chesney assisting at both services. The sermon in the evening was remarkable for extreme radical or liberal views, and with the circumstances under which it was delivered will lead to renew and deepen the excitement in church circles over the Whitehouse-Chesney controversy.

JACKSONVILLE, 5.—A most remarkable tornado occurred in Meigs county, near Meigs city, last Friday morning. The first indication of the dark cloud gathering near the earth was about six miles west of the city, but ere long it descended in the shape of a huge boat, having three distinct smoke stacks or columns extending upwards and connected with the clouds. This wonderful phenomenon was fully charged with electricity, and from the columns sparks were constantly issuing and making a noise and crackling similar to the regular firing of a thousand muskets. Although the rotary motion of the funnel apparatus was such as to tear up by the roots all vegetation that lay in its path, its progressive motion was not more than five miles an hour, and was watched with great anxiety by the terror-stricken inhabitants. Its path was from twenty to thirty feet in width and about three miles in length and upon the space nothing was left alive. Scalding rain fell in torrents, and wheat and corn were turned yellow and prairie grass presented an appearance of having been pulled up and dried in August.

LOUISIANA.  
Flooded. NEW ORLEANS, 5.—The flood is increasing. It is now at the mouth of the Mississippi river, and is doing much damage.

LOUISIANA, 5.—The International Typographical Convention convened today at New York.
