

## BY TELEGRAPH.

CHICAGO, 6.—The *Journal's* Washington special says that as a result of the Cabinet consultation yesterday, in reference to the affairs of Louisiana, the President has advised General Emory, commanding the U. S. forces at New Orleans, that the Warmoth legislature cannot be interfered with for peaceably assembling to-day, so long as they do not interfere with the existing government, but as their meeting is in violation of an injunction of the U. S. Court, any order of that Court dispersing the meeting must be enforced, and, if necessary, by U. S. troops. The President called the consultation yesterday, as he feared that Pinchback's proclamation, forbidding the assembling of the Warmoth legislature, would lead to a riot.

Senator Sumner's health is such as to cause the gravest fears on the part of his friends, and his retirement from public life is regarded as an absolute necessity.

It is stated that Sumner has not slept for four weeks, except under the influence of hypodermic injections of morphine.

NEW YORK.—Yesterday morning, shortly after 10 o'clock, a rain storm began, which soon turned to sleet, and continuing, everything became fringed with icicle, and no such spectacle has been witnessed for years.

Stokes was in Oyer and Terminer this morning, to receive his sentence. The prisoner was asked what he had to say why sentence of death should not be pronounced. Stokes thereupon said that he had not violated the law intentionally, and that the testimony upon which he had been convicted was manufactured and perjured. Judge Boardman, then in a feeling address, in which he alluded to the prisoner's youth and social surrounding, sentenced him to be hanged on Friday 28th of February next, being the shortest time that could be legally allowed to a convicted man. Stokes' counsel were in consultation last evening. They were greatly surprised at the verdict, and expressed their purpose of applying at once for a stay of proceedings, and ultimately, if possible, to seek another trial. It seems that the lawyers regard the newspaper and public clamor about the prevalence of murderousness, as partly responsible for the adverse verdict, and they would have deferred the trial of the case at this time, but for the demands of the prisoner and his relatives before.

ST. LOUIS, 6.—The snow storm over a part of this State and Kansas on Friday and Saturday last was the heaviest known for over twenty years. The snow lies from one to two feet deep on the level all through central and northern Missouri, and in some places it is drifted badly. All trains were delayed many hours, and some of them are stuck fast in the drifts.

NEW ORLEANS, 5, 10 p.m.—The announcement has just been made at the fusion headquarters, apparently by authority, that Gen. Emory has received instructions from Washington that the U. S. troops shall only be used to preserve the peace, that any body of citizens styling themselves what they may, have the right to meet peaceably for any purpose not unlawful, and that if any attempt should be made to disperse such assemblage they shall be protected. When this was announced to the crowd assembled in the St. Charles Hotel Rotunda, several simultaneously ejaculated "Whew! The President has gone back on his friends!"

WASHINGTON.—Private advices received here from New Orleans are to the effect that many leading bankers, property holders, and merchants have called upon Kellogg and urged him, by their confidence in his ability and disposition, to relieve the financial condition of Louisiana, and tender him their aid and influence in that direction. An assemblage composed of leading banks is being formed for the purpose of taking a new city consolidation loan, which, if successful, will place the city of New Orleans on a cash basis at once.

NEW ORLEANS, 6.—The papers this morning contain the following address—

"Fellow citizens of New Orleans. Relying on the patriotism you have exhibited, I conjure you to be animated this day with the propriety and dignity of a firm and calm moderation. Assemble as peaceable citizens to witness the inauguration of the only true and legal legislature of your State. It is your right and duty thus to lend the moral support of your presence. Let no riotous or noisy demonstrations weaken the effect produced by your

unanimity. Be as calm as you are strong. In the midst of great political excitement, in the midst of an attempted overthrow of your liberties by an organized conspiracy, show to the people of the United States of America, the dignity of bearing which is characteristic of you and the great cause in which you are peaceably engaged for the maintenance of your liberties and constitutional rights. Be not alarmed, fellow citizens, the government of the United States will not exert its great power to put down and suppress peaceable assemblies of the people, but will protect them against violent assaults from any quarter. Let it never be said that any act of violence on your part was the primary cause of public disturbance. I repeat, fellow citizens, be firm but calm and dignified.

"(Signed), JOHN MCENERY."  
WASHINGTON.—Private advices from New Orleans state that there is no fear of violence or collision between the opposing factions on the day fixed for the inauguration of the Governor, although each party will go through the ceremony of inaugurating its candidate. It is said that the purpose of the fusionists to save the legal point which might have appeared to be waived by the omission of the ceremony.

This afternoon five prisoners attempted to escape from Ward's Island in a small boat, but were precipitated into the water and drifting ice. Two of them, females, were drowned.

COLUMBUS, O., 5.—About midnight on Saturday the citizens were alarmed by a loud rumbling noise and three detonations that shook the houses, believed to have been caused by an earthquake.

BOSTON.—Sixty deaths from smallpox during the week. A new and commodious smallpox hospital will be finished within six days on the site of the one recently burned.

TERRE HAUTE, Ind.—The fine residence of Hon. Polk Sannon has been destroyed by fire.

JEFFERSON CITY.—Frank Blair received a number of callers to-day. He is rapidly regaining the use of his right arm.

ST. LOUIS, 5.—Since the wet weather of a week ago many horses with the epizootic have suffered a relapse, and the fatal cases number thirty daily.
