

HULANISKI DRAWS REGULATING BILL

As Part of Program of Confusion And Deluge He Offers a Saloon Measure.

HAS A GOOD ROADS HANDLE

With This Bait, Stands for Welfare of Liquor Interests by Seeking Support in Country Districts.

Senator Hulaniski has decided that he knows about how to regulate the saloon. And in witness of that fact he has joined the movement to swamp the legislature with confusing liquor bills by introducing a regulation measure. It is in no way connected with the Cullen hotel bill, which, it has been promised, Senator Gardner would bring in today.

This measure takes into consideration the fact that next to a cry for prohibition, the country districts are raising a cry for good roads, by designating that the saloon money to go for good roads. Whether the provision will please to be the "sop" it is intended to be, it will be necessary to wait for the voting to determine. The next best "sop" to the bill is a change allowing the country districts to participate in the road fund that they can get their roads out of license money coming from the big cities.

The bill is as follows:

Section 1. That on and after the 1st day of August, 1909, the number of persons and places which may be licensed to sell, deal and traffic in spirituous, vinous and malt liquors in the various cities, towns and precincts of this state is hereby limited as follows:

One such license may be granted to and issued for every 1,000 inhabitants, or fraction thereof, in any town, city or precinct of this state, and the population to be determined by the last preceding state or United States census; provided, however, that in all such cities, towns or precincts where a greater number of licenses have been granted or issued prior to the first day of August, 1909, than would be permissible under the foregoing limitation, it shall be lawful and the local authorities shall grant and issue licenses equal in number to those granted and issued prior to said first day of August, 1909, unless by reason of a refusal of the owner to accept the same for such purpose or destruction by fire or other elements, or the same be refused by operation of law or under the provisions of this act, then, and in either of such cases, such license may be issued and granted to some other location.

LICENSE RESTRICTIONS.

Sec. 2. No license to sell, deal or traffic in spirituous, vinous or malt liquors shall be granted or issued to any person who is not a citizen of the United States and of this state, and a resident of the city and county in which said license is applied for, and no license shall be issued to any person who has been convicted of an offense against the laws of the state punishable by imprisonment for more than six months, or who has been convicted of keeping a disorderly house within five years prior to the making of the application for the license.

Sec. 3. Such licenses granted in accordance with this act shall be renewable by the holder thereof, from year to year, in accordance with the provisions of law now in existence, and the owner thereof shall have forfeited his right to said license by a conviction for having violated any of the provisions of the law relative to the sale of liquor.

Sec. 4. No license shall be transferred without first the consent obtained of the board or court having the authority to grant original licenses, and any license which is transferred without such consent shall be forfeited and canceled, as of the time of such transfer, and shall be made in accordance with the laws now governing transfers in this state, and the transferee must possess such personal qualifications as will entitle him to original licenses, and before executing any such transfer he shall make the oath and give the bond required of original licensees.

APPLIED PENALTIES.

Sec. 5. If any person licensed to retail liquor shall, by judgment of any court of competent jurisdiction, have been found guilty of violating any of the laws of this state or any ordinance of a city respecting the sale of liquor, his license shall be suspended as of the date of said judgment, for a period of 30 days, and on a second conviction the license shall be forfeited and canceled, unless said judgment is reversed on appeal, such appeal to be taken in the manner now provided by law. The court rendering the judgment against any licensee shall, as a part of said judgment, suspend his license or cancel it, and any sale of liquor made after such suspension or cancellation, and before a reversal of judgment, shall be unlawful and subject the licensee to all penalties provided by law for the selling of liquors without license, and no person whose license is cancelled for a violation of law shall be thereafter licensed to sell or retail liquor for a period of three years.

Sec. 6. If any person shall engage in or be interested in the business of selling liquor under the name of any other person, or under cover of a license issued to any other person, then such person shall be held to be a second person and the person in whose name the license is issued shall be deemed guilty of selling liquor without license and subjected to all the penalties prescribed by law.

BENEFIT OF ROADS.

Sec. 7. Every license to sell liquor shall specify the exact location where liquor is to be sold, and no change to be made in said location without the consent of the court or officials having the authority to grant such license and according to the provisions of section 1 of this act.

Sec. 8. One-half of all money collected for liquor licenses in this state shall be used to establish a system of good roads, which shall be paid to a board of five commissioners, to be appointed by the governor of this state, and which board shall expend the money so collected for the purpose of making, repairing and building roads in a manner to be prescribed by law.

STATE AID FOR RESERVOIRS.

State aid for reservoirs will be encouraged through a senate measure for

Dyspeptics

Sugar-coated tablets, quickly relieve Sour Stomach, Heartburn, Nausea, Wind in the Stomach, Sourness, Sleeplessness arising from Indigestion or Dyspepsia. They are composed of the best digestives, carminatives and correctives, and are agreeable and economical. Put up in three sizes, 10c, 25c, and 50c. Sold by all druggists, and sent promptly by mail on receipt of price by C. I. Hood Co., Mfg. Chemists, Lowell, Mass.

PROHIBITION IN SOUTHERN STATES

President C. A. Callis Tells Some Facts from Personal Observation.

THE SITUATION IN GEORGIA

Pet "Horrible Example" Quite the Reverse of What Brewers Would Lead Public to Believe.

"Since prohibition went into effect in Georgia not only have the number of crimes and arrests diminished but business has improved all along the line and I have yet to see any sign of a move on the part of citizens to consent to a return to the old conditions when the state was wet."

This unqualified statement is somewhat different from that given out by the brewery interests which are holding Georgia up as the horrible example of the effects of prohibition. When it is taken into consideration that the man who made this statement last evening is C. A. Callis, president of the Southern States mission, it carries weight. President Callis is in a position to know whereof he speaks for it is his duty to be constantly traveling and keeping in touch with people and conditions generally in the southern states.

UNIQUE MEASURE.

"The southern states are adopting prohibition generally. The law in Tennessee goes into effect July 1909, and it is a unique measure which provides that there shall be no saloon within four miles of any schoolhouse. When you think of that provision for a few moments it will strike you that that means prohibition, because if there should be a saloon so located it would be a schoolhouse situated near it."

"In my travels throughout the south wherever prohibition has been adopted it has been pronounced successful. The people are happier, financial conditions all along the line are better and conditions generally are improved."

"Georgia, and especially the great city of Atlanta, has been embarrassed by reason of the fact that Chattanooga has been shipping liquor across the state line. This will be stopped as soon as Tennessee goes prohibition. Conditions are everywhere improving."

ELDERS WELL TREATED.

President C. A. Callis reports the labors of the elders, of whom there are 20 laboring in the Southern States, to be very successful and their treatment by strangers all that could be desired. There are several large branches located in the territory under his jurisdiction and they are increasing in size all the time. The members of the branch at Darlin, Miss., recently completed an elegant church and President Callis visited the congregation a few days ago on the occasion of the dedication.

President Callis came to Utah on a sad mission and yesterday returned from Louisville where he attended the funeral of his brother, John Callis. He was just preparing to return to Chattanooga last evening when he received word of the death of his sister-in-law, Mrs. Lena Williams, Park City, so he turned back and went to Louisville again this morning on his second and welcome errand.

Piles Cured in 6 to 14 Days. PAZOL OINTMENT to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded.

SURPRISE RETIRING OFFICER.

Orson P. Arnold, Jr., is Greeted by His Fellow Employees in Happy Affair.

Retiring Assistant Superintendent Orson P. Arnold, Jr., of the street railway service, was given a surprise party last evening, by 30 of his fellow car men, at his Fifth avenue residence. Mr. Arnold was presented with a solid silver, gold lined loving cup, bearing the inscription: "Presented to O. P. Arnold, Jr., as a token of esteem, from the friends in the employ of the Utah Light & Railway company." To Mr. Arnold was given a silver chocolate pot, sugar bowl, cream pitcher and tray, with a set of silver spoons and a bouquet of choice flowers. The tray and spoons bore the letters "A" in old English. Inspector George Eldredge was master of ceremonies, and Joseph H. Matthews made the presentation speech; the latter referring in a touching manner to the many years of faithful service given by Mr. Arnold since he entered the street car service. In 1889 he was presented with a buggy by his associates; in 1891 he was given a gold watch; and in 1893, a gold headed cane. Mr. Arnold began his career on work in 1873, as a water boy and track man, at "four bits" a day. In 1875 he was made a street car driver, and in 1883 was appointed assistant superintendent. Mr. Arnold and family will remove on the 15th inst. to Hooper, where he has purchased the local opera house and other property, and will reside there. The best wishes of many friends go with him.

money derived from the investment of land grant funds, referred to public institutions committee.

THE ROUND OF THE THEATERS

THEATER—The number of Salt Lake theater goers who kept posted on New York successes was again shown last night by the big and brilliant throng which came out to greet "The Red Mill," the latest echo from Broadway, on its first presentation in this city. The audience, which included to be rigid at the opening, gradually thawed out, and by the time the Dutch "kiddie" came upon the stage in their all too brief number, and the two comedians got a chance to do some variety work, with their impersonation of Harry Houdini and Dr. Watson—the house temperature went up with a bound, and the closing act was greeted with a shout of approval.

In spite of this, however, the fame of "The Red Mill" had excited so many anticipations that its conclusion by the present company left some disappointed. Victor Herbert's melody was as bright, and often ambitious, but its first features were not enough out to the members of the company as they were not a local success, and was not a success in the city.

The staging, costumes, lights and general handling were all of the highest degree of excellence, and without doubt the will continue to draw well during the remainder of its stay. It runs tonight and tomorrow afternoon and evening.

ORPHEUM—Every number on the bill at the Orpheum this week is worth seeing. A crowded house greeted the performers last evening and the audience was kept in a roar of laughter almost from the first to the last number.

The program opens with a singing and dancing act by Carroll and Baker; they can certainly sing and dance, and the latter is a real comedian, who has a little judicious use of embalming fluid on some of the alleged jokes would be timely.

Vernon, the ventriloquist, with his six dumbbells, does some exceptionally clever work, and exercises the good judgment of not making the act too long. Another pleasing number is the singing of "The Swan Song" by the Orpheum quartet.

The playlet entitled "His Local Color," by Miss Una Clayton, who plays the leading role, is decidedly good, but consumes too much time. Her portrayal of a Bovey character is exceptionally well done.

The "scream" of the evening was the singing and dancing of Peter Donald, assisted by Meta Carson. Donald is a real Scotchman, and his witty sayings, funny songs and the trouble he encounters while on his way home from a Scotch ball, under the influence of liquor, keeps the audience in a roar of mirth.

The four Franklins in their flying novelty furnish the headline. Their act, or rather series of acts, are most remarkable, and their daring feats of balancing and walking on a tightrope is from Europe and some of the feats they perform have not been seen here before.

James H. Cullen, "The Man From the West" is here for a return engagement and made a better impression than on his first appearance. His songs seemed to take well, especially the "P. O. E." number. The orchestra furnishes the usual excellent selection, and the motion pictures are good.

COLONIAL—"Show Acres," presented by a company of exceptional ability, delighted an audience that well filled the lower portion of the house last night, and taxed the seating capacity of the theater. The story, familiar to all players by James A. Herne is told by this company in a style just as pleasing as that which the original company presented. The play is from Europe and some of the feats they perform have not been seen here before.

to be desired in the principal role of the bill, which Claude Markley, Nat's brother, played his part in the style of Dorothy Herne, daughter of the author, in pretty winsome and an actress of ability. An Helen Berry she acquitted herself with credit. Annie Moran as Martin's wife, handled an exacting part in pleasing manner, her character work being of exceptional merit. The two little tots of the piece, played by Helen Chaffee and Charlotte Moore, were delightful in their childishness and their freedom from self-consciousness. The support Mr. Boyd is above the average and the production is as good as the best which has been given before the public. It is well set throughout. Not the least pleasing of this week's offering at the Colonial is the orchestra, which was heard to good advantage in a well balanced program. "Show Acres" runs through the week with matinees Wednesday and Saturday.

BUNGALOW—Willard Mack and his versatile company again "made good" at the new Bungalow last night in their appearance in William Gillette's great play, "Secret Service." The house was full of admirers of the stock company which Mr. Mack has brought up to a high standard for the edification of Salt Lake's theater-going public. The play was staged in good style and the off-told tale of Ipy and his associates with strong interest.

The plot of the play is built upon the great struggle for supremacy between the north and south, but the stinging of sectionalism has been withdrawn, and neither the performance without a feeling of resentment arising from the portrayal of William Mack had the part of Lewis Dumont of the secret service, who enters the enemy's lines under an assumed title as captain in the southern army. Miss Blanche Douglas as Edith Varney was the incarnation of love and gentleness, united with spirit and bravery characteristic of southern womanhood. These characters seemed to draw not to the act. The supporting company was satisfactory, especially Mr. Howard Tremaine, who is a new acquisition, and who showed his versatility last night in the role of Benton Axtford, taking the place of Ramsey Walker.

"Secret Service" goes all week at the Bungalow.

THE GRAND—The Grand last night set out upon its career as a vaudeville theater, with the "White Rats," in opposition to the regular circuit combine. The talent presented ran the scale from very good to poor. Among the best may be named Claude Markley, the bongo king, who has been heard here before; Adonis and his dog, equilibrist, who drew forth much applause; and Sados, who as a juggler is certainly in the front rank. The program concludes with amusing moving pictures. The attendance, though not large, was enthusiastic. The entertainment is well up to the average of the lower priced bills, and furnishes a pleasant evening. The same bill runs through the week.

LYRIC—There are some striking feature motion pictures at the Lyric this week. Foremost among them is "Count Dracula," which is a real horror picture. Another is the first series of travelogues in Alaska, showing the departure from Seattle and the return to the north. The program concludes with a comedy in three acts, which is well appreciated.

ELIJAH—The Salt Lake Choral society indulged in a most enjoyable and enjoyable at Christmas's dancing academy last evening. After the chorus had rendered "Elijah," the chairs were removed and dancing was indulged in for some time. The festivities being interrupted to allow a short address from Mr. D. L. Davis, president of the society, Mr. D. L. Davis and Senator Williams, and the chairman of the committee, Prof. Peabody of the Orpheum club, Manager Pyper of the theater, and Prof. Blakeslee, all of whom spoke words of encouragement for the workers, and predicted success for the repetition of the oratorio Friday evening next.

It is to be hoped that the society will to it that the Salt Lake musical journals of the country are duly notified that Salt Lake was among the cities of the world which took note of the hundredth anniversary of the great Mendelssohn, and observed it by rendering one of his works on the occasion.

THE GADSKI SALE—The sale of seats for the Gadski concert at the Salt Lake Theater, commences tomorrow morning at the theater box office. The Gadski event will be one of the most pleasing single artist musical affairs ever held in this city.
