

Louisville, 8.—Dr. Stuart Robinson's church gave \$285 to the fever sufferers to-day. The fund contributed by Louisville thus far is over \$150,000.

Philadelphia, 8.—There will be benefits in all the theatres and places of amusement in behalf of the yellow fever fund during the week. There is a general regret that Col. Welsh, chairman of the relief committee, should have been misunderstood in the matter of benefits.

Hartford, 8.—The subscriptions in this city for the yellow fever sufferers amounts to \$4,500.

Greenville, Miss., 8.—Five deaths and 20 new cases the last 24 hours.

Washington, 8.—Several members of the yellow fever fund committee assert that their action in declining to allow theatrical performances to take place under the auspices of the committee, has been misinterpreted. The position the committee took was that it did not wish to take the care or responsibility of the tickets for entertainments. If anybody is disposed to unite in the good work by giving theatrical entertainments the committee will be thankful, but it was not deemed prudent to interfere in the matter of entertainment.

Rose Eytinge received a telegram from the secretary of the New York yellow fever committee, saying that as the Philadelphia committee are unwilling to accept the contributions for the benefit of the yellow fever sufferers from play people, send them to us, and we will most cheerfully disburse them for such charity in accordance with your instructions.

DEADWOOD, D. T., 8.—The following news received from Camp Devin: Have moved camp, to-day, to the Bedwater, near Nelson's ranch. Johnson, the well-known horse-thief of Hay Creek, was captured yesterday morning, in close proximity to two governments mules that had been stolen from camp the night previous, and is now in the guard-house. The evidence on hand cannot fail to convict him. He will probably be sent to Cheyenne for trial. The mules were recovered.

CAMP STAMBAUGH, Wyo., 8.—Early last Friday morning five masked men surprised and captured the herding camp of W. P. Noble, 18 miles from here. The four herders were tied up, and the intruders held possession of the camp till Saturday night, when they left, going west, taking with them all the camp outfit, provisions, etc., and 13 good horses. During their stay in camp they conversed freely with their prisoners and showed a thorough knowledge of the country. They also stated that they intended to take in the paymaster. It is supposed they are part of the gang of robbers who tried to wreck the train on the U. P. R. R., some time ago.

Two inches of snow fell here this morning.

A son of the Shoshone Chief, Washakee, came into Camp Brown on Friday, reports that a fight on September 5th, on Clark's Fork, between a detachment of troops and Crow Indians, and about twenty lodges of the hostile Bannacks. The Bannacks were defeated, their chief, all their squaws and children, and a large number of horses being captured. One soldier, a citizen, and a Crow scout were killed, one soldier was wounded and many of the Bannacks killed.

NEW ORLEANS, 9.—The collectors of the port telegraphed to the Secretary of War the following report of arrangements made for the issue of the rations turned over to him:

"New Orleans, Sept. 6.  
Hon. Secy. of War, Washington:

I have the honor to report that immediately upon receipt of your telegraph through Major Sullivan, commissary of subsistence here, a conference was called with all the heads of the Federal departments in this city. It was decided by them that it would be best to call a meeting of representatives from all the charitable associations. Yesterday, at noon, the following met in my room:

(Here follows a list of names of presidents or others, representatives of 20 charitable organizations.) They appointed a committee to draft rules. This committee reported to the full committee of all the societies, and their report of the distribution of supplies was adopted and an executive committee formed to be styled "The Orleans Central Relief Committee," composed

posed of seven persons, viz.: J. Vandergriff, Prest. of Howards, W. T. Hardie, Prest. of Y. M. C. A., Dr. Doumeing, of St. Vincent De Paul, Wm. Wright, Grand Army of the Republic, F. L. Richardson, relief committee of the Army of Tennessee, W. G. Brown, Prest. of the Mutual Life Union, F. Dolander, Prest. of the Peabody Association, was appointed, and this committee, now in session, will adopt rules, select a chairman, make and keep a full record of the distributions of these and such other such other supplies as government may send, and will furnish volunteer labor to perform work. I am of the opinion that under this arrangement supplies will be honestly distributed for the benefit of the real yellow fever sufferers, and that the present plan meets with general approval except that of a few candidates for congress, now at a safe distance from this city. Every precaution will be taken to protect the government's interest. (Signed)

GEO. L. SMITH,  
Collector of Customs.

The following reply to the foregoing was received:

WASHINGTON, 7.  
Geo. L. Smith, Collector Customs,  
New Orleans:

The arrangements for the distribution of supplies seem eminently proper and judicious and satisfactory to me.

(Signed) GEO. W. MCCREARY,  
Secretary of War.

### FOREIGN.

PARIS, 4.—The Marquis of Salisbury had an interview with Waddington, Minister of Foreign Affairs. It is reported that they met again to discuss Egyptian affairs. Midhat Pasha is expected to-night. He will see Salisbury and Waddington to-morrow, and then proceed to Gasteen and Vienna to see Bismarck and Andrassy.

The manager of *Le Pays*, a Bonapartist journal, of which Paul De Cassagnac is editor, has been summoned before the correctional police for insulting President McMahon.

BELGRADE, 4.—Twenty-two thousand Austrians, with a flotilla, are advancing to relieve Gen. Szapary. They cannot reach Doboj before the end of the week. The insurgents meanwhile, will make a desperate attempt to capture the place.

VIENNA, 5.—Gen. Phillipovich announces that a band of 1,000 insurgents was defeated on the 3rd inst., near Kadinoselo, and 30 killed.

Gen. Szapary, on the 4th inst., sent two regiments southward, driving the insurgents from Lehae, on the Maglai road, after a seven hour's engagement.

The Montenegrins are reported evacuating Sulphoria.

Three hundred soldiers and firemen were killed by a water spout at Miskolcz, Hungary. They were buried in one grave. Two hundred persons are still missing.

LONDON, 5.—The Preston Operatives Association has issued a notice pointing out that 164 pairs of spinning mills are stopped in the town, that it is feared that an infinitely worse condition of things is imminent, and urging that short time be generally adopted in Lancashire. A meeting of manufacturers has been called to consider the unprecedented commercial difficulties.

The following is the log of the steamer *Bywell Castle*, which ran down the steamer *Princess Alice*, on the Thames, on Tuesday evening. The master and pilot were on the upper bridge, and the lookout on the top gallant forecastle. A light air prevailed. The weather was a little hazy.

At 7.45 p.m. proceeded at half speed down Gallion's Reach. When about the centre of the Reach, observed the excursion steamer coming up Barking Reach, showing her red and masthead lights. We ported our helm to keep over towards Tripcock Point. As vessels neared we observed that the other steamer had ported her helm. Immediately afterwards saw that she had starboarded her helm and was trying to cross our bows, showing her green light close under our port bow. Seeing that a collision was inevitable we stopped our engines and reversed them at full speed. The two vessels came in collision, the bow of the *Bywell Castle* cutting into the steamer with a dreadful crash.

We took immediate measures for saving life by the hauling up over our bows several passengers, throwing overboard rope ends, life buoys, a head ladder, and several planks, and getting out three boats, at the same time keeping the whistle blowing loudly for assistance, which was rendered by several boats from the shore, and a boat from another steamer.

The excursion steamer, which turned out to be the *Princess Alice*, turned over and sank under our bows. We succeeded in rescuing a great many passengers, and anchored for the night.

No log of the *Princess Alice* has been made up, nor has the captain survived to give an account of her course. The collision will be the subject of a board of trade inquiry immediately. The *Bywell Castle* received no damage whatever.

Later estimates number the persons drowned by the collision at between 600 and 700, the majority of the estimates favoring the latter number. A diver says he felt corpses packed four and five deep in the cabin of the *Princess Alice*.

PANAMA, August 28.—The elections on August 4th in Bogota were accompanied by serious disorders. The state government wished to control the elections. They only established four polling places in a city of 50,000 inhabitants, and put those under the control of their own people. The adherents of the other party could not get to the ballot boxes to deposit their votes, and confusion and disorder naturally arose, as party spirit was very much excited. The state troops posted themselves in the towers of the neighboring churches and fired upon the crowd, killing one or two and wounding several. This broke up the election, and as all the votes cast are in favor of the state government party, they have fully succeeded in carrying the day unless Congress should order a new election.

ROME, 7.—Signor Aveganez, minister of war under the Roman republic of 1849, made a speech at Towe Maggiore, urging preparations for war with Austria. Garibaldi has again written a letter to Papolo, agitating the same question.

VIENNA, 7.—Austria has informed the Porte that it is desirable the occupation shall extend to Metrovitz. This has, for a time, increased the difficulty of negotiations.

Fighting was renewed on Thursday, at Doboj. The combatants engaged are estimated at 22,000.

CONSTANTINOPLE, 7.—It is said, in Russian military circles, that in view of the difficulty the Austrians meet with in the occupation of Bosnia, the force of 50,000 men, fixed by the treaty of Berlin for the occupation of eastern Roumelia and Bulgaria, is quite inadequate. An officer of high rank says: The Russians have already decided to leave at least 100,000 troops in these provinces.

BUCHAREST, 7.—The rinderpest is rapidly extending throughout Roumania. The authorities neglect taking precautions to prevent its spread.

Prince Karageorgevich, the pretender to the Servian throne, and General Ignatieff are mentioned as possible candidates for the Bulgarian throne.

VIENNA, 7.—Gen. Szapary telegraphs that he defeated the insurgents on Thursday. They dispersed in various directions, the main body taking the direction of Tuzla. The Austrians now hold the road between Granica Trebuk and Maglai, and are fortifying their positions. The Austrian loss in this engagement was 65 killed and 377 wounded or missing.

Gen. Zach telegraphs that two of the most important outworks of Behas has been captured after obstinate fighting, but the positions before his left wing are still in the possession of the insurgents.

ST. PETERSBURG, 7.—The Russians occupied Batoum on Friday morning. The entry was perfectly peaceable.

Dervish Pasha is arranging for the embarkation of the few remaining Turkish battalions.

CONSTANTINOPLE, 7.—Mehemet Ali Pasha, who was sent to pacify Albania, was mobbed at Yacona, 67 miles northeast of Scutari. He fled the place and took refuge in a shed, but was pursued by the Albanians, who called upon him to organize an attack against the Austrians. He refused, and was, with 20 members of his suite, massacred.

LONDON, 9.—A Vienna dispatch says the Austrian division, spread-

ing south from Banjalouka, captured seven villages and small forts on the Sanna and Jeniki rivers.

The Austrian force operating against Behas was compelled, after considerable loss, to abandon its captured portions and retreat.

Complete anarchy prevails in Albania, and further atrocities are apprehended.

A Calcutta dispatch says: It is generally recognized that the present is one of the most critical epochs in the history of India. A single false move in the conduct of the Mission to Afghanistan may involve not only a costly frontier war, but wider complications. The Mission forms a single step in an extensive concerted scheme for the protection of India.

CONSTANTINOPLE, 9.—The Albanian insurgents assassinated the Governor of Ipeka and ten other officials. They also fired, with petroleum, the house containing the dead body of Mehemet Ali.

The German government recently sent to the signatories of the treaty of Berlin, asking them to take a common step with the view of bringing the Porte to execute the stipulations of the treaty. Austria, France and Russia replied affirmatively. Italy and England have not yet answered, but will doubtless reply affirmatively soon.

The occupation of Trebinje by the Austrians has given *comp de grace* to the insurrection in Herzegovina. The Turks have commenced to dismantle the fortifications of Podgoritz as a measure preliminary to the surrender of the place to the Montenegrins.

DUNDAS, Ont., 9.—At 3 o'clock this morning five masked men entered the Great Western Railroad station, tied and gagged the watchman, and blew open the safe, which contained about \$100 and a check for a small amount. The burglars escaped.

### EDITORIAL NOTES.

Under the heading "How We Civilize Indians," the *Utica Republican* gives the whole system in four points: "Send them some missionaries. Rob them. Starve them. Kill them for getting mad about it."

Official accounts from Great Britain show that John Bull has imported more wheat this year than ever. Up to the first day of August, the amount received was 101,946,868 bushels, against 80,138,958 for the year before, which was in excess of 1876.

Who says the Chinese do not assimilate with the usages of Christian civilization? Two celestials had a law suit in Salinas, Cal., recently, when the defendant, who lost the case, applied for a new trial, and said he would hire fresh witnesses and try it again.

Assessor Crismon will be ready to receive the affidavits of unregistered citizens of Salt Lake County, every day next week at his office in the Court House. Ladies and gentlemen, if you are not registered do not fail to note the fact that this is your last opportunity for the present year.

A benefactor to humanity has invented an arrangement by which the nuisance of the steam blowing from safety valves of locomotives will be spared to a sensitive public. The steam by this device is conducted through a two-inch pipe from the safety valve to the tender, without noise, where it is used to heat the feed water.

FARMERS make note of it.—A car load of the famous Buford Rock Island Gang and Sulky Plows, String Plows, Harrows, Cultivators, Shovel Plows, Road Scrapers, &c., just received by

### DON'T FORGET IT.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid this season of the year, as poisons arising from stagnant water or decaying vegetation are more numerous and are through inhalation taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not heeded, end in more terrible diseases and death. White's Prairie Flower proves itself the Great Liver Panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price twenty-five cents and seventy-five cents.

### WONDERFUL CURE.

OGDEN CITY, Aug. 19, 1878.

Dr. E. L. Plant:

Dear Sir—My son, whom you treated for epileptic fits, and cured, has not had a single return of the symptoms for the past year, and I felt it a duty to return you my heartfelt acknowledgement for your kindness and attention to my son in his sickness; and I feel to say, that if there are others suffering from a similar action, and you, by publishing this, can reach them, you are entirely welcome to use it.

With best wishes for your prosperity in the good work,

I remain, as ever, your faithful friend,

Dyspepsia is the costly price we pay for luxuries. All civilized nations suffer from it, more or less, but none so much as the people of the United States. It is here, in the New World, that the disease has become domesticated, and we, as a people, have threatened to monopolize its miseries. Let us check its further progress, by the use of
