

A Kitten.—A boy at school, on being asked to describe a kitten, made the following graphic statement:—"A kitten is chiefly remarkable for rushing like mad at nothing whatever, and generally stopping before it gets there." That boy got a prize that half.

A boy who had a taste for menageries was naughty one day, and to frighten him, his mother told him the story of the wicked boys of Bethel, who called out to the prophet, "Go up thou bald head," and were destroyed by 42 bears. Soon after the boy stole into the street and waited for a bald-headed man. When one came along he cried out boldly, "Go up, thou bald head! And now bring on your bears."

WHAT LUMBERMEN SAY OF THE STEEL SKELNS.

L. B. Mattison, Esq., Salt Lake City.

Dear Sir—The steel skein wagon. 34 in., that I bought of you, has been used in one of the roughest cañons in Utah; has been loaded with 1,100 feet of Green Lumber; it stands the work better than any other wagon on the road, in fact I am well satisfied it is the best wagon in the market.

Respectfully,

THEY COULD SEE IT.

It was so apparent to the Centennial jurors, when they came to compare Benson's Caprine Porous Plaster with other porous plasters on exhibition, that it was greatly superior to any of them, and they were forced by their own convictions to give to the manufacturers of it the highest and only award of merit overall others. Benson's Caprine Porous Plaster was invented to overcome the only objection ever found to the old and popular porous plaster, that of slow action. Benson's Caprine Plaster acts at once, relieves pain immediately, and cures where others will not even relieve. While possessing the above remarkable qualities, it is absolutely free from the lead poisons that many other plasters are found by analysis to contain. Sold every where.

LAME-BACK! BENSON'S CAPRINE POROUS PLASTER is the best remedy for a lame or painful back, or weakness of the back ever invented or known. It soothes, it strengthens, it cures, where other porous plasters, and all liniments fail. d214 & w 1m

WHY SUBMIT TO THE DISCOMFORT and humiliation entailed by a local disease, of the skin, when GLENN'S SULPHUR SOAP will rid you of it with certainty and dispatch? It is a remedy which never fails to relieve cutaneous disease, and as a means of banishing defects of the complexion, it is equally reliable. The benefits arising from the use of Sulphur Baths, in cases of skin disease, and of rheumatism, and gout, are well known; but the cost is too heavy to be incurred by many persons who would otherwise take advantage of them. GLENN'S SULPHUR SOAP answers the same purpose, and is both inexpensive and convenient. No one need stir abroad in search of a sulphur bath who has this admirable means of providing one in-doors. It is incomparably the best deodorizer and disinfectant of clothing and bed linen in use, and prevents diseases of an obnoxious nature caused by contact. Sores, ulcers, bruises, scalds, cuts and sprains are promptly remedied by it; and its cleanly, healing, and soothing properties constitute it a far more desirable remedy for scorbutic ailments than ointments of any description, since such greasy compounds soil the clothing, often aggravate, and very rarely indeed do any permanent good. Sold by all druggists.

When the Lips of Beauty

A Feature of Superiority.

The superiority of WHITE'S PRAIRIE FLOWER for diseases of the Stomach, Liver and Blood consists in its uniting harmoniously with the gastric juice, strengthening and enabling it at once to dissolve the food. If the gastric juice is weak the food ferments, giving rise to sour stomach, sick headache, burning in the pit of the stomach, the patient also suffering from insufficient nutrition. It aids the Liver, over which it has a specific power, in filtering impurities from the blood. Its action on the kidneys is likewise salutary, increasing the secretions. As a blood purifier, by enriching the chyle, it is without a peer, curing some of the most obstinate and long-standing cases on record. It is pronounced by one and all The Great Blood and Liver Panacea. Price 25 cts. and 75 cts.

NOTICE.

LOGAN, Utah, July 20th, 1878.

We the undersigned, farmers of Cache County, Utah, hereby certify that we have this day witnessed the McCormick Harvester and Binder at work on the farm of John Ash at Logan, and consider the machine a complete success in the most essential parts, v.z. elevating, binding and delivering the bundles after bound. It does the cleanest work of any machine yet introduced into this valley, elevating and binding every straw, and not scattering and wasting the grain as other machines do. The delivery of the bundles is perfect, as each sheave is pushed gently off the platform by the succeeding one, and strikes the ground butt first, thus avoiding the threshing out of ripe grain.
