Crawfordsville, Ga., Nov. 39 .- Thomas Crawfordsville, Ga., Nov. 39.--Thomas E. Watson, recently candidate for addressed a large crowd at this place, addessed a large crowd at this place, the former home of Alexander H. Ste-vens. His address was received with close attention but with no marked enthusiasm. He spoke in part as fol-dows.

THOMAS E. WATSON SCORES

"In national politics the Democratic party stands without a party, a declaration of principles or accepted leader. It is utterly bankrupt in reputation. It has no unity of conviction, sentiment nor public purpose. It contains antag-onistic elements which can never be In His Address He Expressed He rode through the crowded streets is harmonized. Its secret purpose is so a state coach escorted by a troop of foreign to what the Democratic masses approve that the eternal struggle of the national leaders is to prevent the Demmasses from penetrating that secret purpose. What is that secret To use the Democratic party purpose? in support of the same system of class legislation which the Republican party stands for. The watchword is 'Keep up the attack upon Republican individuals ut do not attack the system of special privileges which is responsible for pres-ent conditions.' In other words, the secret mission of the Democratic party is to put up a sham battle. By keep ng the people divided and deluded they hinder the organization of real opposition to privileged class legislation and orporate greed. Thus the national Democratic party is the best friend or which the plutocratic Republican party can boast, for the Belmonts, who call themselves' Democrats, are just as much in favor of special privileges as Carnegies and Morgans who call themselves Republicans. "I make this prediction: Bryan will be the candidate of the Democratic party in 1908. And I make this second prediction. When Bryan runs for president in 1908 as the candidate of the Parker-Belmont-Cleveland-Gorman combine, he will be a worse beaten man than Parker was, Does Mr. Bryan sincerely believe that he can commit the national Demo-cratic convention to his recently resaired and replenished Populist form? If so, he must see that the country would then have two Populist parties. Such a contingency would be laughable were not the crisis so grave. Mr. Bryan must know that his pro-gram promises nothing better than another spectacular combat at another St. Louis convention with another 'dog-fall' as the result of another surrender on the part of Mr. Bryan and sham battle before the people and another Waterioo in which all will be lost, including honor. The Democratic party cannot longer claim to be national. It is sectional. The south is still its victim. The south is still the quadrennial sacrifice which corrupt or stupid southern politicians deliver over to Wall street. But for the solid south, eastern Democracy would have to shut up shop, join the Repub-licans and face a genuine party of op-position. "What keeps the south solid? Nothing in the world except an out of date sectional animosity and the shamelessy hypocritical cry of negro denomina-"Southern politicians will sacrifice the national ticket any time to maintain the local monopoly. And the 'negro question' is the joy of their lives. Men who appear to have some common sense in other directions lose all their mental bearings when the 'negro question' is sprung, and they immediately begin to hop around in a dervish dance of political hysteria. "The south cannot afford to be sec-tional. In selfdefense she must be na-tional. If we allow our southern lead-ers to put us in a degrading position nationally, ours is the fault. As long as we allow the solid south to be the slave of a handful of eastern capitalists we must expect the lash of the slave river and to feel the weight of the chain "Let us put a finish to this degradation of the south. Let us assert our manhood against the tyranny of polit-ical bosses. Let us break the shell of ical bosses. Let us break the shell of this bourboulsm which neither learns nor forgets."

## WHAT LIPPMAN SAYS.

#### Stands by Guns of Misrepresentation to Last Ditch.

Joseph Lippman, manager of the Tribune, said, in reference to the article: "I did not write the article, and I do not know who did, for it came through the local reporter's room. I had a con-versation with Mayor Stratton yes-terday, however, in the witnessroom of the grand jury. There were present the grand jury. There were I besides himself Mr. Picker and a YOUDE man named Bagley of the Murray American Eagle. In this conversation he voluntarily stated that they were very unsatisfied with the labor at Mur-ray, and wanted a steadler class; that the smeltermen would not pay wages sufficient to hold American workinen, and that he had seen officials of the Mormon Church in regard to securing a better class of immigrants. This statement is about the same as pub-lished in the Tribuce, although I did not write what was published, or know

The report further says that even with complete material for torpedo de fense, it is practically valueless with-out a trained personnel carefully instructed how to operate it and that today we are practically without such a force. Only about 400 men can be absigned, he says, for the service requiring about 5,000. It would be un-wise, the report remarks, so altempt to provide a personnel for the submarine defense from the present force of coast artiflery above these are to der out on the artillery since there are today only onehalf the number of officers and men re-quired to man and serve the armanept already provided Gen. Storey says there has been de-veloped in our coast artillery a system of fire action which, as far as he can accertain, is not equalled in the world, but its accomplishment, he says, de-pends upon a standard equipment, which is not completely installed in any of our harbors. He says that they have to improvise in many harbors means of position finding in order to conduct artillery practise. "The poor showing made by the Rus-sian coast artillery" at Port Arthur against the Japanese fleet has caused surprise," the report recites, "but the explanation is that the artiflery there when the ranges are 10,000 to 12,000 meters does not shoot at all or shoots without results.

If I did not urge, as earnestly as I can, the immediate completion of the tor-pedo defense of all our fortified ports. Today this defense is iamentably defi-cient both in material and personnel."
