ASYLUM FOR ZELAYA.

Department of State. Washington, Dec. 14.—One of the projects for the solution of the Nica-raguan situation that has been strong-ly urged upon the state department is the establishment of a protectorate, either singly by the United States, or jointly with Mexico. This may be regarded as necessary in the event that the insurgents fail to displace Zelaya by their own efforts, and it may follow an insurgent tri-umph that would leave the country without responsible leaders. PRECEDENT FOR COURSE It is said precedent for such action could be found in the cases of Santo bomingo and Cuba. In the first in-stance large sums of money, due American citizens, could not be col-lected from the Domingan government (then in a state of chaos) by diplo-mantic means. In the case of Nica-ragua the government has defaulted in payment in agreed allottments on the Emory claim. In the case of Cuba a state of disorder that threatened lives and property of Americans and other foreigners was the warrant for intervention. There is reason to believe that a forward movement will be adopted by the government, perhaps as soon as a sufficient number of marines have been gathered off the Nicaraguan . been gathered off the Nicaraguan Today's news from Managua, indi-ating the imminence of rioting be-yond the ability of the local govern-ment forces to suppress, might serve as a basis for landing the marines and their dispatch to Managua if necessary to maintain order, just as was done on the Isthmus of Panama a few years ago. It is not part of the plan to maintain such a force in Nicaragua permanently, but only long enough to permit of a fair and free general election and the establishment of a president pledged to observe con-stitutional obligations The attitude of the government of Mexico in the Nicaraguan situation is set forth in a document that today was placed in the hands of Secy. Knox by Gov. Creel of Chihuahua. PREST. DIAZ'S VIEWS.

PREST. DIAZ'S VIEWS.

PREST. DIAZ'S VIEWS. Gov. Creel, who recently arrived in Washington, had an interview with Secy. Knox this afternoon. Governor Creel presented a statement from President Diaz containing his views. At the state department this after-noon it was announced no statement could be made with respect to the Megican note, for the present at least or until department officials had an opportunity to give it thorough con-sideration. It is expected, however, that this government's reply may be ready for delivery to Gov. Creel with-in the next day or two. The report from Managua that the Nicaraguan congress, probably antici-pating the carly retirement of Presi-dent Zelaya, attempted to authorize a number of important concessions to

ASTLUM FOR ZELAYA. ASTLUM FOR ZELAYA. In Central American diplomatic cir-cles the dispatch of the Mexican gun-boat Guerrero to Corinto is taken to have only one meaning-the furnishing of an asylum for President Zelaya when he is forced to abdicate. The diplomats, practically all of whom are acquainted with the depth of the water in that harbor, point out that the Guerrero can make fast to the plers there while the American gun-boats, the Yorktown and the Vicks-burg are of too great draft to ap-proach too close to the shore. This fact gives a great advantage to the Guerrero, provided her errand is to rescue Zelaya from American retribution. Unless a large contin-gent of United States marines or bluejackets is landed to prevent the approach of any one to the Mexican war vessel, Zelaya might slip aboard. say the Central Americans here, and then laugh at any tempt at his cap-ture. Once on the Guerrero, the Ni-caraguan president would be theoretic-ally on Mexican soil, and United States nary authorities would be pow-eriess unless it were decided to make an issue and take Zelaya by force-an act that would be taken to a declaration of war with Mexico.

PRESIDENT'S BOWERY VISIT **RESULTED IN MUCH GOOD**

New York, Dec. 15.—It was a great day for the Bowery when President Tatt visited that famous thoroughfare. "The president's visit did more real good than a year's work by the mis-sion people," said one of the officers of the Bowery mission today. "His smille was an uplift and his words a torch of hope to many hearts. There is not a soul on the Bowery today that will ad-mit he was not at the president's side. Men down on their luck say that the cheery words of the president infused them with new life and a number of our apparently hopeless derelicts have for a chance to show their mettle. When a man like President Taft comes down here and talks straight from the shoul-der, it's bound to have a good effect."
