firmation.

St. Petersburg, Aug. 1, 3:50 p. m.-At last the decisive battle of the campaign seems to be in progress. Having completed his enveloping movement of the Russian position Gen." Kuroki has ordered simultaneously an advance from all points against Hai Cheng and Liao Yang. Fighting is raging on both

fronts and still continues. The latest reports contain nothing yet confirmatory of the rumors that Gen. Kuropatkin has been defeated. According to Kuropatkin's official dispatch to the emperor, the battle began for the possession of the important position at Simouchen which is located at the juncture of the Feng Wang Cheng and Slu-Yen roads.

Two separate armies were launched from the east above the two roads, while a third, under Gen. Oku, moved up east of the railroad from Ta-Tache-Kiao, to try to cut off the Russian force there from Hal Cheng, If the latter move is successful this force will be crushed. A portion of Gen. Kuroki's army at the same time advanced army at the same time advanced against Gen. Washington, Aug. 1 .- The first official action of the Venezuelan government in dressed and otherwise handled, respect to the seizure of the properties of the New York and Bermudez Asphalt company, has come to the state department in a cablegram from Minister Bowen at Caracas. Mr. Bowen says that suit was brought by the Venezuelan government against the asphait company on the ground that it had failed to carry out certain portions of its concessions, especially those requiring it to dig canals, dredge chan-

nels in the rivers, and export other pro ducts than asphalt. Because of the company's failure in these matters, the Venezuelan court urged the court to grant an embargo (similar to the Amer

ican injunction), and to appoint a custodian or receiver. The court granted this application, laid the embargo and appointed A. D. Carneras custodian. He sailed on a Venezuelan warship to the nearest asphalt lakes before the notice of suit was served on the de fendant company.

Minister Bowen explains that while the statutes of Venezuela authorize em-bargo proceedings such as those in the case of leases, this would scarcely ap-ply to the New York and Bermudez asphalt properties, which are held un-

While the asphalt company is an American corporation, the bonds of the company are held to the extent of about a million dollars in England; about a million donars in England, giving the British government the right to intervene to protect its citizens' in-terests. Mr. Bowen is sending by mail a detailed statement of the events lead-ing up to the setzure, and as the state department is anxious to secure some further information as to the complex-ities of Venezuelan law fitting this case, await the m He will finish the season with St.

Los Angeles, Cal., Aug. 1.-The operating department of the local division of the Santa Fee railway system is crowded almost to its capacity as a result of the rush of concentration work entailed by the recent floods in Arizona. The damage done by the waters is said to be the most severe that has ever occurred west of Albuquerque. An official of the road says that the greatest damage done was between Hack-berry and Truxton, a distance of 12 miles. The whole stretch of road bed and track between these two points is badly damaged, being washed entirely badly damaged, being washed entrely out in places for as far as half a mile. The road at this point is very tor-tuous, winding back and forth across the deep and narrow canyon, there be-ing no less than 12 or 15 bridges in this distance. Only two of these bridges were carried away by the flood. The

RUSSIAN PACIFIC SQUADRON.

Preparations Making for its Departure from Croustadt.

parture from Croustadt. St. Petersburg, Aug. L-Preparations have been completed for the departure, under the command of Rear Admiral Enquist, of the cruiser division of the second Russian Pacific squadron, now lying off Cronstadt. The warships will weigh anchor and put to sea under sealed orders within three days. It is also believed that the auxiliary cruisers Don and Ural, which probably are the ships reported as passing Copenhagen with two torpedo boats, will be followed at once by other converted merchant-men. This time the admiralty has remon. This time the admiralty has re-solved that there shall be no question of the character of the warships en-

of the character of the warships en-gaged in stopping contraband. The Don and the Ural will replace the St. Petersburg and Smolensk, which will come home and be recommissioned. A current story of an attempt to blow up a building in the Neva yards by a man in a boat is untrue. It is only a distorted version of the capture of the recommission of the capture of the occomplice of the assassin of M. Von Plebve, of which the true account was cabled from here July 28.

The engineers of the Utah Light & Railway company are setting stakes. adjoining the Jordan river plant of the company, for the erection of a transformer house and plant at a cost of \$15, 600. At this point all of the transforming and distribution of the high tension currents will be effected, thus doing away with a diversity of transforming stations, and the concentration of all this class of work at the one central and convenient point. This will prove an economical move for the company, and Manager Campbell is constantly on
