Utilize the Veranda

As a people we are more and more coming to realize that the varanda is a part of the home. When properly furnished it becomes the "living room" for the summer.

The cost of furnishing is a mere trifle. The comfort obtained beyond estimate. A few comfortable porch chairs—a settee—a rocker—a porch swing and you have a place where you can go in the evening and enjoy the air. A place for sociability—to receive a friend. The whole family will enjoy it.

Our line of out-door furniture will appeal to you when you see it. There is comfort in every piece. There's durability and style there too. We show a folding settee as cheap as \$2.75 and a variety of sizes and kinds at higher prices.

An Alaska Refrigerator

in the house will not only add to the comfort of the family by supplying means for a cool drink and pure food but will be found to be an economy-it uses so little ice. There is a reason why this is so. Come in and let us tell you why.
