Ritution consolidating them, with the Logan school preserved on its present site, and I think this will ultimately lead to an end of the jealousy and rivalry and bring the conmolidation problem to an end.

A VARSITY DEPARTMENT.

A VARSITY DEPARTABLET. "Do you think the college will grow as a department of the university?" This from Senator Bullen. "Most assuredly. It will eliminate the useless waste of money. For instance, the Agricultural college spent \$1,600 ad-vertising its merits up and down the state last year, and the university spent \$1,200 doing the same thing. A student who has once attended one school won't go to the other because of the rivalry and blitter feeling."

id

to the other because of the triany and blitter feeling." The question of preparatory students came up, and Senators Lawrence, Love, Benner X. Smith and others took a hand in asking questions, insinuating hand in asking questions, instructions that the engineering courses at the Agricultural college had been main-tained for froshmen this year. Bullen answered that only students who had previously entered either the college or the prep. department could be listed in these courses, and that they would soon die out. die out.

PARK SPEAKS.

Senator Park had a set speech pre-pared, reviewing the history of the case and he started to deliver it after case and he started to deliver it after Hollingsworth's amendment had car-ried with only three negative votes. Commencing with the constitutional convention, he came down to the pres-ent time, making rather sensational charges against both the university and the Agricultural college. Among these was one that the word "college" and "university" are synonymous, and that under the plea that certain col-lateral courses were necessary to a proper education in agricalities, the education in agricultur ollege had really tried to expand into college had really tried to expand into a university, with all its branches. rivaling the University of Utah, and through a loose construction of the rules, was educating men for other purposes than that for which the in-stitution was founded. "You claim to take men and edu-cate them for work on the farm." he said turning to Senator Bullen, "but you have been turning them out to be

The farm has not got the benefits of their education. You have graduated only 12 men in agriculture in the past 18 years, and J think the state, has paid dearly for those 12 men. There are 71 men in the college department at Logan. Of these 11 are graduates and receive these 11 are graduates and receiv pay from the state as instructors an Of the assistants. Of the remaining 60, there are only nine taking agricultural work, and the rest are getting a col-lege education in the collateral branches. It is easy to make a uni-versity out of an agricultural college, and that is what has been attempted in this case. sistants. remaining this case.

HIGH SCHOOL FEATURE.

HIGH SCHOOL FEATURE. "I do not blame the people of Logan for not wanting to lose the Agricul-tural college," continued Park, bringing in another new indictment." "Five-sixths of the students at the Agricul-tural college are really high school stu-dents, and they come within a radius of 50 miles of the college, not from the state at large. But for this high school education the state at large must pay, instead of the people of Cache county. Far more just to the state would it be to build up a high school system, on which structure the university might rest its dome. But instead we have created institutions which have gone far from their purpose, and have really been preparatory schools in a large sense. We should drop the preparatory work, and make of the University of Utah a college in fact as well as in name."

Calling attention to the 1/2 mill tax in the bill, for high school purposes, Sen-ster Park declared that this should relieve the Salt Lake senators from any imputation of selfishness in their attitude, for it pat the money saved from useless duplication in higher education into high schools, which could turn students out ready for the higher work. Instead of continuing two high schools under the name of an Agricul-tural college and a University of Utah; each striving to outdo the other in get-ting ready to be a university in fact. At the conclusion of Senator Park's speech a recess was taken on motion of Hulaniski until 2 o'clock. Calling attention to the 1/2 mill tax in

A landslide occurred yesterday, on the Heber branch of the Rio Grande road, covering the track for 70 feet with two feet of mud and soil. So no train got through during the day. However, the road is reported clear today

It is announced that the Western It is announced that the Western Pacific will have trains running out of this city as far west as the road is constructed by Aug. 1 next. The pres-ont terminus is 110 miles west of the Utah-Nevada line, where 600 men are pushing westward as fast as possible, laying track at the rate of three-quarters of a mile daily. Rain and mud have been hindering operations.

An Associated Press dispatch today says: In retaliation for adverse legis-lation, culminating in the passage of the 2 cent per mile passenger fare bill by the Nebraska legislature, and which went into effect today, all Ne-braska railroads, including the Union Pacific, Burlington, Northwestern Mis-souri Pacific, Rock Island and Great Northern, issued circulars today ab-solutely abolishing all classes of re-duced fares. The circular calls at-tention to the fact that it is the pur-pose to make the 2 cent rate the only possible rate to apply on Nebraska possible rate to apply on Nebraska passenger fares.

passenger fares. A Los Angelas dispatch states that the last washout on the Sait Lake Route was started by a tremendous cloudburst in Rainbow canyon which almost drowned the day operator at the little station who was sleeping out in a tent, and sent the water up two feet higher than at any time previous. For some 60 miles the raitr_id runs through a box canyon. Callente being the center of it, with deep guiches on either side. When the torrents come down through these guiches they strike the roadbed of the railway, and then there is grief. While the through embargo is on, the railroad will de-vote itself to developing its local busi-ness between Sait Lake and Callente. A new railroad is headed for Tono-

tions and individuals, co-detendants with the Waters-Pierce Off company, in the suit filed by the government at the instance of President Roosevelt. Over a month ago a motion was filed by the defendants to the effect that it was not in the jurisdiction of the St Louis court to compel non-resident witnesses to come here and testify in the suit. Arguments were heard before federal Judges Sanborn. Hook. Adams and Vandevanter, and the point at issue was taken under advisement. Judge Sanborn wrote the opinion. Judges Vandervanter, Hook and Adams concurred in the decision. The atterneys for the oli companies and the oil magnates set up three reasons why those not residents of the eastern judi-cial district of Missouri should not be compelied to come here and testify in the trial of the government's case. They were: 1-That the court was without juris-diction to make the order bringing them here.

2-That the order was prematurely and irregularly made. 3-That the ends of justice did not require that the non-resident defend-ants should be brought to this city. decision today overrules

er's Guests to Their Seats. Berlin, March 7 -Eugène Kupke, a chor-us singer of the royal opera, became sud-denix demented at a concert given in the palace last night at which all the ambas-sadors and most distinguished persons in official life were present. During a pause, while refreshments were being gertod, a drum was beaten, giving the military sig-nal to 'assemble." The guests hurried to their seats and the emperor, who was much asionished steed the conductor, Richard Strauss, why the signal was given. Strauss ex-plained that it was the act of an Insanc-room when the incident occurred. He did not even see the main and therefore the reports published in the United States that he tried to atlack the emperor are absolutely false.

DISAGREEMENT LOOKED FOR IN STEVE ADAMS CASE.

Spokane. Wash., March 7.--No word has come from the jury deliberating on the case of Steve Adams at Wallace, Idaho, but the general impression ob-tains that it will not agree. Juror Jacob Frank, who has been fil for sev-eral days, was so much worse last night that the jurors decided to postpone their deliberations at 10 o'clock and re-tired for the night. Mr. Frank is het-ter this morning and the jury is again deliberating.
