# SOON TO BLOW-IN COPPER FURNACE

Tintic Smelter Now Handling Full Capacity in Lead Furnaces.

WEBER TALKS OF TINTIC.

Sloux Dividend to Remain at Five Cents-Let Contract on Tintic Empire.

(Special to the "News.") Euroka, March 16 .- Prof. Weber, well known in Tintic and the state in general as a geologist, was in Eureka last week. Prof. Weber visited several of the properties in the extreme eastern part of the district, among them the Tintic Standard, East Tintle Development company's ground, and the Eureka Lilly, and made a trip of haspection
to the Sloux, Iron Blossom. Beck Tunnel and the Uncle Sam mines. Mr.
Weber states that the vein in the Tintic Standard has widened out with paying ore from a few inches to a full face,
and if is his compan that this property. tic Standard has widened out with paying ore from a few inches to a full face, and it is his opinion that this property will become a winner in a short time. The East Tintic Development company has already a good mine, but depth is yet needed. The Iron Blossom, Sioux and Colorado are becoming more wonderful every day, and it is thought that the chances of the Beck Tunnel finding the ore on the 1,180 level in the new shaft are very encouraging, in fact, they are much better than at any time since work was started at this depth. Mr. Weber thought the Uncte Sam to be in good physical condition. Taking indications as they now exist in the Colorado. Soux and Iron Blossom, Mr. Weber said that it was almost a "cinch" now that the great ore body extends unbroken through these three properties and into the one that adjoins on the south. There will be more bonanzas opened up in the district before the year is ended.

COPPER FURNACE READY.

The three lead furnaces at the Tintic smelter are handling about 750 tons of ore and flux daily, which is somewhat above the normal capacity of three furnaces of this kind. This is speaking in good terms for the plant. The construction work at the amelter is about mished. The constructing of a crushing plant, bins, etc., for handling the lime rock used in fluxing has had a tendency to delay the placing of the copper furnace in commission, otherwise it would have been started before now. The furnace is all ready and can be blown in at any time. The three lead furnaces at the Tintic

The furnace is all ready and can be blown in at any time.

J. B. Caldwell of the Wicklow property was in Tintic last week, and states that preparations are under way for the dovelopment of this East Tintic group of claims. The Wicklow is capitalized for 500,000 shares, but it is understood that the capitalization will be raised to Loud,000 shares. The increase will be divided among the share holders share for share, in other words, there will be a stock dividend. There are now about 200,000 shares of stock in the treasury of the Wicklow. This property is after the southern extension of the vein of one that has been encountered in the East Tintic Development ground. The shareholders who live in this district, as well as those elsewhere, will be pleased to learn that the company has decided to begin development work. 

WILL REMAIN THE SAME.

It is learned from a good source that the mine will continue the payment of the five cents per share each mouth, and that no effort will be made to raise it back to eight cents. The mine is in fine shape, and there is more than enough ore in sight in the property to insure the payment of the five cent dividend for 12 months to come. With the distribution this month the Sloux will have paid 48 cents per share in

The South Iron Blossom has let an-The South Iron Blossom has let another contract for 50 feet of drifting to Stephen Knox of Manmoth, who has just completed a contract which he had in the tunnel. The tunnel has been run 55 feet and is going forward along the foot wall of a quartz ledge which is from 10 to 16 feet in width. The mineralized quartz which is now being encountered indicates strongly that the workings are nearing ore. The offiworkings are nearing ore. The offi-cials of the company are much pleased with the showing.

with the showing.
Elmer Duncan and Al Moore bave taken a contract for 100 feet of sinking in the shaft at the Tintic Empire property in the southeastern part of the district. The shaft will be double compartment, and the work will start just soon as the grading can be com-

ENYDERS GET OPTION.

The Snyder Brothers' syndicate which secured an option on the mining claims owned by Joseph Mielish, over near the Iron King, will commence work as soon, as there is sufficient improvement in the weather. An effort with he made to commence the work early in May. The option calls for a substantial payment in June, and as the group owned by Mr. Mielish contains some of the most valuable relieved, there is not much doubt but what the first payment will be made and the option finally taken up. at 2.90, buyer 60.

WILL LIST PACIFIC. Special Meeting Votes to Increase Capital Stock of Company.

A special meeting of the stockholders of the Pacific Mining company operating in American Fork canyon was held last week at the Commercial club held last week at the Commercial club at American Fork, and it was voted to increase the canital stock of the company from 200,000 shares to 1,000,000. With the exception of 200,000 shares of stock, which will be given the stockholders at the rate of one share for each share held, the remainder of the issue will be placed in the treasury. At the meeting 144,969 shares were presented, and the vote was unanimous. The stock dividend will be paid on March 20.

March 10,

The company has engaged the services of E. P. Jennings to make a professional examination of the property, and make a complete report of the physical condition. Already the company has opened quiteen body of ore. It is understood that the company will shortly make an application. on the exchange.

MORE ORE AT DAY MINE. Drift on 700 Level Cross Cuts Ore for 80 Feet-Still in Orc.

(Special to the "News.")

Pioche, March 15 -- Recent development in the Day mine of the Nevada-Uzuk Mining and Smetting company

Utah Mining and Smelling company are of a most satisfactory nature. A drift on the 700 foot level has struck an entirely new body of ore which has been cross-cut for 80 feet and the banging wall has not been found. This ore is all of a shipping grade and carries higher values than most of the ore shipped from this old mine in resent years. From the position and dip of this body of ore Gengral Munager Gaskelt thinks it altogether senarate from any body of ore gether separate from any body of are hitherto found in the mine and noish probably, the feeder or original body

from which the other ore has been de-Another drift has been started on the 800 foot level to intercept this same body and is now in broken, mineral-bearing ground similar in character to that surrounding the ore on the 700 If this immense chute extends to the 8.0 level, as seems most probable, there will be sufficient ore in sight to tax the hoisting and transportation facilities

in a few days, which will greatly in-crease the capacity of the narrow-page road from Jack Rabbit to Ploche. It is understood that several more 20 ton steel cars will be ordered soon.

GOLD BRICK FROM CHAFEY,

E. S. Chafey, after whom the camp of Chatey was named, arrived in Salt Lake this morning with a 33 pound gold brick, which is worth in the neighborhood of \$8,000. This represents an eight day run from the rock at he Black Hole, the star mine at the present time at that camp.

that Hole, the star mine at the present time at that camp.

The new stamp mill at Charey, which is being installed by Salt Lokers will be ready to begin operations by April 1. The mill has seven stamps and will be able to care for its full capacity almost from the start.

RED WARRIOR STRIKES ORE. Encounters Another Ore Body on the

Three Hundred Level.

Three Hundred Level.

Last night as mon were finishing their shift at the Red Warrior one of the finest bodies of ore that has been opened at this property was cut on the 300 foot level. At this time we are unable to learn much about the new strike but it is stated that it has every indication or being better and of greater extent than the ore shoots on the one and two hundred level. The ore is of the some character as that on the upper levels but carries greater values. While shipments of good ore have been made regularly from the upper levels the shaft has been continued to depth and at the 300 a drift was run in which this new strike was made. The Red Warrior is proving to be one of the biggest bonauzas in this section of the cold-try and with the several bodies of ore now exposed there is little doubt but that it will soon become the principal mine in Beaver county.

CONCENTRATES.

Development work on the Mowitza property is indicative of some good ore shoots being broken into at any time. The ore shipments from Park City

during last week were: Silver Kins, 1,386,460 pounds; Daly West., 724,000; Daly Judge, 667,000; total, 3,377,460.

David Keith, president of the Silver King Coalition Mines company, and Thomas Kearns, general manager, left last night for Los Angeles where they will join their families.

The east drift off of the 700 foot level on the Beaver Carbonate property is well into the second shoot of ore. At the present time the drift has a full face of fine concentrating product.

T. R. Cutler, H. S. Cutler, J. O. Carter and a representative of the Knight in-terests have secured control of the Sel-ma Consolidated Mining company of Tintic and an active campaign of de-velopment will begin at once.

Having made arrangements with the Amalgamated Nevada company for the water needed, A. G. Burritt, manager of the Nil Desperandum Mining company is preparing to work the placer grounds of the company on April 1. The property is in the Black Horse district. At a recent meeting of the Prov

Mining company, which owns property adjoining the East Tintic Development company to the north, the capitalization of the company was changed from 400,-000 shares at 25 cents each to 1,000,000 shares at 10 cents each. Preparations are being made to start work at once.

A. W. Scott of the Scott Mines com A. W. Scott of the Scott Mines com-pany has returned from Bouse, Arizona, where he went to take over the pro-perty of the Ploche Arizona Copper and Gold Mining company, the centrol of which was recently purchased by his company from the Godbe brothers. Mr. Scott asserts that the property is the richest he eyec saw. richest be ever saw,

Andrew E. Beverldge, who for the past two years has been the caller on the Sait Lake exchange, appeared this morning on the floor of the exchange as a full fledged broker, as the representative of the Wasatch Brokerago company. G. F. Wassen, the new caller at the exchange, assumed his duties this morning after a little cere-mony in which both he and President

VERNAL.

DISTRICT COURT CASES.

To be Heard on the 17th-Severest Winter of Years. pecial Correspondence,

Special Carrespondence.

Vernal, Ulutah Co., March 11.—This has been the bardest winter seen here for many years. The people have been solated from the outside world for a week at a time for several times, though there have been very few pieces of mail lost through the blockade. The health of the people has been quite good all winter, except for a few cases of scarlettever. Business is pretty good considering the time of the year and the money stringency, etc.

DISTRICT COURT SESSION.

DISTRICT COURT SESSION.
District court will meet on the 17th inst. with quite a few criminal cases to be tried, some of which were carried over from the last term. The following are some of the most prominent cases to be heard: The state vs. Georga Finneum, killing deer: the state vs. W. B. Tenbrock, selling liquor to Indians (two cases): the state vs. A. L. Gray, assault with deadly weapons, the state vs. Chas. Wallace, assault with deadly weapons, the state vs. William felony.
Libble Workman vs. Dee Workman, divorce.

Dry Guich Irrigation company va. James Garfield, secretary of interior, for right of way across the Indian allotments of grazing lands.

# OFFERINGS LIGHT; TENDENCY DOWN

New York, March 15.-Very light offerings of stocks caused opening dedines in prices running to a point in

ferings of stocks caused opening decilines in prices running to a point in Erie first preferred and to a large fraction in Ontarie & Western, Erie and Northern Pacific. Hocking Coal advanced a point.

The market showed a disposition to advance but the active linquiry for stocks was limited to a few of the specialties. Reading was purchased steadily and touched 125%, a gain of 1%, Consolidated Gas and Peoples Gas also showed unusual animation and moved up 1% and 2 points respectively. American Beet Sugar hardened 1% and American Malting preferred 1. An initial decline of % points in American Sugar followed by a rally of a point. Lake Erie & Western preferred sagged 2% and National Biscuit and Allis-Chalmers preferred 1.

An abrupt fall of % occurred in Reading, following the news from Washington that no decision would be made today in the commodities clause case. Support was offered and it returned to 126, the highest. The rest of the list was neglected. Hocking Coal increased its gain to 2%.

The moderate activity lapsed into semi-stagnation after the first hour and prices became almost immovable. American Ice rose a point. Bonds were heavy.

A decline of a point in Amalgamated

A decline of a point in Amalgamated Copper caused some selling of other rectalties, but the railroad list was not affected. Lackawanna yleided 2

The mrket closed easy and dull. The evel of prices sagged slightly. De-roit United Railway sold at a decline of four points.

5.80. Sheep—Receipts, 10.000. Market, steady to 10 cents lower. Muttons, 4.75 (65.80: lambs, 6.60@7.40: rango wethers, 4.75@7.00: few eyes, 3.00@5.40.

Chiengo, March 15.—Small receipts in the northwest offset a decline of \$\frac{1}{2}\$ to \$\frac{1}{2}\$ d in the price of wheat at Liverpool and caused a firm tone in the market here today. The market opened with prices off \$\frac{1}{2}\$ to \$\frac{1}{2}\$ c compared with Saturday's close, May bid in at 116% to 116% and July at 105 to 105%. Early in the day May advanced to 117, while July sold up to 105%.

Cern was affected by the more favorable weather for the movement of the crop. Several of the leading holders were moderate sellers and the demand was slack. Prices at the start were a shade to \$\frac{1}{2}\$ c lower than the previous close, May being at \$\frac{1}{2}\$ to \$\frac{1}{2}\$ to 105%. Early in the day May sold at \$\frac{1}{2}\$ for the movement of the crop. Several of the leading holders were moderate sellers and the demand was slack. Prices at the start were leading little demand. May opened \$\frac{1}{2}\$ to lower at \$\frac{1}{2}\$ to all were cause of \$\frac{1}{2}\$ lower at \$\frac{1}{2}\$ the start were unchanged to \$\frac{1}{2}\$ cents lower.

The wheat market weak because of \$\frac{1}{2}\$ cents lower.

The wheat market weakened again because of the heaviness of corn, but railied only once or twice in the last haif of the day owing to European war talk and to reports of export sales. The low point for May was 116%. The close was weak, with May off Se, at 116%. July glosed & Wic. lower at 104%.

The corn market was weak all day awing to general selling by commission houses. May sold off to 67%. The close was weak, with May down % at

### VOTE FOR FOOTBALL,

Clay Center, Kansas, March 13.-The Kansas conference of the Methodist Kansas conference of the Methodist church today, by a vote of \$4 for to \$8 against, consented to the reinstatement of football as an inter-collegiate game at Baker university, the whole matter being referred to the board of trustees of the university with full power to act. The South Kansas conference will act on the same question at Coffeyville next week. If that conference votes for football the famous game will again be a part of the Baker athletic program.
