## A MANUFACTURING PROJECT.

to a proposed co-operative furniture corporation, whose purpose will be to manufacture articles in the line indicated, after the patterns and styles of eastern manufactured goods. No signature is attached to the statement further than the oft-used "manycitizens," a person or persons having no individual identity. The name of the projector of the enterprise is given in the body of the article, but when the information is conveyed anonym-

in the body of the article, but when the information is conveyed anonymously we are not at liberty to use the name of anybody.

It is a little singular, that correspondents after having been repeatedly notified that communications not accompanied by the signatures of the writers—not necessarily for publication will not be published, but as an evidence of good faith—unsigned articles keep coming to this office. Some people seem to imagine that a journatist should adapt himself to the notions of everybody in general and "go it blind" on every subject presented. The idea is a mistaken one.

However, if there is an intention to establish a factory of the nature referred to and the right kind of parties conduct it, we shall be pleased and so will all others who are gratified by the growth of home industries of every class. One of the chief considerations will be the obtaining of the shoews of trade—the requisite cash. According to "many citizens," It is to be raised by disposing of shares of stock at five dollars each. This seems pretty small to begin with, and capitalists are somewhat scary about throwing their means into what might be termed popular co-operative enter prises. To protect the small sharenoiders it would be needful to limit the number that could be held-by any one individual. This seems a necessary precaution against what might be vulgarly termed the "gobbling" process.

It will take a concern with a respectable capital. In order to pracure the

cess.

It will take a concern with a respect able capital, in order to procure the most complete and best improved machinery, to compete with eastern manufacturers. The requisite skill is here, but that is helpless without auxiliary facilities to insure sences-ful competition with outside sources of supply. It would also be necessary to largely confine the lines of articles to those that could be made from woods that are indigenous to this region, thus saving the importation freight rates on raw material. So far as home manufactures are concerned, they cannot come amiss. The more of them the better for the people.

#### A CAPYFOL SITE AND PUBLIC PARK.

THE proposal of the city, as indicated in last night's proceedings of the municipal, Conncil to devote the corporation property on Arsenal Hill to a site for a capitol building and a publie park will, we believe, meet with a hearty sustaining response from the great majority of the people. Were the question to be put to a popular vote it is fair to expect that the proposal would be endorsed by a very large majority.

On the consummation of the pro-

the case it would be impossible to select a more delightful site for a park to which the public would have access. There are two sources of delight associated with it, whereas the majority of resorts of that character have but one—internal beauty. It would probably be a considerable time before the locality could be made a thing of beauty, and therefore a joy forever, but nothing could impair the pleasure to be enjoyed by the lover of nature in gazing upon an expanse of natural loveliness, including city, mountain, lake and including city, mountain, lake and

including city, mountain, lake and valley.

Since the foregoing was written we have learned that the City Council committee (the five aldermen), committees from the Council and House of the Legislative Assembly, Governor West, and Mayor Armstrong visited the hill this morning and selected twenty acres of land for the capitol site. It is deedless to say that we are gratified with this prompt action following that taken by the city fathers last evening.

IN THE NEIGHBORHOOD.

WE have a communication in relation News Notes Gathered from Various Sources.

Genoa, (Nev.), Feb. 21.—A warrant has been issued for the arrest of Za-h Field for attempting to poison his father-in-law, W. D. Gray, an old and respected resident of this place. Mr. Gray has a blacksmith shop on Main Street. Yesterday afternoon he took a cup of water, and found it very bitter. He spat out what he had in his mouth, and on examining the cup found crystals on the bottom. Drs. Williams and Young examined the water, and found it contained strychnine. Field left town at noon today. It is thought that he will go to Fairview, where his wife is teaching school. The sheriff is after him, but Field has a good start, and may get across the line into California before he is overtaken. fornia before he is overtaken.

form's before he is overtaken.

Grand Island, Neb., Feb. 22.—The coroner's jury in the case of Valentine Gulcher, the German who was found dead near here last Sunday evening, duished their investigation last night, by oringing in a versic charging a man named August Moeller with murdering him. Moeller boarded at the same place with Gulcher, and they were quite intimate. Gulcher was known to have saved quite a sum of money. These two men left the boarding house together last Saturday even. known to have saved quite a sum of money. These two men left the boarding house together last Saturday evening. Moeller returned about 1 o'clock Sunday morning. When told of the inding of Guicner's body that afternoon, he grew very nervous and soon went to his room. He has not been seen or heard of since. He is about thirty-three years old, is 5 feet 6 incheshigh, has a ruddy complexion and brown hair and wears a stubby blonde mustache. His right leg is deformed by a lump on the side. A reward has been offered for his arrest.

Albuquerque (N. M.), February 21.

—About 11 o'clock this morning Mignel Cordova, a Mexican boy, aged 18 years, committed suicide by shooting himself through the head with a revolver. Tate deceased was employed at the store of J. Cohn, on Railroad avenus, and the evidence elicited at the coroner's inquest shows that he had worked there for five or six weeks; that he came to this city from Santa Fe; that he has a brother living at San Ocacia, and that this morning he was engaged selling yoods to a Mexican. He sold the customer To cents' worth of sugar, after which the customer concluded to buy 15 cents' worth more of sugar. Cor tomer 75 cents' worth of sugar, after which the customer concluded to buy 15 cents' worth more of sugar. Cor dova put the 75 cents in the money drawer and the 15 cents in his pocket. A fellow-clerk saw him put the change in his pocket and informed the proprietor, who made him give np the money, gave him a lecture en dishonesty and told him to go to work. He was to straighten up some embroidery on the counter and proceeded to the task, but in a few minutes went to a bedroom in the back of the store and a shot was heard. Examination showed that the young man had sandown on the side of the bed, taken the revolver in his right hand, and leaning over had fired the fatal butlet directly through his ferenced. His face was blackened from the explosion, and when found the body presented a sickening spectagis. The coroner's jury returned a verdict of suicide. The only reason for the act appears to be the remorse he felt at being detected in the act of pilifering 15 cents from his employer. in the act of pilfering 13 cents from his employer.

On the consummation of the proposal it will be appropriate to change the name of that fine eminence, that by which it is now designated tends suggestive of munitions of war, while unpleasant memories of a gigantic explosion which, years ago, shook the city from centre to circumference, and destroyed life, limb and property, are asseciated with it. Capitol Hill would sound more dignified, and be in appropriate harmony with the splendid location. The new title is suggestive of the paths of peace, associated with civil and free government, the former protecting the natural rights of man and the latter insuring their enjoyment to the fullest extent equally by all.

The prospect from the conspicuous eminence in the northern suburb of our beautiful city is one of the grandest on the American continent. Admissions to that effect are constantly made by visitors who have traveled in every quarter of the globe. This being the case it would be impossible to select a more delightful site for a park to which the public would The action of the House of the Lagthem.

# Park City Notes.

Deputy Marshal Franks came up from Salt Lake last evening and started out this morning to subpona about a score of witnesses for the defense in the case of Mullov and Sweeney, held for the murder of G. J. Hughes last August. While here the deputy placed Richard Grant under arrest on an indictment found by the grand jury charging him with "voluntary manslaughter" in the killing of Peter Anderson in his saloon last November. The extent of the pensity for manslaughter is five years in the penitentiary. Grants bondsmen were notified of this action and he will likely appear before Judge Zane on Monday to plead to the indictment and give a new bond for his appearance for trial. The amount of his new bonds has been placed at \$1,000.—Record.

A petition has been circulated quite extensively in the Park and in Coalville this week, praying the county court to offer \$100 reward for any person caught should certainly grant the petition, as it is feasonable and some thing should be done to stop the wanton destruction of fish in our streams. There is a Territorial law against shooting fish, but no attempt has ever been made to enforce it, hence it is time for the different connties to take hold of the marter and protect the streams from depredations and we hope to see Summit County fall into line at once.

Mr. Heary Mortensen, who clerks at Ascheim's store, met with an accident Deputy Marshal Franks came up from Salt Lake last evening and start-

Isli into line at once.

Mr. Heary Mortensen, who clerks at Ascheim's store, met with an accident Monday which will lay him up for some time. He was in the warehouse after a box of crackers, and in passing along a plank walk that leads around the gallery in the warehouse, the plank tipped and he lost his balance and fell a distance of about eight fect to, the floor. In his fall he struck on some boxes dislocating his hip. He also received a number of bruises from a box which fell on him.—Call.

# All Three Are Dead.

Yesterday afternoon, at 1724 Curtis Street, occurred the death of a man, around whose domestic history gathers the halo of a mournful interest. The name of the deceased was Robert N. Yuill, by occupation a miner, beneath whose rough exterior pulsated a heart warm with affection and noble in the warm with affection and noble in its aspirations. Two years ago he was united in marriage to the lady of his choice at Canon City. Soon after marriage they removed to Denver, and about one year later a beautiful, cooing babe arrived to brighten their modest home, which was warmed by the About a week ago some sneak thier entered the "Rossie" cabin at the Ontario and purloined various amounts of money and some trinkets while the meu were on shift.

On Tuesday Dr. Gregor amputated the middle toe on Jerry Cornelier's right foot. This was done to stimulate circulation and override the effects of clotted blood in the pedal extremities and consequent paralysis.

Jos. Scheitter, who recently came down from Montana minns his sight. has been sent to New York for the best possible treatment of his eyes. The subscription fund in his behalf accumulated to a considerable sum.

The Roach opposition stage line is no more, lack of patronage being the canse of its discontinuance. Lawrence Kimbali now has the field to himself, but while the roads are bad he will run only one rig a day.

ment. During his absence at the mines the babe died on the seventh instant. The father was notified of this second great calamity, and in response came to Denver. Under his direction the remains of the little one were embalmed and placed in a vault to await interment by the side of its mother at Canon City, the bome of her parents. As though pursued by an evil destiny bent upon the extinction of the eutire family, the decased was attacked with quick consumption, and after a brief illness died yesterday at 1724 Curtis Street, where he occupied furnished apartments. Conscious that dissolution lingered near, he made a last request that his remains, together with those of his child, should be taken to Canon City and buried by the side of his wife. The body was taken he charge by B. R. Hall and taken last evening to his undertaking parlors, 885% Champa Street. In accordance with his dying wish the remains of deceased and child will be transferred to Canon City today for interment. The funeral ceremonics will be conducted by the Masonic order, of which deceased was a member in good stand-The funeral ceremonies will be conducted by the Masonic order, of which deceased was a member in good standing. The story of his domestic life reads more like romance than fact, and only serves to strikingly exemplify the saying that truth is stranger than fiction.—Denver News, Feb. 25.

For Throat Diseases, Coughs, Colds, etc. effectual relief is found in the use of Brown's Bronchial Troches. Price 25cts. Sold only in Boxes.

The "Exposition Universelle de l'art Culinaire" awarded the highest honors to Angostura Bitters as the most efacacious stimulent to excite the appetite and to keep the digestive organs in good order. #### PERSONAL.

Dear Bro. Meek, Ed. The Central Methodist, Catlettsburg, Ky.
I see in the last Central that you want a sick headache remedy. I suffered from sick headache, almost from infancy, and tried every remedy I could get, but never found anything to do me good until I used Simmons Liver Regulator. I feel for anyone that suffers with that terrible disease, and I hope you will give it a trial.—C. S. Morris, Brownsville, W. Va.

# SCRATCHED 28 YEARS.

SORATCHED 28 YEARS.

A Seasy, Rebing, Shin Disease with Endless Suffering Cured by Cutteura Remedies.

It I had known of the Cutteura Remedies wenty-eight years ago it would have saved me \$200.00 (two handred dollars) and an immense amount of suffering. My disease (Fooriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my usils. The scales would drop of of me all the time, and my autering was chiless, and without relief. One thousand dollars would not tempt me to have this disease again. I am a poor man butten the to be relieved of what some of the doctors and was leprosy, some ring-worm, psoriasis, etc. I took .... and ... Sarsaparitias over one year and a haif, but no cure. I went to two or three doctors and no cure. I cannot praise the tUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was three boxes of CUTICURA, and three botties of CUTICURA RESOLVENT, and two cakes of CUTICURA SOAP. If you had been here and said you would have had the money. Hooked like the picture in your book of Psoriasis (picture number two, "How to Cure Skin liseases"), but now I am as clear as any person ever was. Through force of habit I rab my hands over my arms and legs once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times. Anything nove that you want to know write me, or any one who reads this may write to me and if will answer it.
