Court Opened.—The Third District Court opened again for business, at ten o'clock this morning.

Returned.—Mr. and Mrs. James T. Little and Mr. and Mrs. Spencer Clawson returned home from the East last evening.

Museum.—The Geologist Report of Territories (Hayden's) for 1876, and Bulletin of U. S. National Museum, Nos. 3 and 5, have been received for the library of the Deseret Museum.

The Fifth Wardens.—We are informed that the Fifth Wardens are again in trouble, from squamous encroachments, the banks of the canal having burst in a fresh place, this time some distance east of where the other breaks were.

A Conflagration.—To-day's dispatches contain particulars of a disastrous fire, which broke out in San Francisco last night, the value of property destroyed being estimated at \$300,000. The fire was in one of the principal business portions of the Bay City.

The Benefit.—The complimentary benefit to Mr. T. A. Lyne, given to-morrow night, when his friends will have an opportunity of testifying to their appreciation of the historic ability of the veteran actor. He will appear in "Rochelle," which has long been a great specialty with him.

Land Patents.—The following cash patents have been published as having been received at the land office in this city, and being ready for delivery:

No. 885, Jno. R. Witter, 1012, Chas. Bailey, 1021, Jasper Leamon; 1,970, James Pitt; 1,990, M. Christensen; 1,470, N. J. Justensen; 1,484, J. B. Stewart.

Those Documents.—Col. J. C. Little has lost a quantity of papers which are valuable to himself only. They were enclosed in a large yellow envelope. The finder will confer a favor by restoring them to him personally, or leaving them at this office, so he can get them.

Great Dissatisfaction.—A Salt Lake dispatch to the San Francisco Chronicle says the removal of George A. Black, Secretary of Utah, causes great dissatisfaction here. Of course among his friends, there is bound to be some dissatisfaction. But the people don't seem to "dislike" a cent. What they desire is a better man in his place. That's all.

Soda Water.—From Messrs. Wilson & Denham, of the Eagle Soda Water Works, we have a sample of their water, in the shape of sparkling soda, ginger and sarsaparilla, excellent, refreshing summer beverages, just the thing for the hot weather. They have made a material reduction in the prices. Their premises are on Second South street.

Sentenced.—Yesterday Philip Shaffer, found guilty of murder in the second degree, in the killing of Peter Van Valkenburg, was sentenced, in the First District Court, by Judge Emerson, to imprisonment, at hard labor, in the Utah Penitentiary, for a term of ten years. He was brought up from the county jail last evening and conveyed to the Penitentiary.

The fact of the prisoner having been incarcerated in jail about two years during the commission of the crime and other mitigating circumstances led the Court to incline to leniency.

A Gala Day.—Yesterday appeared to be a gala day among the pupils of the High Ward Sunday School children spent an agreeable time recreating at Lindsey Gardens.

The pupils of St. Mary's Academy (Catholic) accompanied by a number of the "Sisters of Mercy," had a gay time at Fuller's Hill, engaging in the numerous sports for which facilities are afforded on the grounds.

The day and Sunday schools of the 9th Ward, numbering about a hundred persons, enjoyed a splendid time at Spring Lake Pleasure Grounds, otherwise known as Calder's farm. Concerning the place and the "out," Bishop S. A. Woolley writes as follows:

"We found one of the most pleasant places for recreation that I have visited for a long time. There is a fine lake with a goodly supply of boats thereon, for pleasure sailing; also play grounds, walks, and elegant swings for little or big folks alike; and the place is so well making improvements, so that in a few days at farthest, it will be one of the most pleasurable places of resort in or near our city."

An Inconceivable Horse Thief.—A few days ago the notorious horse thief, "Bill" Bean, was released from the City Prison, where he had been serving a term of thirty days. Day before yesterday he was caught at his old tricks, being discovered near the Warm Springs on a horseback by the owner of the animal which "Bill" had stolen. He gave up the horse, and its proprietor made affidavit against him before Justice Eyer, by whom a warrant was issued for his arrest.

Subsequently he went to Mr. Parlin's place, (Bingham Canon, and hired a horse and saddle, went to another place and stole another horse; and then to another place, the south of Cottonwood Canyon, and stole a span of mules, with which he, it appears, purposed leaving this part of the country. Yesterday the telegraph wires were

in operation in order to ascertain the whereabouts of the horse thief, and he was finally arrested at Ogden, with the property in his possession.

It is probable the case now against him will send him to the Penitentiary, where he ought to be, or somewhere else, more secure.

Fatal Accident.—The following special to the News, by Deseret Telegraph, was received this afternoon:

Cedar City, Utah, May 25th, 1876.

A lamentable accident occurred here on Wednesday about two o'clock, William, son of W. C. and Mary Ann Stewart, aged fifteen years, was thrown from a trolley, which falling on him injured him so severely that he died to-day about noon. He never spoke from the time the accident happened.

TO-DAY'S DISPATCHES CONGRESSIONAL.

SENATE.

WASHINGTON, 25.—The chair laid before the Senate a communication from the commander of the Grand Army of the Republic, department of the Potomac, asking that Dec. 30th, May 30th, be observed as a national holiday, and inviting the Senate to participate in the ceremony of decorating the soldiers' graves.

West, from the committee on railroads, reported back the Senate bill to create a sinking fund for the liquidation of the government bonds advanced to the Central and Western Pacific Railroad Company, with amendments, and a written report on the subject; also a new bill to create a sinking fund for the liquidation of government bonds advanced to the Union Pacific Railroad Company, and for the settlement of the claims of said bonds; placed on the calendar.

The bill to create a sinking fund for the payments of the Union Pacific Railroad Company's subsidy bonds, provided the brief, that the U. S. shall credit the company with fifteen million dollars, the computed value of six million acres of lands, to be recovered to the government, which sum, together with one million dollars now due for government transportation, shall be made the basis of a sinking fund, and the company is to pay into the U. S. Treasury semi-annually such sum approximate, not exceeding \$750,000 per year, as will, when added to other sums deposited to the sinking fund, with six per cent interest per annum, compounded semi-annually, be sufficient to extinguish the Government subsidy bonds and the simple interest thereon at maturity. The bill required the company to provide for and pay the land grant bonds issued on all lands which are to be recovered to Government.

A bill reported from the same committee to create a sinking fund for the Central Pacific Railroad Company contains the same provisions, except that the money paid into the U. S. Treasury shall be \$550,000 per year. The company is to recover and have credit for six million acres of land in Utah and Nevada at the same valuation of \$250,000 per acre.

Morrill, from the committee on appropriations, reported, with amendments, a bill for making appropriations for the legislative, executive and judicial expenses of the government for the fiscal year ending June 30th, 1877. Placed on the calendar.

The naval appropriation bill received from the House yesterday was read by its title and referred to the committee on appropriations.

May, charging that \$300,000 had been expended by the Pacific Coast to procure the passage of a bill to carry into effect the treaty with Great Britain, and directing the committee on ways and means to make an immediate investigation into the true history of the money.

He desired the most exact investigation, and if any one had any testimony that the money had been used in lobbying for the passage of that bill he would be made to see the bill defeated in the Senate. The resolution was then adopted.

EASTERN.

Delegates at Half Fare.

St. Louis, 25.—The committee on transportation of the national democratic convention have received notice from over one hundred railroads that they will convey delegates and others desiring to attend the convention at half fare rates. A large number of other roads will commute the rates to half fare for delegates, and contentions will be made to all others. Besides these a number of roads will charge one and one-half fare for the round trip and others name two to three cents a mile each way.

A telegram from Captain Eads to Elliot, secretary of the South Pass Jetty Co., says the steamship New Orleans went to sea through the jetty, drawing seventeen feet three inches.

Protection for the Black Hills.

At the solicitation of Governor Thayer, who came here for the purpose of having troops sent to protect the miners in the Black Hills, the President has ordered the following telegram to General Sheridan:

"Headquarters Army of United States, Washington, D. C., May 25, 1876.

"General P. H. Sheridan—Chicago, Ill.

"I have just been to the President with Governor Thayer, and after reading the papers and some discussion, the President said that the people who had gone to the Black Hills or Dakota, inside the Sioux reservation, or who may venture go there, are there wrongfully, and that they should be notified of the fact. But the Government is engaged in certain measures that will probably result in the opening up of the country to occupation and settlement. Meanwhile the Indians should not be allowed to kill anybody, and you are authorized to afford protection to all persons who are coming away or who are conveying goods and stores for those already there. I understand that arrangements are now in progress with Red Cloud and Spotted Tail to remove, and in the meantime the agency Indians should be left near the agencies. If satisfactory arrangements are not concluded, new orders will be made as to the whites who have intruded on the Sioux reservation.

(Signed) W. F. SHERMAN, General."

Mr. Joseph Tyrrell is making good progress in preparing to tan leather here in Ogden. He already has put down six vats, and has therein quite a large number of hides and skins undergoing the process of conversion into leather by the new method, and expects ere long to turn out a good lot of material ready to be manufactured into boots and shoes. Mr. T. is erecting a building to be used in connection with his tannery.

A notice was issued from the office of the Ogden Manufacturing Co., at Milwaukee, 15th inst., notifying the stockholders of the above company that a meeting will be held at Ogden, on the 31st of June, next, for the purpose of considering and adopting by-laws of determining whether the company shall be incorporated in Utah, and whether its general offices and the management and control of its business and affairs shall be transferred to Utah, etc.

A Kempter's Bluff (Tex.) young man named Thomas acquired the habit of tossing a cooked and loaded pistol in the air, and catching it as it fell. The time he caught it was immediately before he died.
