The week has been for the most part taken up with Christmas preparations. and festivities, the great natal day being the occasion for a number of home entertainments, in the way of

the proverbial Christmas dinner The most notable of social functions of this nature was the dinner given by Col. and Mrs. E. F. Holmes, the decorations and menu being most elaborate.

Fclipsing all other events of the week, however, was the reception given by the same hosts on Thursday night, which, with the ball to be given by them this evening for their younger guests, will make a notable series of events. 8.8.8

The reception given on Thursday night by Col, and Mrs. E. F. Holmes will rank among the most brilliant functions given in Salt Lake. Plorist Huddart was given carte blanche in the

matter of decorations, and the result was the creation of artistic floral effects throughout the house, three floors of the historic old mansion being transformed into a bower-like as-pect with vines, ferns, palms and cut flowers used in luxurious profusion. Flowers were chosen to match the furnishings of the rooms. and a particularly charming effect was seen in the dining room, where Ameri-can Beauty roses, carnations, and candlabra with dainty shades blended with the red color scheme of the room. The table dressing was especially artistic In the center stood a huge vase, filled with a bunch of nearly 100 American Beauties, whose stems reached nearly to the celling. Over a red cloth was spread a Battenberg cover, the spaces

between the lace being filled in with tions and the candelubra w their red shades completed the charming plcture. Plumosa festooned the chandellers throughout the house, the bulustrades of the three staircases were wreathed in smilax, and roses in cream, pink and red were throughout the

Col, and Mrs. Holmes were assisted in receiving by their guests, Dr. and Mrs. J. Burnham White of Detroit, the Misses Holmes of Chicago, Mrs. Willis Lamb of Park City, Mrs. Sara Bransford, Mrs. J. S. Bransford and M.rs. J. T. Harris. Mrs. Holmes' costume was of white corded silk brocaded with hellotrope and pink and trimmed with point lace and spangled chiffon. With it she wore diamonds, emeralds and amethysts. Mrs. White wore a gown of white satin with trimmings of old Saxony lace. Miss Holmes and Miss Olive Holmes were gowned respectively in pink and white crepe with lace trim-mings. Mrs. Sara Bransford wore white silk covered with black embroidered net, and Mrs. J. S. Bransford a gown of ecru taffeta with trimmings of point lace and brown velvet. Mrs. Lamb's costume was brocaded yellow satin with lace trimmings, and Mrs. Harris', a beautiful creation of white bolting cloth, embroidered in pink and silver chrysanthemums and trimmed with lace

Christensen's orchestra was stationed in an alcove in the hall and rendered beautiful musical selections throughout the evening, and punch was served in the library, which was beautifully done in violets and ferns. A large number of guests enjoyed the delightful affair.

Mrs. E. J. Trescott. The Alleghany County Federation since its founding in 1894 by Mrs. Ham-ilton Ward of Belmont, N. Y., has de-voted its effort chiefly toward establishing free libraries in Alleghany county. At that time Belmont had the on-ly free library in the county, but during the seven years of the Federation's existence free libraries have been pened in nearly every large town in the county largely through its in-fluence. A number of these libraries are established in buildings of theli own. The Belmont library is housed n a large brick building containing a number of rooms for library purposes, and an assembly halt which is called "Ward Hall." in honor of Mrs. Ward, who gave the lot on which the building stands, and assisted generously in its erection. Voice Culture.

"That so little effort is directed to the mprovement of the quality of the leaking voice is an unsolved enigma. The average parent or educator rarely considers the value of voice culture or the relation of the tones in daily use to the child's moral, physical and naterial wolfare welfare.

"No gift of the Creator is so univer-sally ignored as that instrument of most exquisite and delicate mechanism, most exquisite and deficate mechanism, the voice organ of human beings. Ig-norance of the unlimited possibilities of its correct use is everywhere manifest. "Suitable training will render many indifferent voices pleasing, even musi-cal, in their intonation. Professor Cor-son makes it years clear that the adver-

son makes it very clear that the educa-tion of the soul is a part of the education necessary for the perfection of the voice. It is this subtle quality of spiritual development that is the effectual quality in all work.

"The school should share with the home the responsibility of securing bet-ter habits of speaking. The whining drawl sometimes tolerated in recitation proclaims a teacher's short comings as well as her pupil's indolence. Educators would do the world great service by inaugurating a movement against faults of the speaking voice, and for the cor-rect use of this sadly neglected instrunent. The open-mouthed children of oday would soon be taught to guard their throats from dust and germ-polsoned air by breathing only through noses. Purer air should be supplied overcrowded schoolrooms. Simple, health-keeping rules of personal hy-giene would be inculcated daily. Exer-clses in vocalization, giving exactness and flexibility of enunciation, would be-come a part of school routine nover to be omitted. All this would surely result In healthier, happier, more useful lives for the rising generation, and the voice beautiful no longer he so rare'y heard in the land.'

Fashions for Little Girls.

Little girls have returned to pinafores, and very pretty and dainty they are. They are made of all kinds of sheer white materials, and are trimmed with embroidery or lace, as fancy dic-tates, or sometimes merely with tucks or bands of the same material as the body of the little garment. They are made very much like the frocks of sum-mer with the sleeves left out. Sometimes they are carried up to the neck with a pretty yoke and ruffles over the shoulder, and sometimes they are cut square or round, when they are edged with ruffles or revers or with an insertion of medium width run with ribbon. Sometimes they fall straight to within an inch or two of the bottom of the skirt, and sometimes they are caught in at the waist with a second band of in-sertion run with ribbon, and used in the back with long ends. The smaller children-those of four or five years old up to seven-sometimes have soft sashes of the goods run through tiny loops or bands about four inches below the waist, and tied in the back with a pre-

draw a very large attendance, and it is to be hoped that the music loving peo-
