An Increase in the Consumption of Beer Everywhere  
Except in Two Southern Cities

And There the Preference for American Wines is Gradually Increasing.

CHICAGO, Jan. 12.—New York consumes more beer than any other city in the country. During the year 1895 4,915,808 barrels of beer were sold in the eastern metropolis. Chicago comes next with a record of 3,195,254 barrels, and during the year 1895 the amount sold in Chicago last year is 3,645,867 barrels more than during the previous year. This is the largest increase noted in any city. New York comes next with 2,771,814 barrels increase over the previous year.

New Orleans shows a decrease of 3,302 barrels as compared with the previous year. The popularity of beer in Cincinnati is also apparently waning as there were 7,022 barrels less sold last year than during the year before.

This is the largest decrease shown in any city.

The reason given for this condition is that both the southern cities and that the people of that section are gradually showing a preference for light American wines, especially California brand.

## New York Letter to a Reporter.

CHICAGO, Jan. 12.—A special to the Herald from Havana says: Consul General Low has authorized your correspondent to deny the truth of the statement telegraphed him by the Herald as follows:

"Money reports that on leaving Havana you gave him the following message: 'See him; let him know I am not friendly convinced that even if Spain cannot put down the insurrection, it means ruin to the country, without the remotest encouragement for Spanish success. I have done told him the insurrection would succeed and my husband would be a member of the government.'"

"Will you kindly send the Herald whether this is not how you have put the words of your correspondent's report?"

The general signed a pen and wrote in vigorous characters:

"I gave Mr. Money no message. Mr. Money is a reporter. The general signed the message."

"And you believe that Senator-elect Money is the correspondent of a New York newspaper, as alleged by La Louis today?"

"Most certainly I do not."

SAN FRANCISCO, Jan. 12.—Henry Miller, a middle-aged German, entered a Kansas street gun store and shot at some people. He was immediately arrested, and while firing a cartridge into the air, he was seen to turn upon himself and shoot. The bullet struck him in the left chest, just over the heart, and he fell to the ground fatally wounded. At the receiving hospital he said that he had just a few years ago had been in the five week exchange of Chicago. At one time he had been worth all of \$200,000, most of it made in cattle and sheep raising. He had been practically penniless. About a month

Spanish Temples said to have been destroyed.

Boston, Jan. 12.—The Cuban American Journal of New Orleans has received news from the agent in Cuba of an act of brutality which it is alleged was perpetrated on a Cuban plantation.

THE UNION PACIFIC.

Receiver Anderson thinks the Government should order the railway.

CHICAGO, Jan. 12.—E. E. Anderson, one of the receivers of the Union Pacific system, in discussing the subject of the Powers bill this afternoon said:

"I was not favorably impressed with the Powers bill. As a Washington paper put it, the bill proposed to increase the security of the government by increasing the amount of the prior lien against the property."

"We have now spent ten years taking over the railroad, and we are willing to make a reasonable agreement to prevent the property leaving their hands. I do not mean that the government's lien should be added for the price of the first mortgage bonds. I agree to offer, but not to sell, upon price, and after an expiration of ten years in making a settlement. I think he should take steps to exercise that power."

SAN FRANCISCO, Jan. 12.—An open air meeting was held last evening at Grant Avenue and Market street to celebrate the defeat of the funding bill.

# "DR. MILES,"

## Through His Nerve in a Benefactor to Thousands.

WIDELY KNOWN NERVE TONIC.

Two years ago I became so nervous that I could not sleep at night.

My attention was called to Dr. Miles' Nervine, and I commenced to use it.

I have taken it in my hands and use it whenever my nerves become nervous.

It has cured me of my nervousness, and I can now sleep at night.

It is free from narcotics, perfectly harmless, and gives strength and energy.
