STILL STANDING UP FOR THE RIGHT.

WE look in vain for a square endorsement of Governor Murray's blunder, outrage, assumption, rashness, usurpation, infamy, or what other name the papers please to call it, even among the most rabid anti-"Mormon" journals. Those papers that are glad of it because they think that by some peculiar process it can be made available for congressional action on polygamy-with which it has no real connection-are still compelled to acknowledge that the ing Governor Murray, of Utah, in to the minority candidate. "Governor Murray has given the certificate of Delegate to Congress to. A. G. Campbell. We honor him for it."

Why? Because it is lawful or right? No, but simply because the retired plate-passer and decayed subscription-bore thinks it will do harm to the "Mormons." The pious man honors the rash man for violating the law and breaking his official oath! It is queer how these religious sticklers for law will "honor" those who dishonor the law, when it suits their bigotry and sectarian prejudice.

We copy here two or three more expressions of the press on this subject. And it is notable that the papers which condemn the wrong done by the Governor, have reasons to offer for their views, while those which express pleasure at the expected results of the act, have no arguments to support it on either legal or moral grounds. Public condemnation of the outrage perpetrated by Governor Murray, of Utah, has been prompt and emphatic. Not even the most hidebound of partisan organs have attompted to apologize for, or defend his denial of a certificate to Cannon and his presentation of a certified lie to Campbell.

Mormonism has been utterly ignored, as it should have been in the treatment of this matter, by the press. The question of polygamy has no more connection with Cannon's right to the certificate of election than the doctrine of election, or immersion, or the law of gravitato Governor Murray, the only point he had any right to determine, was, "Who has received a majority of the votes."

Would there be any necessary connection between the subject of the fraud committed by the Governor and the alleged private character of the cheated candidate and some of his supporters? Would not the sole question to be decided be, who received the greatest number of votes? The seating of the member would have nothing to do with it. The general matter of "moonshining" belongs to the laws enacted against it and their execution. The House of Representatives could inquire into the acts of the seated tion. > That this is clearly understood by lawyers and legislators, as well as editors, may be seen from the extracts we have made from the papers. Below we give an account of interviews with Congressmen from Mr. Murray's own State and other gentlemen whose views are weighty, such as Mr, Young, of Tennessee, Messrs. Money and Chalmers of Mississippi, and Mr. White of Pennsylvania, all opposed to polygamy, but equally so to Murray's lawlessness. Their opinions were given to the Washington correspondent of the Courier-Journal and form more than a complete offset to the virulence of that paper, while at the same time they blow away the dust with which it has endeavored to obscure the main and only question before Congress and the country.

"Washington, Jan. 22.—'What do you think,' I asked of Delegate Cannon this afternoon, of the Courier-Journal's editorial of the 20th; 'The Twin Relic' is a rattler, isn't has taken, even if he had such in-

to every question, and a wise man Murray committed an outrage on

I thereupon started out in search of the Kentucky delegation and other prominent members to ascertain their views on the subject under discussion since it is exciting so much comment in the press, and I met Hon. Joe Blackburn. 'Personally, said he, I like Governor Murray very much, but I can not really find terms in which to express my disapprobation of the action he has taken in the Cannon-Campbell case. I have written him a letter on the subject.'

'Governor,' I next asked Hon. John G. Carlisle, one of the best lawyers in the House, 'what do you think of Gov. Murray's decision in the Utah case?'

'It is emphatically an outrage,' Mr. Carlisle said. 'All he or any other governor has to do in such cases is to issue the certificate of election to that candidate who has received the greater number of votes. It is the power of the House alone to judge of the qualifications of its members,

Mr. Willis had not thought of the subject sufficiently to express an opinion on the subject—such a legar opinion as might be of any value, hence he could not, and Mr. Knott would not talk.

'Judge Phister,' I began on the member from Maysville, what are your views touching the action of Governor Murray in withholding a certificate of election from Mr Cannon and giving it to Mr. Campbell?'

Judge Phister-'I recognize Gov. Murray, from my acquaintance with him, as a very honorable gentleman, but in this matter I think he committed an error, not that I have any sympathy with polygamy, but that matter, as I conceive, does not enter into the present question. His duty was merely ministerial or executive, to ascertain from the returns who had received the larger number of votes, and give the certificate accordingly. It seems to be a fact that Mr. Cannon received much the larger number, and therefore he should have received the Governor's certificate of election. The Governor, as I conceived, had no right to inquire into or decide as to the qualifications of the candidates.'

Hon. J. A. McKenzie says: 'Congress is the judge of the qualifications of its members, not the Governor. Governor Blackburn might as well refuse to issue me a certificate after I had received a majority of the votes in my district, because he may have heard it reported I was not of lawful age. That won't do.'

Hon. Tom Turner thinks Gov. Murray's action was very arbitrary from what he had read of the mat-

Hon. J. W. Caldwell agrees with him who goes farthest in proclaiming Gov. Murray's action as most absurd and reprehensible. 'He has,' said he, 'no more right to unseat a member that I have.'

Applying the pump to Hon. P. B. Thompson, Jr., 'Well, really, now,' replied 'Little Phil.,' 'do you think it either wise or proper for one who must sit as a juror to prejudice the case, or even discuss it? I do not say that I am right in this instance in taking such a view, but it strikes me in an off-handed way that we ought to wait until the evidence is taken before we render a verdict.'

Having exhausted all this delegation I could meet, I next ran upon Hon. Casey Young, of Tennessee, a substances. sound, clear-headed lawyer. In response to the usual questions in this connection, he said: 'The Governor has no right, either to convict a man or to withhold a franchise or privilege, even after he hears the evidence. What right then had Gov. Murray, without lawful evidence of any character, to withhold Mr. Cannon's certificate? How does he know legally that Cannon is a Mormon? I don't know it, neither does he. He has no right to take the course he formation.

The gentlemen with whom I spoke, while believing that Mr. Cannon will be entitled to his seat in the next Congress, and will certainly get it, protested that they abominated 'the twin relic' as heartily as any one possibly could or should."
