MINING, BUSINESS AND STOCKS.

SAMPSON AND THE YOSEMITE

Bingham Properties Likely to be Purchased

BY THE BINGHAM CON.

Mines Are to Undergo Examination—The Price Agreed Upon is Said To be $70,000.

That the Bingham Consolidated is seriously considering the matter of adding some more territory to its already extensive holdings in the Old Reliable camp, was not denied at the offices of that corporation today. The properties involved are the Yosemite and Sampson, in which the Western Exploration company holds a large interest.

When approached on the subject this forenoon, one of the Bingham officials said that while the ground had not been absolutely purchased, his company was pumping the water out of the workings of one of them to allow an examination, before making a decision as to paying over the purchase price, which, coming from sources that can be counted on as being reliable, is said to be $70,000.

It is said the property was tied up under option during the recent visit of President White of the Bingham company.

The Sampson and Yosemite properties are considered to be valuable and if the Bingham company finally takes them over it will mean a most important acquisition.

A member of the Western Exploration family said this afternoon that the properties are in a splendid physical condition.

ON MINING EXCHANGE.

Trading Was Light at this Morning's Call.

Trading in mining stocks was light this forenoon. During the regular call 7,450 shares sold for $7,744.50, and in the open board 225 shares brought $7,420.

There was little change in the condition of the market compared with the quotations of the late call of yesterday; however, some stocks tended lower. Con. Mercur was strong, but steady, Daly-Judge was up to $10.40, and Daly-West at $3.95 and $3.80. Lower Mammoth closed two cents lower, and Wabash held at 5 cents under the strength of yesterday. New York was slightly weaker.

Daly-West did not participate in the sales of the regular call, and closed with $39 bid. On the open board 175 shares were transferred.

The quotations and sales of the day were as follows:

MINING OF MINERAL WAX

May Become an Important Utah Industry.

LOCATION, SOLDIER SUMMIT

In the Hydro-Carbon Region Some Successful Experiments Have Been Made.

Located near Soldier Summit, south of Salt Lake City, and not far from the main line of the Denver & Rio Grande railroad, is located an enterprise which is certain to grow and become one of the state's chiefest industries.

Soldier Summit is in the hydro-carbon fields of Utah. The industry referred to is that of the mining and refining of mineral wax. While it has been known for many years that this mineral existed in the section named, yet it is only a matter of recent history that it became fully demonstrated that the product could be handled in such a way as to become a commercial success. But this has been done; and there is no telling what proportions this branch of mining will assume.

The Summit Placer company, which owns a large tract of hydro-carbon lands near Soldier, has an extractor and refinery in operation and is turning out the refined wax at the rate of about one ton per day. The undertaking has proven to be so satisfactory that the work of installing another extractor, together with the doubling of the capacity of the refinery is already in progress.

The company recently made a shipment of its product to Germany, which country has some large mineral wax deposits and consumes much of it in the manufactures. Another shipment is now being prepared and will be forwarded to New York within the next few days.

It should be interesting to know that this refined wax is used in the manufacture of all classes of hard rubber goods, such as telephone receivers or other articles requiring the same substances in their composition. Another use has been found more recently for it in the manufacture of a paint, which, when applied to the hulls of ships, absolutely prevents the gathering of barnacles.

The mechanism of the extractor, now employed at the Summit Placer company's property, is the invention of Mr. J. B. Jenson of this city; and he has made application to the government for a patent. The machine is so constructed that it successfully separates the residue from its valuable contents without a cessation of the flow of molten liquid passing through it. From the extractor the wax passes on through a series of retorts and finally makes its exit from the refinery in a pure state.

The product after being mined is sent to the crushing machines, then it is melted before reaching the extractor previously mentioned.

Before installing Mr. Jenson's machines, the Summit company, although numerous experiments were made, was unable to find an extractor that would operate successfully with a continuous feeder. Hence it was impossible, under such conditions, to make the mine pay its way.

Mr. Jenson is the company's consulting engineer and naturally he feels quite elated over the success which will be attained by the launching of an important industry for Utah.

The Summit company is prosecuting development work with vigor and has a shaft sunk upon its property to a depth of 200 feet. The company is also installing a 25-horse power gasoline engine, and it is very likely that another 80-horse power boiler will be added to the mine equipment very shortly.

The property is owned by a group of eastern capitalists.

BOSTON CON. EXAMINATION.

Ralph Nichols Coming in Interest of Directors.

Ralph Nichols, an eminent mining engineer, is expected to arrive in Utah in a few days. He has been ordered to come here by the directors of the Boston Consolidated, for the purpose of making a thorough examination of this company's property and to report upon the advisability of constructing a smelter for the treatment of its ores at Bingham.

In his recent report, which was made to the stockholders, Managing Director Samuel Newhouse recommended the erection of such a plant.

Upon Mr. Nichol's report will depend whether or not this work is to be undertaken.

Mr. Nichols was a passenger on the ill-fated steamer St. Louis from Europe and knew of all the parts of the condemnation meetings aboard ship in which the steamship company came in for severe denunciation.

THE COMSTOCK ENGINE.

Coal Famine Responsible for the Delay in Delivery.

The starting of the new mill at the Comstock mine at Park City is said to have been postponed on account of the failure of the engine and boilers to arrive. The machinery men claim that the fault lies between the coal famine in the east and the railroad companies. Inasmuch as all the machinery with the exception of the engine has been put into place, it is hoped it will be received soon, as an extra effort is being made to expedite its shipment, and the mill will be started up as soon as it reaches the railroads at Park City.

RICH CANADA DISCOVERY.

Miners Arrived in Butte Tell a Story Of Fabulous Wealth.

(Special to the "News.")

Butte, Mont., Jan. 23.—Miners from the Wabigoon district, Canada, who arrived here today, report a strike of gold made in the Big Master mine that apparently holds the world's record for the richest discovery ever made. A lead has been opened up, showing varying from four inches to two feet in width, which can be cut with a knife. The yellow metal is so free in the rock that it can be picked out by hand, and it is estimated that about $400,000 in gold has been taken out of a shaft sunk to a depth of only about 20 feet, in which it is estimated the ore runs about $1,000 a ton.

The Big Master was discovered by A. C. Barker and Henry Burrell of Great Falls, Mont. They sold it to the Big Master company for a nominal sum.

OIL WELLS IN THE SAN JUAN

Five Are Now Producing Near Bluff City.

LARGE TRACT OF LAND.

Taken Up by One Company—Area Comprises 5,000 Acres—Railroad Facilities Most Serious Drawback.

E. L. Goodrich of the San Juan oil fields is a guest at the Cullen. Mr. Goodrich reports his company as having taken up 5,000 acres of promising oil lands near Bluff City, the formation being limestone and sand. There is one well down 210 feet, and five smaller wells, all yielding oil, with others that are mere borings yielding five barrels per day of paraffin oil. Mr. Goodrich claims this oil is equal to anything yet brought to light in this part of the west, the only drawback being that the fields are about 80 miles distant from a railroad. However, he believes the outlook is so favorable for oil that development will be sufficient at no distant future to warrant building a pipe line to the D. & R. G.

That part of the state is rich in fossil finds and cliff dwellings, and Mr. Goodrich says that Prof. Pruden of Yale university visits San Juan county every season in search of fossil finds, and is generally successful. Moreover, the character of the cliff dwellings there is such as will warrant extended investigation and study by the most prominent experts in the country.

THE SANDY SAMPLER.

Machinery for Plant is Now Enroute From East.

Upon the arrival of the time for the expiration of the lease upon the plant of the old Pioneer sampler at Sandy, now held by Taylor & Brunton, the new owners will be ready to take over the property, and will proceed to commence the work of remodeling the buildings and their interiors preparatory to resuming the sampling business again. The lease expires on the last day of this month.

Manager Jenson stated today that he had received advices that the new automatic machinery ordered some time ago, had been shipped and its arrival at Sandy is expected almost any day. The plant will be placed in commission about the middle of March.

MARBLE IN EMERY.

New Industry Being Fostered in a Utah County.

In Emery county, this state, considerable attention is being paid to the opening up of the immense marble deposits found there. The current issue of the Castle Dale Progress, has this to say:

"A new industry, promising great results for Emery county, is being developed by several Huntington, Lawrence and Castledale men. We refer to the mammoth vein of marble situated on Cedar mountains some 20 miles east of Castledale. The most active men at present in the enterprise are Jerome Avay, formerly of Vernal; Dave Manwaring and George P. Billings of the same place, and D. Hayden, an eastern marble worker of long experience in the eastern marble centers, now located in Huntington. Quite a force is at the quarry, and Mr. Hayden, with some assistants, is dressing and polishing the stone at Huntington. Recently two four horse loads of the partially finished product was sent to Vernal to be disposed of there and two more loads are being prepared for shipment to the same place. The gentlemen are slowly but steadily succeeding in advertising the product of this Emery county product, and the result is shown by several orders for tombstones, headstones and monuments of the more designs from Uintah, Carbon and Emery counties.

"Besides having marble of all colors commonly found elsewhere, there is a white, mottled, pink, etc., there is a pretty water wave marble at the local quarry that in the way of beauty far excels them all.

"The Emery county marble quarries are practically inexhaustible. As a matter of fact no one has attempted to ascertain their extent."

Locations in North Tintic.

Special Correspondence.

Eureka, Jan. 23.—The following locations have recently been recorded in the North Tintic district during the past year, by Recorder Hugo Deprezin:

Cecelia mining claim, by Mary Harrington.

Little Daisy, Brooklyn, Sadie, Big Slipper claims by Margaret G. Shea, L. Wood, Worker and Queen No. 1, claims, by John Davis.

Mayflower claim by Leu Delong.

Lone Pine Nos. 1 and 2, by John Edwards.

Gold Tooth claim, by C. C. Parker.

Sadie, Blue Bell, Sam, Walker, Alma, Silver Reef and Silver Reef Nos. 1 and 2, by James Morgan.

Sunnyside, Idaho, Mary Jane, Virginius, Humboldt and Montezuma claims, by Mike Leary.

PROOFS OF LABOR FILED.

The following proofs of labor have been filed in North Tintic for the year 1902, have also been filed with Mr. Deprezin:

Three Widows group, by Ed Nelson et al.

Douhard Guild, by Patrick Donnelly et al.

Willie Shea Cons., by Margaret G. Shea.

Admiral Farragut Cons., by D. C. Harrington.

Dewey, by William Cork.

Bill Lloyd Cons., by William Ball.

Midnight and Midnight Extension, by S. J. Schnelter.

Chlorine Queen, by John Harris.

North Eureka Mining company, by Hugo Deprezin.

Peterson Cons., by Rasmus Nelson.

Good Hope, by John C. Dugan.

Sweetwater and Dewdrop, by Gus A. Franke.

Flora Bell Cons., by Hamilton Laird.

Scranton Mining & Milling company, by N. A. Dunyon.

Prospect, by Jacob Muntz.

Little Bell Application.

The application of the Little Bell of Park City is still before the directors of the big blackboard. The general mining committee may report favorably in this case.

A Big Idaho Clean Up.

(Special to the "News.")

Elk City, Idaho, Jan. 22.—Without doubt the biggest cleanup of gold ever made in Idaho county has been reported here from the American Eagle mines near this place. The ten stamp mill in a week's run crushed 114 tons of gold ore, yielding a value of $3,180.

Accident at Lower Mammoth.

Special Correspondence.

Eureka, Jan. 22.—Gus Peterson got one leg caught between a loose timber and the walls of the Lower Mammoth mine on Wednesday last and had that member badly crushed. He is now being cared for at the Tintic hospital.

Exchange Annual Meeting.

Tomorrow afternoon at 1 o'clock is the time set for the annual meeting of the members of the stock exchange. It is believed now that there will be no adjournment, which was talked of several days ago, and that it will be pulled off on schedule time.

At this meeting a new governing board is to be elected. No matter of special importance, aside of the matter of changing the rules of the organization is to be considered.

MINING CONCENTRATES.

One car of Fraction ores from Tonopah is in today.

The Mammoth has several cars of ore on today's market.

The Utah mine of Fish Springs reported with a carload of ore today.

Manager George Moore of the Sunshine mine of Camp Floyd is in Mercur today.

Ben T. Lloyd, manager of the Copper Mountain mine of Beaver county is in Logan today.

Senator Clark's Ophir Hill mine reported with five cars of concentrates today.

President E. L. White of the Bingham Con. departed for the east last night.

The work of installing the new hoist at the Yampa mine of Bingham is in progress.

Walter C. Orem, manager of the York mine of Bingham, is inspecting that property today.

A strike of $100 gold ore is reported having been made in the Pike's Diggings district, Nev.

Dr. P. A. H. Franklin and a crowd of eastern investors are expected to arrive in the city tomorrow.

Manager A. F. Stevens, of the Addie Consolidated mine of Silver City, Idaho, departed for home last night.

J. T. Kessel, a well known Park City mill man, has gone to Nevada to enter the employ of the Sheba company, operating the Humbolt county.

The shaft at the Hannapah, near Tonopah mines, being explored by local talent, is reported to have reached a depth of 106 feet.

J. J. Burke expects to leave in a day or so for California to pay a visit to the Red Cross mine, in order to see that all that property is started off right.

Henry M. Crowther expects to conduct an examination of the Jupiter property in Park City, for a crowd of eastern investors during the next few days.

The Taylor & Brunton sampler reported the arrival of twenty cars of ore today; four from Bingham, five from Stockton, one from Nevada, one from Fish Springs and nine from Tintic.

Milan Packard, manager of the Star Con. of Tintic states that the vein of copper ore recently encountered in that property continues to look good, but not enough development work has been performed to determine just how good it is.

MOVEMENT IN PRICES SLOW.

Changes Were So Small as to be Almost Inappreciable.

ERIE LARGELY ABSORBED.

Its Firmness Had a Very Stimulating Effect on Market—Venezuelan Situation Still a Factor.

New York, Jan. 23.—The small orders in the market at the opening caused a sluggish and irregular movement in prices which did not exceed an eighth of a point either way for the majority of stocks. There was great hesitancy in the movement of prices. Tennessee Coal and Amalgamated Copper made good advances on trade reports, but the railroad list became heavy. The Wabash stocks were weakened by reports of new steps in opposition to extensions planned. Renewed absorptions of Erie on a large scale served to check the market. The buying movement was checked occasionally and the market became dull. The developments in the Venezuelan situation were offered as reasons for its firmness and in some measure its heaviness. Erie rose above 40 and its leadership caused a firmer tone in the market. Erie first preferred gained a point and the second preferred 1⅝.

Bonds were steady at noon.

Tennessee Coal forced prices generally were irregular. St. Louis & San Francisco dropped 2 points to 80 but rallied. Metropolitan Street Railway, Pump and United States Express rose above 1½ points to close. Louisville selling ex. div. lost a point.

MONEY AND BONDS.

Money on call easier at 4 per cent. Prime mercantile paper 5@6 per cent. Sterling exchange firm with actual business in bankers' bills at 4.86.875@4.87 for demand and at 4.83.875@4.84.125 for sixty days. Posted rates, 4.84½@4.85 and 4.87½@4.88. Commercial bills at 4.83¾@4.84. Bar silver, 47. Mexican dollars, 37½. Government bonds, steady; refunding 2s reg., 105; do coupon, 107½; new 4s reg., 135; do coupon, 136; old 4s reg., 109; do coupon, 110; 5s reg., 102; do coupon, 104½.

SUGAR.

Sugar—Raw unsettled; fair refining 3 5-16; centrifugal 96 test, 3 13-16; molasses sugar, 3 1-16. Refined steady; crushed, 5.35; powdered, 4.85; granulated, 4.75. Coffee steady; No. 7 Rio, 5⅛.

LIVE STOCK.

CHICAGO.

Chicago, Jan. 23.—Cattle — Receipts, 3,000; steady. Good to prime steers, 4.50@5.50; poor to medium, 3.25@4.40; stockers and feeders, 2.50@4.50; cows, 1.40@4.40; heifers, 2.00@4.50; calves, 4.00@7.50; Texas fed steers, 3.50@4.50.

Hogs—Receipts today, 30,000; tomorrow, 18,000; left over, 4,600; steady. Mixed and butchers, 6.25@6.60; good to choice heavy, 6.50@6.95; rough heavy, 6.40@6.60; light, 5.90@6.35; bulk of sales, 6.40@6.60.

Sheep—Receipts, 4,000; sheep, steady; lambs, steady. Good to choice wethers, 4.40@5.00; fair to choice mixed, 3.25@4.40; western sheep, 3.50@5.00; native lambs, 4.25@6.45; western lambs, 4.50@6.10.

OMAHA.

South Omaha, Jan. 23.—Cattle—Receipts, 2,500. Market steady. Native steers 3.25@5.50; cows and heifers 3.00@4.10; canners 1.80@2.80; stockers and feeders 2.75@4.40; calves 4.00@6.50; bulls, stags, etc., 2.40@4.00.

Hogs—Receipts, 7,000. Market 5c higher. Heavy 6.55@6.75; mixed 6.50@6.60; light 6.40@6.55; pigs 5.50@6.25; bulk of sales 6.55@6.60.

Sheep—Receipts, 3,000. Market weak. Fed muttons 4.50@5.20; wethers 4.00@5.00; ewes 2.50@4.40; common and stockers 1.50@4.00; lambs 5.00@6.00.

Kansas City, Jan. 23.—Cattle—Receipts, 2,000, including 100 Texans. Steady. Native steers 3.50@5.60; Texas and Indian steers 3.15@4.10; Texas cows 2.60@3.00; native cows and heifers 1.75@4.10; stockers and feeders 2.50@4.25; bulls 2.40@3.75; calves 2.50@7.50.

Hogs—Receipts, 5,000. Market steady. Bulk of sales 6.45@6.70; heavy 6.57½@6.80; packers 6.45@6.55; medium 6.40@6.62½; light 6.30@6.45; yorkers 6.40@6.45; pigs 5.75@6.20.

Sheep—Receipts, 2,000. Market firm. Muttons 3.50@4.70; lambs 3.60@6.00; range wethers 3.00@4.75; ewes 3.00@4.50.

DENVER.

Denver, Colo., Jan. 23.—Cattle—Receipts, 600. Steady. Beef steers, 3.75@4.75; cows, 2.50@3.75; feders, freight paid to river, 3.50@4.25; stockers, 3.00@4.25; bulls, stags, etc., 1.50@3.00.

Hogs—Receipts, 1,100. Higher. Light packers, 6.75@6.80; mixed and heavy, 6.70@6.75.

Sheep—Receipts, 700. Firm. Good to fat muttons, 3.00@4.00; lambs, 4.00@5.25.

PRODUCE.

CHICAGO.

Chicago, Jan. 23.—Close:

Wheat—May, 81⅛; July, 75¼.

Corn—Jan., 46¾; May, 44⅝.

Oats—Jan., 34¼; May, 36⅛.

Pork—Jan., 19.25; aMy, 16.82½.

Lard—Jan., 10.15; May, 9.60.

Ribs—Jan., 9.10; May, 9.20@9.22½.

Flax—Cash, northwest, 1.24.

Rye—May, 52@52¼.

Barley—Cash, 42@60.

Timothy—Jan., 4.30.

Cash. Wheat—No. 2 red, 78@79; No. 3 red, 73@78; No. 2 hard winter, 75@76; No. 3 hard winter, 71@75; No. 1 northern spring, 81@83; No. 2 spring, 79@81; No. 3 spring, 73@81.

Corn—No. 2, 46½@47; No. 3, 42¾@43.

Oats—No. 2, 34; No. 3, 33½.

NEW YORK.

New York, Jan. 23.—Wheat—Receipts, 83,500 bushels. Opened firmer on better cables, but broke a cent before midday under liquidation. May, 83@84 1-16; July, 80@80¾.

SAN FRANCISCO.

San Francisco, Jan. 23.—Wheat—Steady. May, 1.43⅞; Dec., 1.28⅞; spot, firm, 1.42½@1.47½.

Barley—Easier; May, 1.15¼; cash, 1.18¾.

LIVERPOOL.

Liverpool, Jan. 23.—Close: Wheat—March, 6s 5⅝d; May, 6s 3½d.

CHICAGO MAY WHEAT.

Chicago, Jan. 23.—May wheat opened a shade to ½@⅝c higher at 81¾ to 82¼. Around 82 the liquidation was very free and a decline to 81⅝@81¾ occurred.

Uncertainty as to the attitude of the leading long kept traders on edge throughout the day. The close was ½@⅝c lower at 81¼, after touching a low point of 80¾.

BUTTER AND EGGS.

New York, Jan. 23.—Butter — Receipts, 5,000 packages; firm. State dairy, 18@25; creamery, extra, 26; creamery, 19@25.

Cheese—Receipts, 7,300 packages. Fancy large, 25.

Eggs—Receipts, 7,300 packages; firm. State and Penna., 25; western, candled, 20@26.

PEOPLE WHO ARE PASSING

F. J. Stephenson and J. H. Turner, well known traveling men, are at the Knutsford from St. Louis. They report the coffee markets as unchanged during the last seven months, but with the outlook as encouraging for the spring trade. They say 90 per cent of the coffees consumed in the United States are from South America, but that there is a steady though rather light demand for the Asiatic article. Messrs. Stephenson and Turner report manufacturers as rushed in all lines in St. Louis, one instance of which was that an order given by them for labels last August, has not yet been filled.

The most extended preparations continue to be made at the St. Louis exposition grounds, where it is claimed $31,000,000 will be expended, as against $21,000,000 for the Chicago fair; though whether the attendance at Chicago will be equaled is somewhat doubted, owing to the numerous great fairs that have been held since, and which have largely satiated the public thirst for such things.

R. G. Dun & Co., THE MERCANTILE AGENCY.
