

## LARAMIE MOB LYNCHES A NEGRO

Was a Prisoner in County Jail  
And Attempted to Assault Girl  
In Jail's Family.

### THE SHERIFF HAD NO WARNING.

His First Intimation Was When  
Masked Men Appeared—Compelled  
To Surrender Negro.

Laramie, Wyo., Aug. 29.—At 8 o'clock this evening Joe Martin was taken from the county jail here and hanged. The lynching took place in front of the residence of District Judge Carpenter in the eastern part of the city. The lynching is the first one that has occurred in Laramie for a number of years, and was caused by the attempt of Martin to kill a girl in the family of the jailer.

After assaulting Miss Krause with a razor Martin was placed in a cell in the county jail. Tonight a mob of several hundred men formed outside the jail. The first intimation that Sheriff Cook had of the contemplated lynching was when two masked men appeared in the kitchen of the jail house and with guns leveled at him, told him that there were 200 men waiting outside for the negro, and that he had better not attempt to make any trouble for them. In the meantime another masked man had entered, and while the first two held the sheriff, the third man took the keys of the jail from the sheriff's pocket, and then the three started for the negro's cell. On the way they met Dr. Miller, who had been summoned to dress the wounds on Martin, self-inflicted with the same razor he had used to assault the girl and Turkey Jones. They were both compelled to stand against the cage of the cells with their faces turned away from the mob. The negro was then taken from his cell and hurriedly marched through the court house to the street. Arriving at the lamp-post, a short distance from the jail, the negro was quickly strung up to the post. During the entire proceeding he did not speak nor attempt to resist the mob. The lynching occurred at about 8 o'clock and within an hour the streets were deserted. Acting Coroner Grant took charge of the body of the negro and turned it over to an undertaker.

Miss Krause would undoubtedly have been killed by Martin had not the wife of Sheriff Cook been in her room until his rage had cooled and he could be taken from the kitchen. On the way out he slashed Frank Frazer, a bystander, with a butcher knife which he had grabbed from the kitchen table. The wound is not serious. Miss Krause, who comes from Chillicothe, Mo., is not seriously hurt.

### Police Chief Wounded.

Riga, European Russia, Aug. 29.—Assistant Chief of Police Lishin and two policemen were shot and wounded yesterday while dispersing a crowd of unemployed persons who had assembled near the prison.

### Mrs. Phipps Allowed Time.

Denver, Colo., Aug. 29.—Judge John I. Mulline, in the district court, today overruled the motion of counsel for Mrs. Genevieve C. Phipps to quash the summons served on her in the suit of her husband, Lawrence C. Phipps, for divorce.

The summons was attacked on the ground that the jurat to the notary's attest bore no seal and for the further reason that service had not been made by a properly sworn deputy sheriff. Mrs. Phipps was given five days in which to demur to the complaint or to answer in which to answer the charges made by her husband.

### Work at Mount Hamilton.

University of California, Aug. 29.—A Lick observatory bulletin, just issued, deals with the results of recent astronomical work at Mount Hamilton. The distance of Alpha Centauri has been determined spectroscopically. So far as known this is the nearest star to us. The result is in harmony with observations by means of the ordinary telescope, to the effect that light, traveling with a speed of 186,000 miles per second, requires four and one-fourth years to reach us from that star.

The great Swedish physicist, Svante August Arrhenius, professor of physics at the University of Stockholm, who has been spending the past two months at the University of California, is the author of a paper on the physical nature of the sun, recently published at total solar eclipse. This paper was written by Prof. Arrhenius during his recent visit on Mount Hamilton for the

## Not Fatal.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz: (1) Weakness or Debility; (2) Rheumatism or Neuralgia; (3) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to indigestion, liver complaint, etc. Here are some of the symptoms: Shortness of breath after exercise. Smothering Spells. Pain in Chest, left Shoulder and arm. Discomfort in Lying on one side. Fainting Spells. Nervous Cough. Swelling of Feet and Ankles. Paleness of Face and Lips. Palpitation. Nightmare. Irregular Pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits now go up and down stairs with ease, walk one block. One year later, I am still in good health. I could hardly do so much for me that I find it a far greater medicine than you claimed it to be."—B. D. YOUNG, D. D., 607 Pine St., Natchez, Miss.

Money back if first bottle fails to benefit.

FREE Write us and we will mail Dr. Miles' Anti-Pain Trial Package of Eminent Remedy for Pain. Also Symptom Blank for our Specialist to diagnose your case and tell you what is wrong and how to right it. Absolutely Free. Address: DR. MILES' MEDICAL CO., LABORATORIES, ELKHART, IND.

## MyStomach

"It feels so uncomfortable. Food distresses me. I get blue and despondent. I fear it is my heart. But my doctor says it's my stomach." And what did your doctor tell you to take?

Ayer's Sarsaparilla? Quite likely, for he knows. When the liver is wrong, everything is wrong. The digestion is weak. The disposition is weak. The nerves are weak. Nothing acts well. Just one of Ayer's Sarsaparilla each night will make these wrong things right.

24 cases. J. C. AYER & CO., Lowell, Mass.

purpose of harmonizing the apparently conflicting results as to the source of the coronal light obtained by recent observations. Arrhenius has, on this supposition, computed the total mass of the corona, and has found its most probable value 25,000,000 tons. This is approximately that of a cube of granite whose sides are 670 feet in length. The quantity of matter involved in the corona is thus shown to be exceedingly slight, considering that it occupies a space whose dimensions in every direction amounts to several millions of miles.

### Protection to Canadian Rails.

Montreal, Aug. 29.—Interviewed today concerning the action of the Canadian government placing a duty of \$7 a ton on steel rails, in conformity with the power vested in them by parliament to do so as soon as it could be shown that the Canadian manufacturers were in a condition to supply the Canadian trade, Sir Thomas Shaughnessy, president of the Canadian Pacific railway said:

"While it is quite proper that the Canadian manufacturer should be sufficiently protected, there is not, in my opinion, one of these in Canada who is capable of producing a rail either effectively or economically."

Sir Thomas refused to say whether or not the Canadian Pacific had placed an order within the last few days in the United States for 60,000 tons of rails.

### Military Service Term Reduced.

St. Petersburg, Aug. 29.—By an imperial decree which is published this morning in the Official Messenger, the term of military service for the soldiers of the Fort Arthur garrison is reduced so that every month served from May last until the end of the year shall count for one year on the full term of service.

### WISCONSIN POLITICS.

Secy. of State Files His Answer In Anti-Third Term Suit.

Madison, Wis., Aug. 29.—The attorney for Secy. of State Walter L. Houser, filed his answer with the clerk of the supreme court this evening in the suit brought against him on Aug. 9 by the nominees of the anti-third term Republican state ticket headed by Samuel A. Cook, to compel him to place their names in the Republican column in the official ballot, and to restrain him from placing the names of the La Follette nominees in that column.

The answer, which is a voluminous document, denies all the allegations upon which the suit rests. The answer claims that of the 10th delegate to the state convention 515-15 La Follette delegates were unopposed. The contests were reviewed and the number of delegates in favor of the governor is 535-15. It is claimed that the national convention had no authority to pass on the regularity of the state convention of Wisconsin, and its decision or that of the credentials committee of the national convention or the convention itself must be considered null and void so far as the party within the state is concerned.

### Industrial Liberty Party.

Chicago, Aug. 29.—The convention of the political party styled the Jeffersonian Democracy was held this afternoon and tonight. About 50 delegates are present, two-fifths of them coming from outside points. It was decided to change the name to the Industrial Liberty party, and to refrain from placing the names of the La Follette nominees in that column.

### MUST SHOW CAUSE.

T. F. Waggaman Why He Should Not Be Removed as Trustee.

Washington, Aug. 29.—In the supreme court of the United States of Columbia today Justice Stanford issued an order directing Thomas F. Waggaman, treasurer of the Catholic university, against whom proceedings in bankruptcy have been filed, to show cause by Sept. 1 why he should not be removed as trustee for certain parties to whom he gave notes for certain moneys invested.

Another phase of the case developed today when the Second National bank, the National Bank of Washington and the National Metropolitan bank, which filed the original proceedings in bankruptcy, petitioned the court to appoint a receiver to take possession of all the assets of Mr. Waggaman and collect and hold the same until further orders. The petitioning creditors offered the court that this action was absolutely necessary for the preservation of the estate of Mr. Waggaman and to the best interest of the case.

Accompanying the petition is a letter signed by Mr. Waggaman asking that this action be taken. In the petition it is stated that the securities to be secured by the securities are very large, being upwards of \$500,000, and that the face value of the securities amounts to more than \$1,000,000.

### Violated Injunction.

Wellington, Kas., Aug. 29.—Thomas L. Wilson, vice president of the International Order of Machinists, was tried today for an attack on a Santa Fe workman in Arkansas City. No verdict has yet been returned by the jury. Today 15 non-union machinists were arrested in charge of Santa Fe detectives. W. H. Johnson and Walter Emerson met them at the depot and tried to induce them not to go to work. Johnson was once arrested for violating the injunction against interfering with the company's employees. All the new men but one went to work under the protection of officers.

### E. C. Stahlman Drowned.

Nashville, Tenn., Aug. 29.—E. C. Stahlman, vice president of the Banner Publishing company, news editor of the Evening Banner and the correspondent of the Associated Press, was drowned in the Cumberland river today. Mr. Stahlman was cruising up the river in his gasoline launch, when the propeller refused to work. He dived under the launch to remedy the trouble and failed to reappear. Mr. Stahlman was 35 years old.

## UTAH SCHOOLS ARE RECOGNIZED.

Prof. Horace H. Cummings Speaks Before the Educational Exhibitors' Association.

### MAKES FAVORABLE IMPRESSION

President Gay Pays an Appreciated Compliment to the State's Educational Exhibit.

Special Correspondence.  
St. Louis, Aug. 27.—In response to an urgent invitation from Prof. Gay, of the World's Fair Educational Exhibitors' association, of whom our representative is a most highly respected member, Prof. Horace H. Cummings of the state normal school of Utah, gave an excellent address on the schools of Utah, paying particular attention to the public school system and the course of study worked out in the training school and now about to be adopted by the public schools of the state.

In introducing the speaker Prof. Gay said, "We have in our association a member who has said very little during our meetings but who has one of the best and most carefully prepared exhibit in our building. I was told by a number of representative educators of the country and to satisfy myself, I went to the gentleman in charge and after spending a number of hours in earnest investigation, was convinced of the facts I have already stated. It is pleasing to find a man who believes and has faith in the system he represents. I take pleasure in introducing the representative from Utah."

The attendance was the largest in the history of the association, nearly every state in the Union being represented, and a number of foreign countries, being represented, and judging by the respectful attention paid the lecturer, all were intensely interested.

For an hour Prof. Cummings, in his earnest and impressive manner, laid before them, by means of word pictures and the actual work of the pupils, the results of the study of the public school of which so much valuable time and energy have been expended by those immediately interested in our training school. He also gave an excellent account of the work of education throughout the entire state.

At the close of the meeting many were the handshakes, congratulations and requests for circulars received by the lecturer, evincing the delight and satisfaction of the audience. Among the most enthusiastic were three members of the jury of awards of the department of education, from Argentina, Argentina, who offered congratulations on the progress of the state in educational affairs and particularly on many features of the exhibit which had previously been explained to them by Prof. Cummings.

The exhibition is visited every day by leading educators of the world and our representative is kept busy answering questions and explaining in detail the work of the schools and colleges of the state. No intelligent visitor goes away without having received some new ideas that will eventually be worked out for the betterment of some school. The amount of good accomplished in this way cannot be overestimated and the people of Utah should be proud of the educational exhibit and the earnest worker who has it in charge.

JEANETTE MCKAY.

### Denver Parker Club.

Denver, Aug. 29.—The Parker Constitution club was organized today at a meeting of prominent lawyers of Denver. The officers elected were: President, E. T. Wells, vice president, Alexander B. McKinley, secretary, T. S. Hines, treasurer, and an ex-scout, Charles H. Jones. The declaration of principles of the organization is the same as that of the New York City Constitution club.

### Escaped from Idaho Pen.

Boise, Ida., Aug. 29.—William Dougherty effected his escape from the guards at the penitentiary just before noon today and no trace of him has been secured. He was working in a quarry gang. He was excused for a moment, and while out of sight of the guard, made off. Dougherty was sentenced to three years in state of Idaho for a year from Bear Lake county, to serve a term of two and a half years for burglary.

### CHINESE LIKE JENKS.

London Times Correspondent Praises His Tact and Ability.

London, Aug. 29.—The correspondent of the Times at Peking in recording the departure from the Chinese capital of Prof. Jenks, a member of the United States commission on international exchange, the other members of which were Charles F. Conant and Hugh Hanna, for the United States, highly praises the tact and ability displayed by him in conducting his difficult mission, which has undoubtedly left its mark on the Chinese authorities.

"It is regrettable," says the correspondent, "that Prof. Jenks is obliged to leave when his work is only beginning, for experience teaches that there is often a considerable interval between the Chinese expression of approval and the actual introduction of reform and China is only beginning to realize the vital importance of reform in its currency."

### PERISHED IN THE FIRE.

Man and Wife Burned to Death On a Ranch.

Ukiah, Cal., Aug. 29.—A house on the ranch of Dr. F. Glebrecht in Redwood valley has been burned to the ground. Neighbors, on going to investigate the cause of the fire, were unable to find Gottfried Spycher and his wife, who had been taking care of the property during the doctor's absence in the east, and had lived in the house. An investigation showed two corpses in the ruins, both so badly burned as to be beyond identification. It is supposed that both Spycher and his wife were dead before the flames consumed the house, or they would have been able to escape. The neighbors say that Spycher and his wife, who had moved from San Francisco, were both in ill health. They were both about 30 years of age and were known to Dr. Glebrecht, which was only a few rods from the burned house, escaped destruction.

### More Money

We increase the wealth of the country with every bar of Fels-Naptha by 50c to \$2.50.

It probably never saves less than 50c; sometimes very likely \$5.

that both Spycher and his wife were dead before the flames consumed the house, or they would have been able to escape. The neighbors say that Spycher and his wife, who had moved from San Francisco, were both in ill health. They were both about 30 years of age and were known to Dr. Glebrecht, which was only a few rods from the burned house, escaped destruction.

### NEW YORK GOVERNORSHIP.

Very Uncertain Who Will be Republican Candidate.

New York, Aug. 29.—On the eve of the city primaries there is a great deal of uncertainty about the Republican nomination for governor of New York. Some men are beginning to suspect that Gov. Odell has been in earnest in the declaration that he has often made that he did not know who would be named.

Three men only are now talked about, Timothy L. Woodruff, Lieut. Gov. Higgins and Nicholas Murray Butler of Columbia university.

Mr. Woodruff is the most active candidate and he believes he is going to win. Gov. Odell does not share this confidence which probably means that Odell is not for the Brooklyn man. Although Gov. Odell has declared from the beginning that he had no candidate in mind, it is not believed that he has ever thought it would be "open" for Woodruff.

Gov. Odell and Mr. Woodruff were both at the national headquarters today and it was surmised that the governorship was under consideration.

### Parker Working on His Letter.

Esopus, N. Y., Aug. 29.—Uninterrupted work on his letter accepting the Democratic nomination for the presidency and elaborating his views upon the questions at issue in the campaign, was Judge Parker. I take pleasure in introducing the representative from Utah."

### Escorted Out of Cripple Creek

Cripple Creek, Colo., Aug. 29.—A. G. Leduc, a returned deportee, who was taken from the custody of two deputy sheriffs last night by a body of armed men, was escorted here to the Cripple Creek road, where he was released with a warning to remain away from this district.

### Russian Cruisers Overhauled.

London, Aug. 29, 7:10 p. m.—It is stated on good authority that the British cruiser sent to search for the Russian volunteer fleet, cruisers Smolensk and St. Petersburg, have overhauled at least one of these vessels. The utmost reticence is maintained at the admiralty, and at this hour no official confirmation of the statement has been given out.

### City of Binang, Luzon, Burned.

Manila, Aug. 29.—The city of Binang, in Laguna province, island of Luzon, has been destroyed by fire. One hundred persons perished in the flames, and \$500,000 worth of property was lost. The loss is estimated at \$200,000. The government is furnishing shelter and food to the people made destitute by fire.

According to the census of 1896, Binang had a population of 7,585.

### To Administer McVicker Estate.

Chicago, Aug. 29.—Joseph H. Strong, public administrator of Cook county, was appointed administrator of the estate of Mrs. J. H. McVicker, widow of the veteran theatrical manager, by the probate court today. This action on the part of the son-in-law of the dead woman is the opening move in what promises to be a sensational legal struggle. The papers of administration were issued on application of Horace McVicker, the stepson of the deceased. The value of the estate is said not to exceed \$250,000. As Dr. L. H. Zeigler is in possession of the body and conducts the funeral, "even as one of them said, 'if it becomes necessary to call in the police to enable us to do so.'"

### Cloudburst in Montana.

Burke, Mont., Aug. 29.—A cloudburst in Silver Bow canyon has wrought havoc with the Northern Pacific. It has two miles east of Durango and wrecking crews are now at work clearing away a mass of rock that was precipitated upon the tracks.

A storm broke last night, and what was a few hours before a dry canyon was soon changed into a roaring torrent which tore away rocks and hurled them upon the track. The roadbed was also washed out and traffic was delayed several hours.

It is estimated that about 25 tons of rock were piled upon the Northern Pacific tracks, and a new gorge was formed by the force of the water. Two bridges were swept away. It will require 24 hours to repair the damage.

### Anxious Over the Smolensk.

St. Petersburg, Aug. 29.—The anxiety of the Russian government to prevent another Smolensk incident is shown in the fact that the content of the arrangement entered into with Great Britain to send a warship from Cape Colony in search of the cruiser, it has sailed from Portugal in case the ship should put into an African port belonging to either country to deliver the orders receding her from operations on the high sea.

### STRIKING BUTCHERS ARE ABOUT READY TO QUIT.

Chicago, Aug. 29.—The executive board of the meat cutters' union adjourned after a short session and the members went to confer with the allied trades council. It was admitted that a proposition for settling the strike had been arranged and would be presented in the council for action, but the details were withheld.

The peace proposition was discussed by the allied trades council, but on account of the complicated nature of the proposition, the council adjourned without taking action. The labor representatives will meet the aldermanic committee today and the proposition will be taken up again tomorrow.

Early trains arriving at the stockyards were thronged, about 13,000 men and women being taken in. The crowd, however, proved to be the usual throng of strike-breakers, and there was no suggestion of disorder. Desertions from the ranks of the strikers were no greater than usual on Monday. They approximated about 100.

With the strike funds depleted and crowds of hungry men vainly scrambling for food at the commissary stores, it taxed the labor leaders to find a way to prevent a stampede to the non-union ranks.

"Wait until tomorrow and we shall present to the packers a proposal which

they can't decline to accept," they told the men.

"There is nothing left for the men but unconditional surrender," said a packer. "The leaders should not hesitate in calling the strike off, so that the men who are anxious can find work. Many of them will be re-hired in packing towns, but there are thousands who must look elsewhere for employment, and they should be released so they can begin their hunt for work outside the stockyards. It does not make any difference what peace proposal the strikers have to submit—we shall not deal with the unions. The only terms of surrender we shall consider will be the return of the men as individuals."

The packing house teamsters will meet tonight to discuss the advisability of declaring the strike off, so far as they are concerned.

It is understood that the peace pact which the leaders have prepared, provides that the men shall be taken back as union men and the wage scale in effect before the strike be recognized. The effort of the leaders is to devise some means of surrender that can be construed as a "settlement."

## TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

The Democrats opened their campaign in Indiana with 100 speakers, and a grand demonstration at Indianapolis.

Heavy rains did great damage in Massachusetts, and hail destroyed crops in Indiana.

The Marshall Car Wheel and Foundry Works at Marshall, Texas, were destroyed by fire, with a loss of \$129,000.

## TEN YEARS AGO TODAY.

The residence of Ed W. Duncan in Waterloo was destroyed by fire.

A strike was imminent among New York tradesmen, due to architects and contractors insisting on the use of material made by cheap convict labor.

Count Mishiina, a distinguished Japanese citizen, visited Salt Lake.

Fifteen policemen narrowly escaped death from suffocation in the Englewood station, Chicago, through escaping gas.

## FIVE YEARS AGO TODAY.

At the trial of Capt. Alfred Dreyfus, at Rennes, France, strong testimony was adduced that the bordereau was written by Major Esterhazy.

Emily H. Woodmansee of Salt Lake won gold medal, offered by Deseret Sunday School Union for the best song to be sung at the semi-centennial jubilee.
