ANOTHER "OPEN LETTER."

We have often observed how naturally, when you wish to purchase any article of comfort or necessity, you endeavor to procure it at the lawest possible price, cheapness generally constituting the most important point in favor of buying. This frequently proves mistaken economy, because low-priced goods must be made of inferior materials, conequently such goods invariably fail to give satisfaction; in perhaps no ranch of trade is this fact more apparent than in Boets and Shoes. We are not advocating high prices, however, but take great pleasure in stating that the policy we have adopted of using only the best mateials, and making none but good, "honest" warranted Boots and Shoes, has gained us hosts of customers, who, as evidence they are satisfied that our goods are well made and truly cheap, always come again and end their friends. Any defect in workmanship is repaired free of harge. Old Boots and Shoes are made "amaist as guid as new."

In addition to the goods of our own make, we keep a choice assortment of the best qualities of imported Boots and Shoes, including Rubers. etc., suitable for the season.

Your obedient, faithful servants,

The Working Men's Co-operative Association. CASH PAID FOR HIDES. The Trade supplied with Leather and Findings.

there is less credit business; the
factories have not advanced as profusely as in former times; the crops
are, to-day, raised with less expenditure than in past years. Now we
have a large number of small farmers, who annually produce from
four to ten bales of cotton.

A discussion occurred here between the conservative and republican counsel as to the admissibility of certain newspaper paragraphs, supported by telegrams from Kellogg, as evidence against the latter.

New Obleans, 3.—The Congressional Committee met this morning at the Custom House. The first witness was Abell, secretary of the returning board. He gave a statement of his duties as secretary. No papers sent to the board had disappeared to the best of his knowledge. When protests were made the board generally counted the returns to which the protest referred, and then left them for consideration.

A letter from Governor Kellogg to the congressional committee was delivered this evening. It protests against the action of the committee in deciding to exclude the election of '72 from the scope of the investigation, and urges strongly that it be proved whether or not he was lawfully elected. He says he has instigated the investigation for this very purpose, that it will require a few days' work, but it will give the greatest satisfaction to all parties to have such an examination made and reported.
