

BRYAN REPLIES TO SECY. TAFT

Scores Him for Placing Personal Ambition Above the Welfare Of People of Oklahoma.

TOUCHES ON TARIFF REFORM.

Says Secretary Favors It but Would Postpone It as He Would Some Other Reforms He Believes In.

Oklahoma City, Okla., Sept. 5.—Ten thousand persons heard William J. Bryan here tonight reply to the cogent address of Secy. of War Taft upon the Oklahoma-Indian Territory political situation in conviving hall and 3000 persons who were unable to secure admittance to the auditorium attended an overflow meeting near by. Mr. Bryan was enthusiastically received, in addition to scoring Secy. Taft soundly for placing his personal ambitions above the welfare of the people of Oklahoma and attacking the views of Secy. Taft on national and state issues. Bryan declared that the constitution of the new state was even better than that of the United States. Mr. Bryan said:

TAFT AS A POSTPONER.

"Secy. Taft in his speech made in this territory a few days ago advised the people to reject the proposed constitution and postpone statehood until after the election, which would be secured. At first blush one might suspect that the secretary's advice was due to his personal interest in the next election. He might be accused of advancing the postponement of statehood with a view of keeping seven electoral votes out of the Democratic column; but it is more generous to view it as resulting from his habits of thought. He is inclined to postpone everything. He promises to acquire the title of the 'great postponer.'

"In a speech made not long ago at Columbus, O., he announced himself as in favor of tariff reform but he would postpone it until after the next election. He has done the same in regard to the wisdom of an inheritance tax, but that, too, he would postpone until a more convenient season. He has not seriously object to valuation of railroads, but he did not declare for it immediately. He is on the way to the Philippines to tell the Filipinos that while he thinks they deserve independence, the government after awhile, he wants it postponed for the present. It is not strange, therefore, that he should yield to his ruling spirit in the matter of statehood and tell you to put it off."

THE OKLAHOMA CONSTITUTION.
Mr. Bryan took up one by one Mr. Taft's objections to the Oklahoma constitution and argued against the soundness of the secretary's contentions. Mr. Bryan continued:

"The secretary, after picking out every one of the several objections and finding them provable, left the constitution that seemed good, proceeded to make an argument in favor of Republican policies in the nation. He asked you to cast your lot with the Republican party rather than with the Democratic party. If he had been frank with you he would have told you that the only party in the country the Republican party has in due to its adoption of part of the platform. But, if he had told you that, he would be better to join the Democratic party and lead a reform than to join the Republican party and lead a reform hesitatingly after the Democratic party has pointed out the way. He appealed to you to stand by protection although it did not enter into any argument on the subject. Have you read his Columbus speech? If so you will find in it an argument of protection as we have it today—an appeal for a revision of the tariff, but he paralyzed the force of his own speech by postponing the tariff reform until after the election.

TARIFF REFORM.
"Tariff reform is never undertaken by the Republicans. Just after a Republican victory because the victory is taken as an endorsement of the party and is never undertaken before an

LITTLE BABY CURED OF ECZEMA

Parents Applied to Hospitals and Doctors but Could Get No Relief—Grew Worse Under Doctor's Prescription—Friends Recommended Cuticura—Result

A SPEEDY AND PERMANENT CURE

"We express to you herewith our best thanks for the cure of our baby from eczema. The eczema appeared when the child was three months old. We applied to several doctors in the capital, each of whom gave us something different every time, but nothing brought relief. A physician recommended a salve which we threw into the fire after two days' use as the eczema became worse so that the baby suffered greatly. At last, one of our friends recommended us Cuticura Soap and Cuticura Ointment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and quite cured. All that we used was one cake of Cuticura Soap and two boxes Cuticura Ointment, costing in all \$1.25. Even the poorest man can pay that instead of throwing it into the doctor's lap. I myself only make twelve dollars a week as a teamster, but I recommend the Cuticura Remedy strongly to all mothers whose children suffer from such diseases. They are cheap, harmless and good." C. F. Karr and wife, 343 East 20th Street, New York, March 30, 1906."

FOR SORE HANDS

Soak the hands on retiring in a hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases repeat the Ointment on thin pieces of old linen or cotton. Wear during the night old, loose, kid gloves, with the fingers ends cut off and holes cut in the palms, or a light bandage of old cotton.

Philadelphia, Sept. 5.—Prince d'Abois, member of one of the oldest families in Egypt, is traveling in this country. The prince is a fine-looking young man of 22 years. He speaks English, French, German and Italian. He says he will go to Texas and study navigation rating another time, as they have a good description, an arrest is probable.

ROUGE AND POWDERS SCORNED IN PARIS

The Paris correspondent for a metropolitan paper writes that the wave of reform has struck French society ladies in the matter of using face powders, cosmetics etc. They now want to accomplish anything that continues to use artificial beauty are scoffed and scorned.

Prat Devalier, the noted skin specialist, has given out the following formula which is said to work wonders on sallow complexion, and if used persistently will pull out sunken and hollow parts.

Two ounces of Rose Water; one ounce Sprits of Cologne; four ounces crystallized Sarsolin.

Put the Sarsolin into a pint of hot water (not boiling), and after it is dissolved and cooled add the squalin, rose water and Colloidal Silica. Any large bottle will serve as a receptacle, but it must be well corked. This quantity will last for a long time. In using this mixture it should always be well massaged into the skin at least twice a day. It is an inexpensive mixture, the ingredients being obtainable from any well-stocked drug store.

election for fear it will interfere with another Republican victory.

The people of Oklahoma have no interest in the maintenance of a purely protective tariff.

The cotton raised in Oklahoma sells for the same whether it is made up into cloth in the United States or in Europe, for the foreign trade fixes the price here, and the same may be sold without the loss of money in the Chicago sub-treasury, is still a profound mystery to the government's detective forces, the chief sleuth of the treasury department, Col. John Wilke, having been continually engaged in ferreting out the criminals who took the money ever since the sub-treasury was established. The theft of \$62,000 from the St. Louis sub-treasury, which occurred nearly a year ago, is as much of a mystery now, as far as the public has any knowledge, as it was when the theft was first discovered.

SOME BIG STEAL.

According to a statement made by an official of the treasury department, the United States sub-treasuries have suffered greatly by reason of speculations on the part of "trusted" employees. In nine cases have the sub-treasuries been robbed of \$10,000 or more, in six of which the amount has been apprehended and punished and recovered the money recovered.

Probably the greatest theft of govern-

ment money was that of Whitaker May steal from the New Orleans sub-treasury in 1867, when nearly a million dollars was taken. When the thieves were apprehended to part of the sum was recovered, the government being still out \$69,981.53

Another big theft that took place in this city was that of Marden and Johnson. Marden got away with \$12,000 and Johnson with \$50,000. The treasury is out on that enterprise \$49,000.

Some thirty years ago an employee of the interior department, Capt. Bowgate, got away with about \$18,000, not a cent of which was ever recovered. Bowgate died about a year ago in New York in extreme poverty.

THE WINSLOW THEFT.

The Winslow theft which was accomplished in 1878 was another big haul. Winslow was an "honest" employee in the treasury, and everybody was surprised to discover that he had helped himself to a package containing \$8,000 intended for shipment to a western bank. Winslow got scared out of his wife when some one said to him in fun, "They've caught you at last,

Then, too, the secretary confuses two questions that are entirely distinct. The question in the south is not whether the black man is treated much better than the brown men of the Philippines. The black man of the south has the protection of the constitution, state and national governments, and is due to its adoption of the Constitution denied to the Filipinos.

The black man of the south has only the protection of living under law, while the white man makes for himself, while the Filipino lives under the laws which the white man makes for the Filipinos, law under which the white man would not himself be willing to live.

Then, too, the secretary confuses two questions that are entirely distinct. The question in the south is not whether the black man is treated much better than the brown men of the Philippines. The black man of the south has the protection of the constitution, state and national governments, and is due to its adoption of the Constitution denied to the Filipinos.

The white man of the south to insist as a matter of self-preservation on administering the government under which both he and the black man must live, is one thing; for the white man to cross the Pacific ocean and fasten a government on an alien people is another. The white man's retention of the government is confused on fundamental principles if he cannot see the distinction. Imperialism costs us more than one hundred millions a year; weakens us by exposing us to foreign attacks and lays us open to suspicion of having abandoned the idea of self-government.

Today Mr. Bryan spoke at Vinita, Sapulpa, Tulsa, Bristow and Chandler, Oklahoma.

NO INTERBOROUGH DIVIDEND.

New York, Sept. 5.—Directors of the Interborough-Metropolitan, the holding company of the two traction companies in New York City, including surface, elevated and subway lines, decided to day to pass the regular quarterly dividend on its preferred stock. Previous quarterly dividends have been 1 1/4 per cent but the directors voted to withhold this dividend until the investigation of the affairs of this company by the public service commission which is now in progress is concluded.

SMOOTH THIEF ROBS TELEPHONE BOXES.

Cash boxes attached to telephones at pay stations have been emptied during the past two weeks by a smooth thief. He would walk into a drug store or in connection with a telephone office as if repairing it would leave. The stores notice him but paid no particular attention, thinking he was an employee of the telephone company, as his work was allowed to go on under their very eyes. The robbery was discovered by regular employees and collectors of the company who, in making their rounds, found the boxes empty and the cash gone.

The police are looking for Mr. Smartly and as they have a good description, an arrest is probable.

EGYPTIAN PRINCE PRAISES AMERICAN WOMEN.

New York, Sept. 5.—Prince d'Abois, member of one of the oldest families in Egypt, is traveling in this country. The prince is a fine-looking young man of 22 years. He speaks English, French, German and Italian. He says he will go to Texas and study navigation rating another time, as they have a good description, an arrest is probable.

Baby Needs Strength as Well as Fat

Every mother tries to guard baby's health—but the food that makes baby fat is not necessarily making him strong, healthy—of sound mind and body.

Sanipure Milk is next best to mother's milk. The formula is on every can.

Mothers should know that baby's food contains all the ingredients of mother's milk—in right proportions.

Read about this—in our valuable booklet, "Baby's First Days."

Buy Sanipure Milk from
Druggist or Grocer

If your dealers haven't Sanipure Milk, send us the names of your Druggist and Grocer and we will send them a sample can and our booklet, "Baby's First Days."

There was considerable consternation in the treasurer's office. How the lead discs had been substituted for the standard silver cart wheel was a puzzle and might have forever remained a secret had not the negro messenger, who turned the trick, lost his nerve and confessed.

As a result the millions of silver dollars were all recounted by hand, and the plan was rescinded.
