Invented Railway Switch-W. C. Mortensen and G. M. Thenn of this city have invented and patented a the floor of the car vestibule by the turn of a crank, thus avoiding the opening of the front window and the or less awkward operation of the switch with the hand rod.

Canyon Road Garbage-The indignant residents of Canyon road near Fourth street say that the Civic as-sociation could get some valuable pointers if it were to put a watch on the doings of certain teamsters who regularly unload garbage and refuse in the canyon near that locality. The street department and the board of health ought to exercise supervision of this locality; the approach into City Creek canyon ought to be one of the most carefully looked after spots in the city, but instead it is made a dumping ground of refuse material by many people too lazy to haul garbage outside the city limits. Fourth street and Canyon road residents propose to make it interesting for the first offender who is caught.
