TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, Fullness after eating, averse sion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, Highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work, and are a perfect

ANTIDOTE to MALARIA.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed instantly to a GLOSSY BLACK by a single application of this DYE. Sold by Druggists, or sent by express on receipt of $1. Sold everywhere. Office, 44 Murray St., N. Y.

PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are specially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the invalid. It is a medicine and not an intoxicating beverage.

EVENING NEWS.

Thursday, - December 4, 1884.

CORRESPONDENCE.

A FRUITFUL COUNTRY.

PIMA, Smithville, Arizona, November 26th, 1884.

Editor Deseret News:

I have lived in Pima (Smithville), Arizona, over three years, and can say this is the country for farmers and stock raising. I cleared my land and raised over 600 bushels of grain the first year I came here. The second year I sowed my wheat in January and February, and threshed over 700 bushels in June. I plowed some of the same land and planted it to corn in July, and gathered 550 bushels in October; plowed the same land in November and sowed to wheat again, and the wheat was up and looking well before the first of January. This was the third crop growing on the same land the same year, and the second crop of wheat was the better. By cultivating a crop of corn on my wheat land every year it brings the land into splendid condition for a crop of wheat. By farming this way we can raise a crop of corn and a first class crop of wheat on the same ground every year. One acre of land is as good as two would be if the seasons were shorter. I have raised as good corn on the wheat land as I have seen in the Eastern Utah.

There is no time of the year, in this country, but what we can plow and sow or reap and mow. I was born in the State of New Hampshire, and I don't feel the effects of the summer heat here any more than I have felt it at times in Utah. I lived in Utah over twenty years. There is plenty of room here for Utah farmers.

MOSES CLUFF.

A PASSION FOR VEAL.

SPANISH FORK, Utah, Dec. 2nd 1884.

Editor Deseret News:

Since the fields are open, I have adopted the habit of allowing my stock to run loose on the range by day, fetching them home every night to the corral. Last thursday evening a cow with a sucking calf (calved on the 19th day of August) was observed to be calling aloud for said calf, having evidently lost it. The cow was driven a portion of the way toward home, her driver believing that her calls would attract the calf's attention, but such was not the case. Eventually the cow broke and ran in the direction of a certain corral, calling as she went. She was again fetched and secured in the corral and kept on calling all night.

The next morning as soon as she was freed from her captivity she again made off in the same direction, but all in vain. Search was then instituted on Friday, with the same result. On Saturday I hitched up, tied the cow behind the buggy and went in search in another direction, but the cow would not call in the locality over which I was traveling. Retiring in disgust I made for home, but as we came near the old spot she again began to call, the call being this time responded to by the missing animal. It was well and whole, with the exception of two underbits taken out of the right ear in a semi-circular form. Probably the actor in this drama thought as the calf was not branded he would assist me in that direction.

Very likely some one of your numerous readers can inform me who the gentleman is that uses his knife upon his calves (or otherwise) as personally described. If he will kindly put in an appearance at my residence on the Indian Farm and prove to me that he has a greater necessity for or right to the calf than I have, he can obtain it at once in its present age and condition. In fact he has no need to wait until it is grown to procure it.

By inserting the above in the next issue of your widely circulated journal you will oblige

BOYS, MATCHES AND FIRE-ARMS.

FARMINGTON, Nov. 29, 1884.

Editor Deseret News:

A short time ago a stack-yard which with a shed covered with hay, is joined to a large barn, was set on fire by a nine year old boy with one of his playthings—a match. The top of the stacks being wet by a shower of rain a few days before checked the flames so the fire was put out before much damage was done.

On the 24th inst. the little innocents indulged in a different kind of amusement with a small pistol, shooting at a target. Curtis Rogers, aged nine years, son of Thomas and Aurelia S. Rogers of this place, who had just been sent after their cows stopped to see the young warriors operate the "gun," when it went off "accidentally," lodging three shot in his forehead, a little above his eyes, one in his right hand, one in the same arm and one in his stomach, about one and a half inches above the naval.

Doctor Jesse W. Smith was summoned, who decided that the wounds were not dangerous. Only one shot has been extracted, but he seems to be getting along all right.

Will parents please give their children more short lectures on the use of matches and firearms? C. T.

Malaria is a Mean Thing.

Malaria has no color. Malaria has no odor. Malaria makes no noise. Malaria is very sly in its ways of coming. It captures us before we can resist. It attacks bad blood, weak lungs, torpid livers, and dyspeptic stomachs. But Brown's Iron Bitters can drive it out, and expel the ugly fever it brings Mrs. S. R. McDonald, New Haven, Conn., says, "I suffered for six years from the effects of malaria. Brown's Iron Bitters cured me completely.

A REMARKABLE ESCAPE.

Mrs. Mary A. Dalley, of Tunkhannock, Pa., was afflicted for six years with Asthma and Bronchitis, during which time the best physicians could give no relief. Her life was despaired of, until in Oct. 1883, she procured a bottle of Dr. King's New Discovery, when immediate relief was felt, and by continuing its use for a short time she was completely cured, gaining in flesh 50 lbs. in a few months.

The poor fellow whose blood does not circulate vigorously, whose liver is half asleep, whose stomach is in poor order, and whose digestive apparatus has gone back on him, can never make his feet warm until he puts stomach, blood, liver and digestion into good condition.
