

UNIVERSITY OF UTAH.

Professor W. G. Roylance, Professor Milton Bennion and Instructor R. L. McGhie were appointed at the faculty meeting on Monday as the committee to arrange for the University summer school for 1903.

Next Saturday evening Professor G. M. Marshall will deliver an illustrated lecture on "Westminster Abbey" before the citizens of Pleasant Grove. This lecture will be given under the management of the public schools of Pleasant Grove.

On Wednesday at a meeting of the student body the resignation of Parker B. Pratt as editor of the Chronicle was accepted. Mr. O. W. Carlson nominated Harold Giff for the position, and he was elected by acclamation. Mr. Giff was graduated from the normal school last year and is now studying for his A. B.

There was no issue of the Chronicle this week on account of the resignation of Editor Pratt.

The students of the branch normal at Cedar City now have representation on the editorial staff of the University Chronicle. Miss Bessie Angell was recently elected an associate editor. She is the first to fill this position and her first "Branch Normal Notes" will be printed in next Tuesday's issue.

Mr. George S. Gibbs, A. B. '02, was a visitor on Monday. Mr. Gibbs contemplates doing post graduate work in

dress before his students in German.

Mr. Arnold's students in French 2 French comedy written by Sachche and are rehearsing "Le Man Leste," a Martin.

Messrs. Charles Halladay, and Halla Tiedon, two teachers from Santaquin, entered the University normal school at the beginning of the second half year. They will do special work in professional training and pedagogy.

Number 2 of the "Utah Engineer" contains an article on "Opportunities for Engineers" by Hon. C. E. Allen, superintendent of the Centennial-Eureka Mining company.

Dr. Bradford's students in metalurgy will begin their work in wet assaying next week.

Professor W. G. Roylance, chairman of the University summer school committee, has announced that courses in the following subjects will be offered this coming summer: English, French, German, Latin, history, pedagogy, psychology, physical training, manual training, physical culture, arithmetic, elementary and advanced algebra, plane geometry, solid geometry and physics.

George S. Schow, a sophomore engineer from Lehi, has withdrawn from school on account of his eyesight.

L. D. S. UNIVERSITY.

Mr. Geo. Taylor, last year's center, has returned to school and taken his

LOSING FLESH.

Are you losing flesh? If so, better consult your doctor at once. He will tell you the cause. We can provide the remedy, which is Scott's Emulsion of cod-liver oil.

A young woman in Batavia writes us she had lost twenty-five pounds in three months, and her lungs were seriously affected. She took three bottles of Scott's Emulsion and gained fifteen pounds, and was able to resume her work.

Send for Free Sample.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

elect president, Miss Annie Grant, first vice president; Miss Romania Barber, second vice president; Miss Mabel Van Fleet, secretary; Joseph Mills, class speaker, and Mr. M. J. Benson, yell master.

The new library and reading room in the B. Y. memorial building will be ready for use on Monday next. A long-felt want will thus be remedied, as most of our books have, up to the present time, been inaccessible to our students.

Last Friday's student matinee was a most pleasing affair. A large number of our students were present and a spirit of good cheer and sociability prevailed throughout the dance.

Yesterday after the basketball contest, which was indulged in until 8 p. m., when Miss Morris' recital in Barrett hall began. It was an artistic program, interesting in variety, and delightful in presentation.

Miss Sadie Heath, instructor in shorthand, has of late been made the victim of various pleasing surprises. A week ago her students united in a surprise party for her at her home. She was surprised by an exquisite copy of "Longfellow's Poems." In addition each student made a complimentary speech, and they had brought candy and nuts in such quantities that the entire day was spent in consuming these delicacies. Thursday evening she was again surprised—this time by various members of the faculty and other friends, at her home.

BRIGHAM YOUNG ACADEMY

Prof. A. B. Anderson of the Beaver branch is expected to visit the academy next week.

Prof. E. S. Hinckley is at Beaver delivering a series of lectures before the branch academy.

The regular five week Polytechnic party was given in the gymnasium hall last Friday night. Nearly 300 students were present.

The Speech Improvement club was re-organized last Saturday with Mrs. Yates as president. The society meets weekly to practice in all the various forms of public addresses. It is under the special direction of Miss Miriam Nelson, our teacher of elocution.

The members of the South American exploring expedition are about to celebrate the anniversary of their return from the south. Just what form the celebration will take has not been decided upon. There are seven members of the expedition now in school.

A mass meeting of the student body was held Wednesday morning to consider a challenge by the L. D. S. university to a debate, the preliminaries to be arranged at a later date. The challenge was enthusiastically accepted, and arrangements were made for electing the champions.

The '05 class has sent for a \$40 consignment of books to add to its library of American antiquities. This fund was the result of a recent class party held in the gymnasium. The library is growing and will be a notable acquisition by the time it is turned over to the institution.

The work in the various quorums of the Priesthood has received unusual stimulation by a series of carefully prepared pamphlets, the work of President J. B. Keeler. One series is on Church government, another on the duties of the Lesser Priesthood.

The commercial college has an unusually large attendance, necessitating the ordering of new furniture and the setting aside of new class rooms. Six new Remington typewriters were added last week to the already large equipment in the typewriting department.

Mr. Earl J. Glade, one of the leading students in the commercial college last year, has been east since the early part of last May doing work at the Rochester Business university, and later at the Zanerian Art school in Columbus, O. He returns thoroughly equipped for the position he now fills in the commercial school.

The 20 new desks recently placed in the high school give room 13 a very attractive appearance. There are now seats for 331 students, and nearly all are occupied during the day. Some students prefer, however, to study in their own rooms when these are not far from the academy.

Calls are being made by the various Bishops for young men and women to attend the class in religion—class methods in the Sunday normal school. Prof. E. S. Hinckley, president of the religion classes of the state, is the teacher. It is believed that new life and impetus will be given to this work as soon as the working idea is intelligently grasped by the teachers.

One hour's credit in theology is given to students who are in regular attendance at any class in the Sunday normal school. Teachers call the roll, require excuses for tardiness and absence, assign preparations, and hold examinations and quizzes, just the same as in the regular work of the school. The result is immediately gratifying; students are prompt and punctual in attendance, and there is a sense of interest not observed before, when the work was on the usual Sunday school basis.

Mr. Paul Henning, interpreter for the South American expedition, is still in the field, laboring as a missionary among the Indians in Guatemala, and writes that he has fortunately secured several valuable ancient relics relating to the native inhabitants, which in due time will reach the academy and be made part of the library of antiquities. Mr. Chester Van Buren, another member, is still at work in Colombia gathering botanical and zoological specimens for the museum, a large shipment of which will soon reach the academy.

Unusual interest is manifested this semester in physical culture. The instructor, Mr. W. A. Colton, has but recently returned from Stanford, where he went a year ago to prepare for this work. He has three large classes and the number in each is constantly increasing. Whether from the exercises, or from the daily shower baths, or both, the increase in the health and vigor of the students is easily perceptible. Nor are the girls far behind the boys in gymnasium work. They are

under the tuition of a special lady instructor.

A golden eagle, one year old and unusually large for its age, was recently captured in a trap near Rock Canyon and donated to the academy. It formed the most attractive exhibit in the museum last week. Pity that it cannot remain alive to exhibit indefinitely to the students its patriotic lordliness. Its doom, however, is already sealed. It is first to furnish its place in taxidermy, and then take its place among the other examples of "still life" in the ornithological cases.

The Sunday school, which has performed so conspicuous a part in the history of the academy, has been superseded this semester by a new organization known as the Sunday normal school. The purpose is to prepare the student officers and workers in all the various auxiliary organizations of the Church. There are four missionary classes, two M. L. classes, one in Priesthood work. With the exception of the last two, the classes are filled to overflowing.

BRIGHAM YOUNG COLLEGE

Logan—The college received visits last week from Hon. C. W. Sibley, Supt. Merrill of Logan, and schools, and Supt. Thompson of Cache county schools. These visitors kindly addressed the students in devotional exercises, and gave some very practical instructions.

The liquid air demonstration, at the college on Thursday, Jan. 29, displayed some very marvelous properties of the cool liquid. A great many students and also town people "took in" the demonstration with a great deal of interest.

Last Sunday night, Feb. 1, President Linford spoke in the Seventh ward on "The advantage of having an aim in life." Prof. Miller spoke in the Sixth ward on "The persecutions of the early Christians." Prof. Chamberlain spoke in Providence, his subject being: "Three years in the South Seas." Prof. Skidmore spoke in the Fourth ward on "Virtuous Discontent."

Application was made last summer to the postoffice department for entrance of the College Bulletin as second class mailing matter, and for some unknown reason the application was rejected. President Linford took the matter up earnestly and found that the College Bulletin is practically the same as many others, both sectarian and non-sectarian, which are admitted as second class mailing matter. He appealed to Senator Kearns, who was kind enough to take this up with the third assistant postmaster general. The result is that the college is very much rewarded by the efforts of Senator Kearns, who succeeded in getting our Bulletin admitted, and also a refund of the mailing expenses of the last Bulletin.

The eighth grade students of the Richmond school visited the college last week. They seemed to take a great deal of delight in visiting the several departments, laboratories, etc., and examining apparatus and material.

Miss Lillian Oliver, instructor in music at the college, assisted Mrs. Price and Miss Moseley, of the A. C. U., will give a recital in the Agricultural College on Saturday evening, Feb. 7.

Trustee Martineau visited the college on Monday and gave the students a good lively talk.

Saturday night the college basketball team will play a match game with the team of the Weber State academy. The game will take place in the gymnasium.

Bulletin No. 2, "The President's Report," is now being mailed.

Mid-year examinations are going on this week.

WEBER STAKE ACADEMY

Our library is daily increasing. The latest acquisition is a complete set of Paley's works, consisting of five beautifully bound volumes, contributed by Geo. Shorten of the Second ward. He received hearty thanks for his valuable gift from the faculty and students.

The liquid air lecture that was given under the auspices of the academy last Monday evening, at the Grand Opera House, was up to the standard in every particular as advertised. Prof. Parry was thoroughly conversant with his subject, and gave the large audience their money's worth.

Because of illness, our fellow student, Miss Mary Emmertsen has returned to her home in Salt Lake.

Monday morning was the commencement of the second semester. The following new classes were organized: Algebra, Botany, Trigonometry, Geology, Latin, Physical Geography and English I.

Our basketball team went to Logan Friday evening to meet the B. Y. college team today. This will be the first game in the series for our boys. It seems just a little curious that our ladies' team cannot get a match with some of the ladies' teams of our leading schools. Why this "trousers"?

On Thursday morning the theological hour was utilized in giving the students special instruction in practical theology and ethics. The young men listened attentively to 15 minute talks on the following subjects, by the professors named:

1. Conditions Needing Improvement, S. D. Bradford.
 2. The Importance of Interest in Studies, Wm. Z. Terry.
 3. The Relation of the Individual to the Student Body, J. G. Lind.
 4. Gentleness, Words and Actions, David O. McKay.
- The young ladies were addressed on the subjects:
1. Influence of Lady Students in an Educational Institution, Miss Jennette McKay.
 2. The Ideal Student.

- (a) In the Class Room.
- (b) In the Study Room.
- (c) In Society.
- (d) In the Home, W. M. McKendrick.

The athletic association have appointed a committee to arrange for a grand ball to be given on the eve of Friday

THE IMPORTANCE OF THE STOMACH

UPON ITS CONDITION DEPENDS HAPPINESS OR MISERY.

Perhaps one of the most frequent complaints of the stomach is constipation of the bowels, or continuous costiveness.

When your food rests so solidly on your stomach that nature refuses to remove it, and usually resort to some common physic which, while affording you some relief, acts so suddenly on the parts affected as to shock and sicken them.

THE BOWELS, like a balky horse, to work properly must be coaxed, and gradually urged to perform their functions.

The soothing action of that great Kidney and Liver medicine, DR. DAVID KENNEDY'S FAVORITE REMEDY, is gentle and delicate, yet its relief is immediate and effective.

It is of importance to every individual to use a proper remedy for CONSTIPATION OF THE BOWELS. The thousands of grateful testimonials, from both sexes, who have been completely cured by Dr. David Kennedy's Favorite Remedy, is the best evidence of the POWER AND MERIT of this wonderful medicine.

Druggists sell it in NEW 50 CENT SIZE and the regular \$1.00 size bottles. Sample bottle—enough for trial—free by mail.

Dr. David Kennedy Corporation, Rondout, N. Y.

Dr. David Kennedy's Salt Rheum Cream cures Old Sores, Skin and Scrofulous Diseases, etc.

next. It is complimentary to the visiting basketball team of the L. D. S. U., who play our team the following Saturday.

Mysterious Circumstance.

One was pale and sallow and the other fresh and rosy. Whence the difference? She who is blushing with health uses Dr. King's New Life Pills to maintain it. By gently arousing the lazy organs they compel good digestion and head off constipation. Try them. Only 25c. at Z. C. M. I. Drug Store.

DeWitt's Witch Hazel Salve.

The only positive cure for blind, bleeding, itching and protruding piles, cuts, burns, bruises, eczema and all abrasions of the skin. DeWitt's is the only Witch Hazel Salve that is made from the pure, unadulterated witch hazel—all others are counterfeits. DeWitt's Witch Hazel Salve is made to cure—counterfeits are made to sell. Z. C. M. I. Drug store, 112-114 Main Street.

RHEUMATISM

NEURALGIA, KIDNEY TROUBLE CURED BY SWANSON'S "5-DROPS"

C. L. HIGGINS, Belding, Mich., writes:—"When I commenced taking '5-DROPS' I was in bad shape. My left foot was swollen terribly. My knees were so sore I could not walk without my cane. Arms and shoulders were so lame I could not take of my coat. My kidneys were in bad shape and the cords and muscles in my neck were so stiff and sore I could not look up. They raised me so much that I could not sleep. Now after using one-half a bottle '5-DROPS' the swelling is all gone out of my foot, hands and knees and my shoulders are loosened up and my neck is all right."

J. W. CROOK, Xenia, N. C., writes:—"Some time in November I was suffering with Rheumatism; was not able to get up or do anything at all, and was almost bent double with pain. I tried several different remedies and was treated by various doctors, but got no relief until I began using your '5-DROPS,' which has made me feel like a new man."

It does not matter whether you are suffering from Inflammation, Nervous, Muscular or Articular Rheumatism; whether your whole system is full of uric acid, whether every part of your body is aching and every joint is out of shape. Swanson's "5-DROPS," if used as directed, will positively give instant relief and make a permanent cure. "5-DROPS" is an internal and external remedy combined, and will give quick relief to the sufferer by application to the afflicted parts, and a permanent cure is being effected by its use internally.

Neuralgic pains cease at once when "5-DROPS" is used. Nothing else ever discovered will afford such early relief or effect a cure so quickly. In Neuralgia the nerves are inflamed, they throb and shoot from congestion and arrested circulation. "5-DROPS" hastens circulation, quiets the nerves and the pain stops.

You, who are suffering from Kidney Trouble or Liver Complaint will find a positive cure in "5-DROPS." It is the most effective remedy ever discovered for these diseases. A single dose will give immediate results. It goes direct to the spot. It keeps the liver-cells properly at work. It restores the kidneys to their normal condition by removing the acids which are the cause of the trouble. "5-DROPS" is the most powerful blood purifier ever discovered.

"5-DROPS" will cure Rheumatism, Neuralgia, Kidney Trouble, LaGrippe, Colds, Coughs, Bronchitis, Lumbago, Sciatica, Croup, Asthma, Catarrh, Nervousness, Backache, Dyspepsia, Indigestion, Greasy, Nervous and Neuralgic Headache, Hoarse Weakness, Paralysis, Grooping Numbness, Sleeplessness, Eczema, Scrofula and all Blood Diseases.

FREE

A trial bottle will be mailed free of charge to every reader of this paper upon request.—Cut out the coupon and send it with your name and address.

NOTE: If "5-DROPS" is not obtainable in your locality order direct from us and we will send it prepaid on receipt of price, \$1.00 per bottle.

Large Size Bottle (300 Doses) \$1.00. For Sale by Druggists.

Ask your druggist for the "Swanson Pill," a size of the "5-DROPS" free.

SWANSON RHEUMATIC CURE CO., 150 LAKE STREET, CHICAGO.

New England Conservatory of Music. Founded 1865. Location, vocal and instrumental music, and education. George W. Chadwick, Musical Director. Pupils received at any time. For year-book address FRANK W. HALL, General Manager, Boston, Mass.

ROYAL BREAD. Wholesome and Nutritious. Ask your grocer for it. Shipped all over Utah.

PRESERVE YOUR TEETH

Good teeth and good health go together. Don't neglect, therefore, to give them proper attention. It isn't much trouble, simply clean them regularly with

IDEAL TOOTH POWDER. And a good TOOTH BRUSH.

It doesn't cost much, either. The powder is 25c a bottle. The brushes 10c to 50c each. Telephone 148.

Z. C. M. I. Drug Store, 112-114 MAIN ST. Just below the Clock Corner.

Joseph E. Taylor, PIONEER UNDERTAKER. Of Utah. Open day and night. Factory and Warehouses No 228 E. First South, 1/2 block east of Theater.

MISS ANNIE JONES,

Teacher of Beginners, Sumner School, Salt Lake City.

Greek and Latin at the University this half year.

The T. A. N. girls will give a ball on Friday night, Feb. 20.

Last Wednesday the Delta Phi elected the following new officers: John Condie, president; Riley Skeen, vice president; J. R. Smith, secretary; Sam Pitton, treasurer; T. M. Reese and Oscar Carlson, program committee.

Mr. W. O. Shuey of Berkeley, Cal., representing Powers, Higley company of Chicago, was a visitor Wednesday and Thursday.

At Zeta Gamma last night the boys engaged in extemporaneous speeches. The subjects were distributed by lot. After a reading by D. P. Howells, Fred Worlton and John Sabine led in a discussion on parliamentary usage.

Next Saturday the University Dramatic club will again present "The Amazons" at the Salt Lake Theater. The proceeds will be given to the famine fund to aid the sufferers in northern Sweden. The use of the Theater has been donated for an afternoon matinee, and an evening performance.

Bishop Abel Leonard of the Episcopal church visited the University on Thursday.

The faculty committee on discipline are Dr. J. F. Merrill, Professor D. R. Allen and Professor G. M. Marshall.

Instructor Arnold has arranged for the Rev. Mr. Graebner of the German Lutheran church to deliver an address

old place in the Champion basketball team.

An indoor baseball team has been organized and is now in condition to play any team in the city.

Mr. Wagner, stenographer for the head clerk in the R. G. W. office, has been taking a course in telegraphy with us. He says ours is the best equipped school in telegraphy to be found in the entire west.

Six new resonators, two of English style and four of American typewriter pattern, were installed this week in the department of telegraphy. The purpose is to make separate the sound of each instrument. They are used in connection with the typewriter.

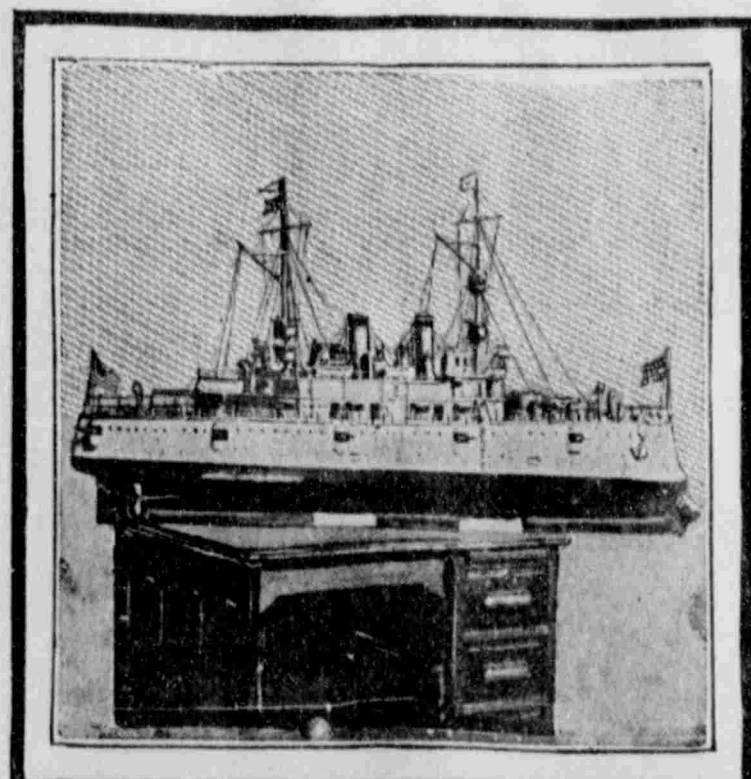

The work of the second semester has now begun in real earnest. Large classes are the rule in the first year as various sections in the same subjects have been consolidated.

The change for the better in our morning devotional singing since Prof. Kent began his work as leader, is most pronounced. He succeeds not only in getting the students to sing, but also in getting them to sing with spirit.

Friday afternoon at 4:30 o'clock, in the L. D. S. gymnasium occurred the opening game of the newly organized scholastic basketball leagues. The B. Y. A's of Provo vs the L. D. S. team, for the championship of Utah.

A strong class organization has been perfected by the first year students—the class of '06. H. G. Richards was

NAVY YARD WANTS BOY GENIUS.

LITTLE JIMMIE WESTON'S MODEL OF THE OLYMPIA

Little Jimmie Weston, of New York, has just completed a wonderful model of Dewey's flagship Olympia. The work was executed without any outside aid. Many naval officers have examined the model and pronounce it a marvelous piece of constructive work, absolutely correct as to measurements and details. As a consequence several tempting offers have been made to the boy genius to take up work in the Brooklyn navy yard. The navy department is anxious to secure him to build miniature models.
