## TWO INTERESTING SPORTING ITEMS.

Lu Jitsu Catch-as-Catch-Can Bout Tonight at Salt Lake Theater.

BIG FIGHT TOMORROW NICHT.

Young Corbett and Battling Nelson Are Now Waiting for the Gong to Sound for Second Battle.

Two sporting events are on tap for tonight and tomorrow night, both of which are of great interest to local lovers of athletics. One takes place at the Salt Lake Theater this evening, and the other will occur at San Francisco tomorrow

The Jiu Jitsu vs Catch-as-catch-can match is the local event. The other is a twenty-round Marquis of Queensbury argument between Young Corbett and Battling Nelson, Both events will un doubtedly draw heavy patronage, and it is onfidently predicted that the spectators will get their money's worth at each.

confidently predicted that the spectators will get their money's worth at each.

Tonight, an unknown Jap, who is said to be a competent exponent of the mysterionus Jiu Jitsu, will endeaver to convince Prof. Eddle Robinson and the rest of the white people of this city, that his of the white people of this city, that his system of attack and detense is superior to that used by the Americans, that is, catch-as-catch-can wrestling. Robinson will try to show the Japs and the rest of the world, that the American system is not to be beaten by another in existence. Robinson declares that he has trained faithfully and long for the contest, and that his physical condition is as perfect as systematic training can make it. He says if it comes to a question of endurance he will make the Jap cry quits. If it comes to a question of punishment, he will give as good as he receives.

Louis A. Sato, manager for the unknown Jap, is condent of a speedy vistory. He says his man is in the best of shape and will uncork a few dizzy and lasting surprises for the name of his man, or where he comes from and what he has done in the Jiu Jitsu line are secrets which as yet have been carefully guarded. A person asking the Japs for this infermation are greeted with "I don't know," or merely a nod and a grunt.

In the local sporting fraternity opinion as to the outcome of the contest is divided, but it was easily learned that Robinson is the favorite although the Japs and large following; men who claim to have seen Jiu Jitsu in working order, and who believe it is superior to American greeting. There are three preliminaries. Two will be straight Jiu Jitsu matches between two 155 pound wresters. The other will be a catch-as-catch-can match between two 155 pound wresters. The comes the big event, and then we will see something of the much-talked-of Jiu Jitsu.

CORBETT-NELSON FIGHT.

The battle between Young Corbett and Battling Nelson is causing almost as much excitement here as it is in San Francisco because both boys are well known in Salt Lake, especially Nelson, who really got his start to fame in this city when he beat "Spider" Welch into dreamland. It will be his first important night in which he has been made the favorite because of his easy and decisive victory over the little Denverite in their first fray.

rist fray.

It is generally believed, however, that this time Nelson will meet an entirely different Corbett; that the chubby one is in perfect condition and able to go the pace. It is also believed that Nelson's condition will not be all that could be desired because of the extremely hard work he has been forced to do to reduce his weight 10 139 pounds.

It is true that the Durable Dane is always in good condition. He has many natural advantages over Corbett when it

ways in good condition. He has many natural advantages over Corbett when it comes to strength and staying powers, but he is outdistanced in ring general-ship and accurate and hard hitting. He is very anxious to beat Corbett again, and use the victory as a lever to pry Jimmy Britt into the ring again.

Corbett will surely make a careful fight. If he loses again it is forever to the woods with him. If he is defeated he will not amount to much in the future. He wants to win from Nelson and then force Britt to fight him, so it will be seen, that James Edward has something comfing to him whichever way the battle turns. Corbett has worked for months to condition himself for this match, and he did a great many unheard of things to secure it. It is not generally known, but it is a fact, that Young Corbett had to make great inducements to Battling Nelson before the Dane would consent to meet him this month. Corbett has actually given Nelson the best part of the purse, win, lose or draw. This is an awful comedown for a champion, and yet Corbett was so anxious to secure a match that he consented to the transaction.

Carbett is loth to talk about a "hold-up," as he calls it, but admits that Nelson is gainer by his last victory. This makes Corbett downly anxious to win, as he would like to do a little dictating, as of yore.

The fighters will weigh in at 6 o'clock

"Christy," the Great Pitcher, is Getting The Literary Habit.

Persistent reports are coming out that "Christy" Mathewson, one of the great twirlers of the champion Glants, hopes to make his mark in the literary world. The Bucknell college man wields a facile pen, according to Frank Bowerman, his battery partner, and the great twirler con-

tery partner, and the great twirler contemplates writing a story entitled. "A Modern Frince." In a letter to a friend in New York Bowerman says that Christy has been collecting material for his story for some time and a well known local firm of publishers has agreed to print the hook.

The story has to do with college and diamond life, with an interesting love story interwoven. "Matty" is a studious fellow and for some time has been contributing a number of interesting short stories to magazines and other publications. Other baseball men like Anson and, Ted Sullivan have written books, but the pitching idol of New York eranks contemplates writing a story of a more pretentious nature than any that have been published from the pens of diamond stars.

with Jack O'Keefe, who won from him on a foul in the sixth round at Portland, Or. The return match was fought at Butte, Mont., and resulted in a twenty-round draw.

Of the fighters who have met defeat at Britt's hands none has ever been given another opportunity. Neither Nelson nor Corbett, who went the limit with the champion, were able to induce him to sign articles for a return match.

With the boxing game near an end in California, it appears that Britt'overlooked a speindid chance to add to his real estate holdings by refusing Nelson a return match. It would have been immensely popular and produced a lot of money.

ANOTHER KNOCKOUT FOR PETE Mexican Pug Gets Drunk and Tangles With a Burly Policeman.

This touching little story about Mexican Pete is told by the Kansas City Times: "Pietro Everetta, who has earned much notoriety and very little coin in the ring under the name of 'Mexican Pete,' broke into the losing column again yesterday. Saturday night Peter resigned his position as driver of the W. W. and went back to his old trade—demolishing booze. When Pete collects a large quantity of suds some 'Harness Bull' always interferes with his pleasure. Yesterday afternoon Patrolman August Metzinger spled Pete sleeping against a telephone pole at Twelfth street and Grand avenue and jammed his locust into his ribs. 'Twenty-three for you,' said the man that called Jeffries a coward. 'I am Mexican Pete.' The officer had evidently never heard of the man who broke all records for losing fights, as he took him gently by the arm and told him that he was under arrest. This aroused Pete's fighting blood and he rushed in and tried the flu litsu stunt, but Metzinger broke away from a clinch and walloped a right to the Greaser's jaw and the battle was over.' sition as driver of the W. WORKMEN'S DISCONTENT FED.

Each New Concession Sees New Demands - Situation in the Caucasus Extremely Bad.

St. Petersburg, Feb. 27, 1:35 a. m .-Evidence is increasing that the strikes throughout the empire, and especially those in St. Petersburg, are not economic in their origin but inspired by a definite political plan. The government and employes are embarrassed by the tactics of the workmen, whose discontent is being fed and who are increasing demands with each new concession.

This condition is believed to have been fomented, by crafty political agitators who are stirring up the men and at the same time holding them in leash, apparently waiting some signal for con-certed action. Fear is entertained that this widespread agitation may be connected with a plan to await a possible peasant outbreak in the spring, with which a general strike will be synchronized, the workmen joining hands with the peasants. The election of la-bor representatives to the imperial commission which is to investigate the causes of this discontent in St. Peters-

burg passed off quietly yesterday.

The situation in Rega is again reported to be very sirious. The authorities there apparently are unable to cope with the lawless element.

In the Caucassus the situation is ex-In the Caucassus the situation is extremely bad, practically amounting to civil war. In Baku the inhabitants barricaded in their houses are petitioning the central authorities at St. Petersburg for relief from the existing condition of affairs. The government is sending reinforcements of troops; but while these may be able to stor the while these may be able to step the reign of terror, they will be impotent to start the wheels of industry. Proprietors feel that the oil wells will be ruined if pumping is suspended much longer. Conditions in other towns in the Caucasus are equally desperate. Owing to the gravity of the situation in

the Caucasus and apprehension based on depletion of the district troops for the war, the government has appealed to the Armenian Catholics to exert their personal influence to persuade Armenians to cease their excesses. The Cathhorted people to remain tranquil

Italian Railway Employes Carry Out Rules Literally.

Rome, Feb. 27.—In order to escape the penalties of striking, the rallway employes throughout Italy have engaged in a harassing system of literal and exaggerated obedience of rules and orders which is having the effect of badly crippling traffic, provoking indignation on the part of the public. The effect has been the cancellation of some trains and delays of others. The passenger traffic has been, in consequence, reduced to about 60 per cent, at a time when the tourist season is at a time when the tourist season is at its height. The employes demand cer-tain concessions from the railroads and the repeal of the law prescribing severe punishment for railway em-ployes who engage in strikes.

#### DON'T WANT UNITED STATES TO INTERFERE IN VENEZUELA

New York, Feb. 26.—John L. Andara, former judge of the supreme court of Venezuela, and later foreign representative of the unsuccessful revolution against President Castro in 1903, who has just arrived here from Curacao, comes to urge the United States to refrain from interfering in the affairs of Venezuela until a revolution now be-ing organized shall have deposed Cas-tro. In an interview Judge Andara said:

"We believe that if the United States interferes at the present time, it will

create a complex situation. In Venezuela both the National and Liberal parties are against Castro, and we are confident we can overthrow him ourselves and save the United States from a possible unpleasant affair. I believe that all foreign nations look to this The tension in the Warsaw railway situation has been greatly relieved by the settlement of this strike. ## Rheumatism

Rheumatism, one of the most painful of all diseases, is caused by an excess of uric acid in the blood and attacks the joints of the ankles, knees, hips, elbows, wrists and shoulders-even the fingers, toes and soles of the feet. It often attacks the neck, the back and most dangerous of all, the heart. The disease is accompanied by the most excruciating bone pains and soon causes the joints to become stiff and practically useless.

Botanic Blood Balm (B. B. B.) reaches at once the internal source of the malady and counteracts the acid condition of the blood, dissolves and dissipates the rheumatic poison, relieves the pain, lubricates the joints and builds up the whole system. The fearful ravages of the disease are remedied and the sufferer gradually regains the strength and vigor of perfect health. It cures the most obstinate, long-standing cases where doctors, hot spring treatments and all other remedies have failed.
