On Saturday afternoon intelligence reached this city that a wreck had occurred on the Oregon Short Line, between Soda Springs and Pocatillo, Idaho. On Friday evening about 7 o'clock, near Lava, the work train was backing swiftly through the caffon, the work hands being seated on the top of a box car. Suddenly, out came a cow from the willows on to the track and before any warning could be given or the brakes applied the animal was struck. Mr. Holman's bill to suspend the operation of the public lands laws, which formed the subject of my last letter, has not yet emerged from the room of the committee on public lands, where it was sent at the time of its in-

troduction. Whether it will be passed by the House of Representatives or not is an open question, some members expressing the opinion that it will, while others assert the contrary. One member of the committee is atrongly inclined to the opinion that the bill will be defeated in the committee room, and those paving the interests of the great Northwest at heart should hope that his opinion will prove correct.

A case was decided by the Assistant Secretary of the Interior a few days ago which illustrates the theory that it is good faith that counts in perfecting entries under the pre-emption and homestead laws.

Lafayette Grim, of the Niobrara land district, Nebraska, filed his declaratory statement May 25, 1886, alleging settlement the day before. He established an actual residence on the land lished an actual residence on the land with his family June I, following:

On January 11, 1887— seven mont is and ten days from beginning residence— he submitted his proof and offered payment for the land, the proof showing that his family had been continuously upon the land from the date when the residence thereon was first established, but that Grim had personally been absent from the land at work for two months during the time. The total value of the improvements was \$35.

The register and receiver rejected the proof and refused to allow him to enter the land on the ground that his im-

ter the land on the ground that his improvements were so meagre and because the law does not permit absence from the land during the six months preceding proof. This decision was affirmed by the Commissioner (Sparks) of the General Land Office, and the filling was held for cancellation.

On appeal, Mr. Muldrew, Acting Secretary of the Interior, found that the improvements, as described by the Claimant and his witnesses, were quite as good as those usually made by preemption claimants, and that the furnishing of his house indicated an intention to make a permanent home, and that the valuation of the improvements at \$35 was very modest; so, in view of the evident good faith of the claimant, he ordered the final papers to issue.

From this it is to be inferred that the From this it is to be inferred that the Department will not permit the fixing of a minimum of improvements, and that officers in passing upon the sufficiency of proof must use discretion, and act in each case in accordance with the law and the facts so that justice may be done to all; in other words, they must, like the Mikado, in Gilbert and Sullivan's operetta, "let the punishment fit the crime."
