Forty babies were entered for competition in the baby show at the recent Cincinnati Fair.

The papers of New Orleans are complaining of the heavy crops of grass and weeds growing in some of the streets.

An English editor cautions his tall readers against kissing short women, as the habit has rendered him exceedingly fat.

Experience in Virginia demonstrates the fact that a man can sleep four minutes to go to sleep after taking a nap in the box.

Never attempt to kill a mosquito while eating in a Chinese restaurant in Fair Haven, Connecticut, broke three ribs and received other injuries, the other night, while attempting this little game.

There is a colored man in the Michigan Penitentiary who has been there ten years for murder, and he now insists that Lincoln's proclamation set him free, and he is now attempting to let him out.

A woman traveling on the cars saw a man in front of a shop looking out a window. She asked him what he was doing, and he said he was looking at her. She had a new silk dress on, and didn't want it all spotted up with brains and blood.

Thomas King, a citizen of New York, got into the habit of sleeping on the roof of his residence during the hot weather, and the other night rolled off and fell a distance of four stories to the ground, instantly killing himself.

Becher's Lohocin is the best remedy for all kinds of insects. Wet it on the place where the insect is, and in one moment you are all right.

A German named Adam Eberling, while walking in a park near New York, was attacked by a number of dogs and killed. The unfortunate man to pieces, his entrails being torn from his body.

One of the female "freshmen" of the Michigan University gave a striking proof of the superiority of her sex the other day, by asking a professor to explain a point which she understood, but the gentleman over there "do not."

The other night, a jealous husband, at Cincinnati, falling in an attempt to blow his wife's head off with a revolver, turned the weapon upon himself, and fractured his skull in a fearful manner. He was a native of Germany, and had only been married three weeks when he was sent to prison for assault and battery.

On a window pane at Danaville, Ky., is a true figure of an arched rainbow, about twenty-four inches in length, and two inches in width, with all the colors of the rainbow plainly visible, same as in nature. So permanently is the imprint made that it cannot be erased by washing with soap and water.

The losses by the floods in Virginia amount to more than five millions of dollars, as nearly as they can be estimated in money. But some of the destruction produced by the untoward rising of the waters can hardly be estimated in money value. The detriment to progress in a small way which will bear hard upon many a struggling farmer and humble business man—the check put upon the advance of many a poor household just recuperating from the blows inflicted by the late summer floods—cannot be estimated.

It is a season when it is most difficult for unfortunate people in either town or country to rally. Those who have taken into consideration should develop the most active efforts for giving the sufferers such relief as will enable them to make immediate repairs in their occupations and business and place them once more fairly on the path which leads to peace and independence.

Every little boy and girl may do a great deal for the heathen, a few cents a week from each one would make them independently rich. Every time you get some pennies to purchase cake, or taffy, or a new book, take half of them and give the other half to the poor. At the end of the year you will be surprised to find how low your missionary fund has fallen.

A certain judge, while attending court in a shire town, was passing along a road, when a boy was just letting down the bars to drive some cattle in. His father stood in the door of his house, on the opposite side of the road, and seeing what his hopeful was doing, shouted out:

"John, don't you drive them cattle in there; I told you to put them in the pasture behind the house."

The boy took no notice whatever of the remonstrance, and his father repeated the order in a louder tone, without the least effect, and the third time gave orders to the boy to drive the cattle in there.

Anticipated Election Squabbles
in New York.

ENGLAND CONTINUES HER EFFORTS AT REDEMPTION, WHICH ARE NOT APPRECIATED BY FRANCE!

NEW YORK.
Election matters—Shipwreck.

New York, 25. The eighth regiment of United States Infantry is expected to reach this city next Monday from Charleston, S. C., from which place it is expected to sail in transports on Saturday night.

A trustworthy dispatch says that the disposition of the English Cabinet is to adjust the fishery question at issue, in a manner satisfactory to our Government.

Accounts of the disasters at sea, caused by the terrible gales of a few days ago, come to hand. The list of lost vessels increases. We have already received reports of sixteen wrecks on the Florida coast, including the New Orleans and New York steamer Mariposa, which is probably a total loss.

The Republican, of Charleston, S. C., publishes a statement that the Republican party is thoroughly victorious, making a clean sweep of the State by twenty thousand majority on the Congressional ticket, and electing more than two thirds of each branch of the Legislature; also that they have succeeded in at least nineteen of the thirty-one counties of the State.

The Charleston Courier, on the other hand, insists that a fair count of the votes would show a majority for the opposition ticket, but that a count of the votes would show a majority for the Republican ticket, but that a count of the votes would show a majority for the Republican ticket.

A special dispatch dated Washington last evening, says: The dispatches received here from New York, giving details of resistance to the United States officers in their duty of enforcing the laws of Congress, created quite a breeze for a full day.

Attorney General Sherman left for New York to-night, and will investigate the facts to-morrow. The people of New York may rest assured that the laws will be enforced, and that the United States officers will be protected and sustained in the execution of their duty.

FOREIGN NEWS.
A GREAT BRITAIN.
Tours.—The Franco-German says an armistice is not yet concluded, but the hope is entertained of peace. All are surprised at the attitude of England, she having paid no attention to what she suddenly does more than to what she has.

She takes the initiative and proposes an immediate suspension of arms to allow the election of men to the Constituent Assembly, which may make peace. In this action, does England listen to the general interest to considerations of policy and humanity?
