## MILITARISM AT CAMP BLACK HAWK

Guardsmen Win Praises of the  
Regulars for Splendid  
Drill Work.

GUARDHOUSE IS STILL EMPTY.

News of Jeffries-Monroe Fight to be  
Given by Flashlight—Inter-  
esting Lectures.

Special Correspondence.  
Camp Black Hawk, Aug. 24.—The  
guardsmen got down to splendid and  
effective drill work yesterday and to-

MAJOR WILLIAM G. WILLIAMS,  
Popular Young Officer of the Utah National Guard.

day. The regulars gave an exhibition guard mount drill yesterday morning which was inspected with interest by the militia boys. The officers, commissioned and non-commissioned, from Fort Douglas, take an active part in giving instructions during the drills, which consist of the extended order or battle formation. The drill yesterday was mostly by squads and platoons, but today company and battalion drill was introduced.

Dr. Milton Vaughn, contract surgeon of the Twenty-ninth regiment, U. S. A., last night delivered his first lecture on "Camp Sanitation" before the officers. Other lectures will follow. Capt. Jamerson will also deliver several lectures, his subject being "Rear Guard and Outpost Duty."

The signal corps are making the necessary arrangements for sending news of the Jeffries-Monroe fight from Provo to the camp on Friday evening by means of flash light signaling.

There will be a variation in the program tomorrow. The guard will start out at an early hour in the morning.

## CROP BULLETIN.

Grain of All Kinds Above Usual Yield,  
Especially in Quantity.

The local weather office publishes today the crop bulletin for the week ending last evening as follows:

Cool, cloudy weather prevailed generally over the state during the week. Temperatures were below normal, being especially low during the closing days of the week, when freezing temperatures and white frost occurred in many exposed and elevated localities. Potatoes and tomatoes were severely frosted. The general thunderstorms and rains were also a feature of the weather this week. A very few observers reported as little as a trace of rain, and many reported excessive rains. Flooding occurred, to the injury of fields and crops in scattered places.

That's all, and all very easy of diges-  
tion and full to the brim with nourish-  
ment and strength.

and will march five or six miles, taking  
their arms and camp equipments, and  
uncooked food enough for one meal,  
which will be prepared and eaten at the  
temporary camp. After dinner the  
guardsmen will march back to Camp  
Black Hawk.

The guardhouse has as yet had no  
occupants. The camp has been order-  
ly, throughout. There was an unwar-  
ranted rumor yesterday that a couple of  
the guardsmen had quarreled to a pas-  
ture, a little distance from the camp, to  
settle to little personal difficulty by the  
arbitration of pugilism. No badly  
damaged physiognomies have been seen  
in camp however.

A man by the name of Jones or  
Smith, a civilian cook employed at the  
camp, was yesterday brought to the  
hospital tent for repairs. The man is an  
unfortunate in being  
subject to epileptic fits, and  
greatly adds to his misfortune by  
partaking freely of "booze." As a re-  
sult, he fell over a guy rope and lacer-  
ated his face on a tent pin. He was  
patched up in good shape, and if he re-  
forms from intoxicants, will doubtless  
be all right in a day or two.

Walker and Smalley of the hospital  
corps are sorely tried with the per-  
verseness of a couple of discarded U.  
S. A. mules, which it has fallen to their  
lot to handle.

Adj. Gen. C. S. Burton is expected in  
camp this evening, and it is hoped that  
Gov. Wells and staff will be here on  
Friday. On governor's day, time ser-

and his wife, nee Miss Lucile Ferrin;  
also, Prof. Harry Harlow Brooks of  
Bellevue hospital, New York, who was  
a student at Ann Arbor with Prof. Mc-  
Clellan. They came up into the choir  
after the recital, and expressed their  
pleasure with the performance and at  
meeting Prof. McClellan once more.  
There will be a classical program to-  
morrow afternoon, as usual.

## SHE IS IN POSSESSION.

Mrs. Catherine Walker of This City  
Jumps Ohio Farm.

According to a story which appears  
in a recent issue of the Ohio State  
Journal of Columbus, Ohio, Mrs. Cath-  
erine Walker, assisted by Mrs. Ella  
Phelps, both of this city, has taken  
forcible possession of a farm near that  
city, to which she claims to be the law-  
ful heir. The farm was owned by her  
grandfather, and she is now the only  
living heir to the same. She did not  
learn of that fact until about four years  
ago, and by that time the farm had  
been sold for taxes. She has been  
fighting for her rights ever since, and  
becoming tired of waiting for the courts  
to give her possession, she has forcibly  
entered upon the same, and is now liv-  
ing there in a tent, and is protected  
by two men who guard her night and  
day. The Journal relates the story  
as follows:

"This is my farm, and I am going to  
live here," said Catherine Walker to  
Charles Bowers yesterday.

"If you put up your tent I'll tear it  
down," said Mr. Bowers.

"That tent is worth \$4,000, and if you  
tear it down it will be over my dead  
body."

"Well, if that's the way you feel you  
can put your tent there," said Bowers,  
pointing to a spot of ground.

"No, no, no, no, no, no, no, no, no,"  
she replied, pointing to a little knoll. "This  
is my farm, and here I am going to stay."

And the tent went up and Mrs. Wal-  
ker stayed.

The conversation took place yester-  
day on a farm of thirty-two and one-  
half acres, situated near Marble Cliff,  
now occupied by Charles Bowers, who  
holds the place as a tenant of J. W.  
Baldwin, the owner of the title.

Mrs. Ella Phelps has made four  
trips to this city, each time bringing  
the Walker woman with her. On one of  
these trips she says she was offered  
\$1,000 for the title to the property, but  
refused it.

She says she has been advised to  
camp on the premises and make a final  
and supreme test for the recovery of the  
farm.

With that advice in view she yester-  
day bought a tent, a cot and bedding  
and a stove, and went out to the farm  
and proceeded to erect the tent for her  
people on the grounds.

The tent is located a few feet from  
the house occupied by Mr. Bowers, and  
she stayed there last night. Two men  
have been hired to guard her, one of  
whom will be on duty in the daytime  
and the other at night.

Mrs. Phelps said that the question  
of the missing heir and the right to  
the property will now be fought to a  
finish. She told Mr. Bowers yesterday  
that the agent of the farm, Mr. Gugle,  
had told her that he (Bowers) had never  
paid any rent, except 60 bushels of  
oats, and that statement was not tend-  
ed to conciliate Bowers to the land-  
lord. Mrs. Phelps says she had been  
accused of fraud and everything else  
in this affair.

"But I'll show them whether it is  
fraud or not," she said, emphatically.

A survey of the ground was made  
yesterday at Mrs. Phelps' suggestion,  
and the land lines correspond with the  
lines of the deeds and will.

Yesterday evening a warrant was  
sworn out before Magistrate George  
Lakin of Perry township, charging  
Mrs. Phelps with trespass, the hearing  
to be Saturday morning at 10 o'clock.  
Mrs. Phelps was not put under arrest,  
but was notified, and says she will be  
there. As she was the instigator of  
the camping, she was held account-  
able.

vice medals are to be issued to officers  
as follows:

Eight-year medals—Col. Clayton,  
Lieut. Col. Lund, Lieut. Col. Green-  
wald, Capt. Webb and Capt. Smith.

Five-year medals—Brig. Gen. Cannon,  
Capt. Kammerman, Capt. Call, Capt.  
Grove, and Lieut. Skidmore.

Battery A had target practice yester-  
day afternoon, and fired 16 shots at  
a target out in the lake, nine feet long  
and six feet high, with a bull's eye 16  
inches in diameter. The distance was  
900 yards, and nine hits were made.

The signal corps operates a flash light  
signal, which can be seen at night at  
a distance of 32 miles. The light is some-  
times operated for the benefit of travel-  
ers and from the lake; sometimes it is  
acceptable and at other times some-  
what objectionable, as it is testified to by  
Capt. Smeltzer and others.

Promotions have been made in the  
signal corps as follows:

Sergeant W. C. Price to be first class  
sergeant, Corporals Harry Pitts and  
J. H. Walsh to be sergeants, and Pri-  
vates B. P. Bull, Jr., and R. J. Alford  
to be corporals.

There were a few slight showers yes-  
terday. Otherwise the weather during  
the encampment has been quite pleas-  
ant. An extra blanket, however, was not  
uncomfortable the first two nights.

Many tons of lucern in the swath  
and shock were soaked and discolored,  
and some completely destroyed.

Grain suffered locally from rains but  
marked absence of hail and high winds  
was gratifying to grain growers; only one  
instance of grain being injured by hail and  
wind having been reported.

Most of the fall grain was in stack, and  
a great deal of the spring grain was not  
yet sown. The condition of this staple  
was very limited. Notwithstanding the  
generally bad weather, harvesting of  
spring grain was becoming more general,  
and threshing continued generally. Re-  
ports from scattered southern valleys in-  
dicate the completion of the harvest.

Grain of all kinds is above the usual  
yield, especially so in quantity. Lucern  
generally is a good crop. The second  
cut is being gathered in many localities,  
and the third crop has reached matu-  
rity in the southern counties. The weather  
has kept the men out of the fields. The first crop of lucern that  
was left for seed is now gathered and  
splendid returns are being realized.

Sugar beets continue thrifty. The crop is  
very near maturity, and is especially  
well. The condition of the beets and melons  
is abundant. Apples are very fine, and  
generally free from disease. Vegetables  
of all kinds are doing well.

The range was given a  
splendid impetus by the recent rains, and  
where it has not been overstocked, prom-  
ise to furnish much winter feed for cattle.  
Stock are reported fat. Irrigation water  
is abundant, though few crops will need  
further watering.

Beautiful Women.

Plump cheeks, flushed with the soft  
glow of health and a pure complexion,  
make all women beautiful. Take a  
small dose of Herbine after each meal;  
it will prevent constipation and help  
digest what you have eaten. 50c. Mrs.  
Wm. M. Stroud, Middletown, Texas,  
writes, May 21, 1901: "We have used  
Herbine in our family for eight years,  
and found it the best medicine we ever  
used for constipation, bilious fever and  
melancholia."

LARGE CROWD ATTENDS.

Tabernacle Organ Recital Brings Out  
Many People—Fine Program.

The attendance at Saturday's organ  
recital entirely filled the great gal-  
leries. The program included "Prelude to  
Tristan and Isolde," an "Allegretto" by  
Wolstenholme, the Mendelssohn  
"Spring Song," the "Last Rose of Sum-  
mer," and Kinder's fantasia on the old  
hymn "Duke Street." The "Last Rose  
of Summer" called for an encore, which  
the organist responded with "Annie  
Laurie." The entire program was well  
received. There were many Knights  
Templar excursionists present, and with  
them had come, perhaps 100 of  
them got up during the first half of the  
final number to leave the house "be-  
fore the rush." They found themselves  
"up against it," however, on reaching  
the doors, for the doorkeeper would not  
let them out, and there they stood "like  
patience on a monument, smiling at  
grief," until the last notes of the final  
measure died away. The organist  
caught on to the situation, and prom-  
ptly prolonged the finale in order to  
let the "disturbers of the peace" get  
the most of the standing act. Among  
the audience were Dr. John H. Sharp

## Mr. Otto A. FLEISSNER'S KIDNEYS WERE SOAKED WITH CATARRH.

Pe-ru-na Promptly Cured Him.

MR. OTTO A. FLEISSNER,  
468 Court St., Brooklyn, N.Y.

Mr. Otto A. Fleissner, late Chief of Col. W. J. Cody, (Buffalo Bill),  
468 Court street, Brooklyn, N. Y., American Epicurean, writes:

"I suffered with kidney and bladder trouble until life did not seem  
worth living. I had tried many medicines but did not get any re-  
lief until I took Peruna. It was really wonderful how much better I  
was after I had used this medicine only a week. I did not expect that it  
would help me permanently, but as long as it was doing me good I con-  
tinued to use it. At the end of six months I found to my relief, that it  
had rid my system of all poisons, and that I was cured to stay cured. You  
certainly have a splendid medicine and I gladly endorse it."—Otto A.  
Fleissner.

Catarrh of the Kidneys a Common  
Disease—Kidney Trouble Often  
Falls to Be Regarded as  
Catarrh by Physicians.

Catarrh of the kidneys is very com-  
mon indeed. It is a pity that this fact  
is not better known to the physicians as  
well as to the people.

People have kidney disease. They  
take some diuretic, hoping to get better.  
They never once think of catarrh. Kid-  
ney disease and catarrh are seldom as-  
sociated in the minds of the people, and  
alas, it is not very often associated in  
the minds of the physicians. Too  
few physicians recognize catarrh  
of the kidneys. They doctor for some-  
thing else. They try this remedy and  
that remedy. The trouble may be cat-  
arrh all the time. A few bottles of  
Peruna would cure them.

Thousands of Testimonials.

Thousands of testimonials from peo-  
ple who have had kidney disease which  
have gone beyond the control of the phys-  
ician are received by Dr. Hartman ever  
year, giving Peruna the whole praise  
for marvelous cures.

Samples of Carpet Rugs.

ALL KINDS and quantities from all wool ingrain  
one yard square to the finest Bigelow Wilton  
manufactured. Most of these manufacturers'  
samples are either leather-bound or fringed, and make  
excellent rugs.

The prices are about 15 per cent less than manu-  
facturers' cost.

We advise early calling, as the prices mean quick  
selling. Consider—all wool ingrain carpet, worth 85  
cents for 29 cents; and one and one-quarter yard of the  
best Bigelow Wilton, worth \$3.50 a yard, for \$2.29.

"The servant question," said Alice  
Stone Blackwell, secretary of the Woman's  
Suffrage association, "is always  
interesting. Odd phases of it are con-  
stantly turning up."

"A housekeeper, the other day, nar-  
rated to me a piece of lippancy that  
had been perpetrated on her by her par-  
lor maid."

"This maid, it seems, was careless.  
She was always breaking something.  
Now a vase, now a plate, now a bowl  
would drop from her heedless hands,  
and crash into a thousand pieces on  
the floor. Things came, finally, to such  
a pass that there was nothing for it  
but to deduct from her salary the value  
of the objects she destroyed."

"One week she was destructive be-

What am I to do?"

"I don't know, ma'am," said Mary,  
"unless you raise my wages."
