ELIJAH JAMES R. ANDERSON

was first called upon to address the congregation. He said he realized to some extent the responsibility resting upon him as a servant of the Lord in bearing his testimony to the truth.

He was thankful for the opportunity he had in again associating with his brethren at home, and he was anxious to let them know what he had had in traveling about as a missionary.

He had been in Great Britain in that capacity and he had felt blessed in the work both in the field as a preacher of the gospel and when laboring in the printing house.

He now through his own experience testify to the fact that the Lord sustains those who put their trust in Him. The speaker had visited the various countries in Great Britain, and in the principal cities of the gospel, but we also meet with some who are willing to listen to the testimony and render obedience to the word of God, notwithstanding the opposition of the missionaries.

The speaker had during his absence realized the great truth that the kingdom of God was not of this world. It does not depend on the world for its existence.

There is a contrast between the world and the church of Christ.

They are the children of God, because they are not of the world. They are called out of the world, in order to bear fruit that may remain.

The speaker further dwelt on this thought and explained the great difference between the world and the kingdom of God. He then testified that the power of the Almighty rested upon the missionaries, and that their work was not without fruit.

The Lord has established this work and the other work of the missionaries.

It was the next speaker, Mr. Anthon, who addressed the congregation. His day was unexpected, but he wished to be guided by the Holy Spirit in his remarks. He had felt comfort in presenting his testimony as the presiding elder, for it is always comforting to have the Lord's faithful in His presence and among His servants.

It was also pleasing to him to have an opportunity of bearing a testimony to the truth of the gospel as revealed in these latter days, to parts of the spectrum which have not been seen before.

He said, "I pray that the testimony may be strengthened and the saints stand always faithful, never indulging in anything that is calculated to destroy their faith in the gospel.
