NEW YORK, 1.—The struggle against Mr. Conkling in the republican ranks of this State still continues without abatement. The selection of delegates to the State Convention is now nearly completed. The country districts is where the anti-Conkling element has gained great ascendancy, and the indications now are that the delegation from this city will show also a percentage of the same following. In Brooklyn the Stewart branch will not be able to muster more than half a delegation, which is a very significant fact, and taken with the condition of affairs here, will have a marked effect upon the outcome of the convention. The action of the Fifth Judicial Convention of Syracuse, where the contesting Conkling delegates from Onondaga county, were unanimously bounced, is deemed by those closely familiar with the condition of political matters in this State, as pointing unmistakably to the same fate which meet other Conkling delegations, and that the State Convention will be governed largely by the action of the Judiciary Convention. The anti-Conkling men are certainly at present taking the State. They are largely in the majority.

A dispatch from London says: Later details concerning the attempt to blow up the residence of Captain Lloyd, at Palace Green, show a cask containing 25 pounds of powder was placed immediately behind the room which Captain Lloyd usually occupied. The explosion occurred at 3 o'clock a.m. It shattered the outer wall, three inside walls and the roof. Two occupants of the house were injured, but will recover.

Herald's Dublin: The following is the text of an important manifesto on the subject of the state of Ireland, which was issued by the Catholic hierarchy of Ireland after their meeting at Maynooth College. Seventeen archbishops and bishops were present at the conference:

"Influenced by the same deep solicitude for the welfare of their flocks which moved them at their last general meeting in April, to solicit government to amend the land bill, which was then before Parliament, the bishops of Ireland consider it their duty to declare at their present meeting that the new land act is a great benefit to the tenant class and a large installment of justice, for which the gratitude of a large portion of the country is due to Mr. Gladstone and those who helped him carry this measure through Parliament. The bishops earnestly exhort their flocks to avail themselves of the advantages derivable from this act, believing if rightly used it will bring present relief and help them to obtain their rights, social and political, which they justly claim. The bishops would also urge tenant farmers to use the means provided in the land act and every other means in their power to improve the condition of the laboring class.

The bishops avail themselves of this opportunity to call on their clergy to guard their flocks against all secret advances of violence and intimidation, which can only become enemies of the people, and to the laity to prove the love they bear their country and their faith by seconding the clergy in the suppression of all anti-social and anti-Catholic abuse; also by removing as far as is in each one's power the stigma which our enemies have sought to put upon the people, that they will not pay their just debt, which they are bound to do.

The bishops unite with people in urging on the government the release of those who are still imprisoned, hoping that such a measure will contribute no little to the peace of the country.

CHICAGO, 30.—A contractor who removes the bodies of the dead animals, complained to the mayor today he couldn't get enough teams to bury horses which have died of pinkeye. The express companies, omnibus lines and the street car companies are the chief sufferers.

The city council to-night changed the name of Sophia Street to Garfield Avenue. The board of education decided to name a public school the Garfield School.

WASHINGTON, 30.—Senator Mahone has written a friend here he will find it very inconvenient and

will not be able to remain more than a day or two at the special session. Hutton and other democratic politicians are of the opinion he will not be present at the opening of the Senate, because it would be a serious source of embarrassment for him to vote either for the democratic organization or the republican.

LOUISVILLE, 30.—Little Brown Jug made a mile in 2.13, easily.

ST. LOUIS, 30.—The Confederates, at their reunion at Moberly, Missouri, adopted resolutions expressing themselves in full sympathy with the nation's grief for the untimely death of President Garfield, and offering heartfelt condolence and prayer for the stricken family; deprecating the growth of the seeds of assassination in the land; denying that any ex-Confederate soldier desires pension from the federal government or any State; re-affirming their acceptance of the settlement of the issues of the war; denouncing train robbers, and calling for the extermination of that class of criminals.

CHICAGO, 3.—The *Times*' Washington special says: From trustworthy sources our correspondent has learned the true history of what has called Mr. Arthur to New York, and has had also indicated some results that will probably follow this visit. In the first place, Mr. Arthur did not go to make a new Cabinet, although it is believed he will make a clean sweep of Gen. Garfield's advisers when the proper time comes. Mr. Arthur went for the main purpose of seeing what could be done to harmonize the republican factions in that State. It has been represented that he can, by fair treatment, harmonize the elements of his party, and from the start has professed an entire willingness to do all he can. It is among the probabilities, if the present plans succeed, that Robertson will be allowed to remain in his office as collector, while the half breeds are to be given such consideration as to insure their support of the administration. Nearly all the stalwart leaders are now in New York. It is understood that Senators Jones and Logan, Simon Cameron and others, favor a cessation of the fight inside the party. Mr. Arthur, who is regarded as one of the best politicians in the State, has now unusual facilities for healing old wounds, and if the reports are to be credited, he has already a good prospect of success. As matters now stand, Mr. Conkling is not to be offered a place in the Cabinet. It is felt that his selection as a Cabinet officer would be too unpopular a man to make. It is considered very desirable, however, to aid Mr. Conkling to return to public life, and in such a way that his return shall be permanent. How to get him back is one of the problems of the present New York situation. Judge Lapham has signified his willingness to resign and make a place for Conkling, with the understanding that it is to be made up to him. If he does resign, he will probably be offered the post of Attorney General or else a leading foreign mission, but in case of his retirement, Mr. Conkling might not be any nearer the accomplishment of his real purpose, a secure tenure in the United States Senate. If he were to be appointed by the governor, there is now no certainty that the republicans could carry the legislature this fall, so he would

have no security for any real time. One way out of this difficulty is to have Governor Cornell invent some pretext for calling the legislature together in special session. In all this there is also another element, the Treasury management is to change hands. Mr. Arthur has decided to consult with some of his capital friends in New York, about this. Some years ago, Jno. Sherman, branded Mr. Arthur as a dishonest man, and denounced officially, Mr. Arthur's management of the New York Custom House as corrupt and dishonest. Mr. Arthur's turn has come to return the compliment, and he does not propose to forget his advantage.

TORONTO, 30.—A special cable to the *Globe* says: Well founded rumors are going about that the Marquis of Lorne will return to England after the close of the coming season in the Canadian Parliament, and will then be called to the House of Lords.

Several ambulance wagons which left Athlone barracks with police and soldiers for Shanon Bridge, County of Westmeath, to protect approaching serving of writs, were obliged to return, the meeting being broken up and obstruction placed upon them. Boycot, protected by police, was in West Port Tuesday, and was followed by a mob during the whole time and his effigy was afterwards burned.

PARIS, 30.—At a sitting of the Electric Congress, a question was raised in regard to the rights of property in submarine cables. At present no government has jurisdiction more than three miles from the coast, and the cutting of cables beyond that distance is not a criminal offense. The suggestion of the French minister of ports and telegraphs, that representatives on the subject be made from the different governments, was agreed to.

LONDON, 29.—An attempt was made to blow up the residence of Capt. Thos. Moyd, at Polls Green, County Limerick. The residence was occupied at the time by Capt. Moyd and 17 emergency men and police. One side of the building was shattered by dynamite. Nobody injured.

AN ATROCIOUS FALSEHOOD.

WHILE the newspapers generally give the facts in relation to the "Mormon" memorial services in honor of President Garfield, it remains for the eminently pious religious journals to continue their work of falsification and to distinguish themselves for shameful calumny. The following from the *Watchman*, the Boston organ of New England orthodoxy, is about the boldest piece of unadorned and unclothed lying that we have seen for some time:

"It is an interesting fact that on the day set apart for prayer for the President * * * the *Deseret News*, organ of the Mormons, declared that the 'Praying Circle' of the Mormon Church was engaged in continual supplication for the death of President Garfield."

If the *Watchman* can produce anything of the kind as an assertion or admission of the *Deseret News*

either on the day named, or at any other time, we will agree to regard the Boston religious paper with some degree of respect. As it is we hold it up to the gaze of the public as a wilful and despicable liar, bearing false witness against its neighbor without the slightest reason or excuse for its malicious slander. The files of the *Deseret News* are open to the *Watchman* or any of its agents or supporters to search for the statement which it alleges appeared in our columns, but which we maintain was fabricated in Boston, with the vile intent of deceiving the public and arousing prejudice against a body of worshippers who do not agree in creed with the notions of the *Watchman*. The devil himself could not invent a more atrocious untruth than the sentence we have quoted from that pharisaical sheet.

Catarrh of Eleven Years' Standing Cured in Three Months.

The President of the Wisconsin State Normal School, Mr. Wm. D. Parker, says, in a letter to Drs. Starkey & Palen, under date of September 4th, 1879: "After enduring post-nasal catarrh for eleven years, at times greatly annoyed and sickened by the abundance of the secretions, in the full belief that catarrh is incurable, I procured your *Compound Oxygen*, and after three months steady application the secretion wholly ceased and has not yet returned, six months having elapsed since I used the *Oxygen*. I therefore commend your specific to the thousands of sufferers from catarrh with its attendant ills. I shall take pleasure in testifying for the benefit of any inquirers." Our Treaties on Compound Oxygen, which contains a large number of testimonials to remarkable cures, is sent free. Drs. STARKEY & PALEN, 1109 and 1111 Girard St., Philadelphia, Pa.
