R. H. ROBERTS' LECTURES.

Elder B. H. Roberts delivered a most forcible lecture yesterday afternoon at the Ogden tabernacle before a very large congregation on the Book of Mormon. He showed that it was the word of God to the inhabitants of this western continent, and a record of His people on this continent, the same as the Bible on a record of the eastern continent and the Lord's workings with His people. We Will Buy

You a Bottle of Liquozone, and Give It to You to Try.

We make few claims of what Liquozone will do. And no testimonials are published to show what it has done. We prefer that each sick one should learn its power by a test. That is the quickest way to convince you.

So we offer to buy the first bottle and give it to you to try. Compare it with common germicides see how much more it does. Don't cling to the old treatments blindly. The worse of diseases which are liable to germ attack for a germicide. Please learn what Liquozone can do.

What Liquozone Is.

The virtues of Liquozone are derived solely from gases. The formula is secret, but it is known that it requires large quantities of German silver and gold to 14 days. It is directed by chemists of the highest class. The object is to soil and combine the gases to carry into the system a powerful tonic-germicide.

Contact with Liquozone kills any form of disease germ, because any germ of vegetable origin, yet the body of Liquozone is not yet fully known, but it is in the most extreme. That is its main distinction. Common germsides kill poison when taken internally. That is why Liquozone has been so helpless in a germ disease. Liquozone is exalting, vitalizing, purifying; yet no disease germ can exist in it.

We purchased the American rights to Liquozone after thousands of tests had been made with it. Its power had been proved again and again, in the most difficult germ diseases. Then we offered it a two months' further test without the risk of a penny.
