Tricked by Dyspepsia The Doctor Couldn't Tell Where the Trouble Lay.

New York, Nov. 11.—A meeting for organization will be held under the auspices of the proposed national asso-clation for the promotion of industrial education at Cooper Union next Friday

"For the past seven years I have been a victim of dyspepsia and chronic constitution and have consulted the most noted specialists to be found on diseases of this character. None, how-ever, seemed to locate the difficulty or give relief. In addition to this medical treatment, I have resorted to the use of many remedies and have given them faithful trial, but all to no purpose. Upon the recommendation of a close friend. I purchased a 50c package of Stuart's Dyspepsia Tablets and in less than five days noticed that I was re-ceiving more benefit than from any remedy I had used before. I continued to use the tablets after each meal for one month and by that time my stom-ach was in a healthy condition, capa-bye of digesting anything which my in-

President Roosevelt has written a letter to Dr. Pritcheit in which while finding it impossible to accept an invi-tation to be present, he said: "I should be glad to buye you express remedz." We wish that you could see with your own eyes the countless other bona-fide signed letters from grateful men and women all over the land who had suffered years of agony with dys-pepsia, tried every known remedy and crasuited eminent specialists without result, until they gave Stuart's Dys-pepsia Tablets a trial. After the first half the Princetonians did not appear to exert themselves and gave the impression of being satisfied to win without taking unnecessary chances of injuring their players before the big game with Yale next Saturday. collegiate Rugby Game. California Field, Berkeley, Cal., Nov. 10. —Stanford gained a victory over the Uni-versity of California in their first rugby intercollegiate contest by a score of 6 to 3. Ten thousand spectators crowded the big footfall arena to witness the struggle. The new game proved as exciting and interesting to the shouting crowds as the old game. The play was fast and spirit-ed from toss up to finish. President Ben-jamin 1 de Wheeler of California, who was mainly responsible for the elimination of the old intercollegiate game, expressed great pleasure at the cordial recepiton given to rugby. KILLED BY A PET DEER. New York, Nov. 11.-41 was definitely established today at Mont Clair, N. J., that a pet buck deer killed Herbert Brad-ley, a wealthy flour exporter, whose dead body was found last night on the pre-veryes at his home there. Deputy County Physician Simmons of Orange found that Mr. Bradley's death was due primarily to the deer's ripping open an aftery in his hip. The horns of the buck, the largest one belonging to Mr. Bradley and his special pride, were found to be covered with blood. The animal also attacked min with its hoofs. Mr. Bradley returned yesterday from a business trip to the west, and was told the started out to see if any hunters had proken into his grounds and it was while nevering that the buck killed him. 1,300 Frinted Manuserip, Solver Frms. 10,000 Voting Lists. GOING AFTER BRITT. McClintic says that Dick is in fine fet-tle and he feels certain of defeating Thompson. In that event, according to Sammy, Hyland will take on one James Edward Britt, "Native son," ex-cham-pion, fist owner, etc. Hyland has been in constant demand since he defeated Young Corbett at Ogden. He next Jeat Tommy Mowatt in Denver and then jumped dowa to Los Angeles, where he put "Cute" Eddie Hanlon on the has-been shelf. McClintic is biding his time. He wants Hyland to "get" Britt and then he will begin a dirtation with Battling Nei-son. And here's a pointer, if ever Hyland and Nelson get into the ring together, "Tighting Dick" will give the durable one a great deal for serious considera-tion.

The principals in the coming exchange of hooks, fabs, uppercuits and swings, are "Fighting Dick" Hyland, and "Cy-chone" Thempson. The beys are light-weights and will enter the Queensbury arena at 135 pounds. The distance the articles of agreement call for is twenty rounds but judging from the "class" of th-little fellows, a dream tablet may be ex-pected before the filteenth gong. Both hoys claim to have worked hard to con-dition themselves and each claims perfec-tion in this respect. They are full of con-fidence, and having met once before each has a line on the ability of the other. In their first meeting Hyland failed to carry off the heavy end of the money sack because the referee declared that he had fouled Thompson. Their second match fell through because of Themp-son's liness. FIGHTS LIKE NELSON While we have never seen "Cyclone" in action, a pretty good estimate of his ability can be pade from those who have witnessed his work in the ring. He is a tough, rugged little chap and while he is not as fast as Battling Nelson his style of milling is much the same as the Dane's. It is said of him that he "keeps a-comin" all the time and only quits when he receives a joit that sends him to the land of nod.

Keep Your Nerve It is nerve energy that runs

the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nervine. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.
