HARRY THAW

Ex-Dist. Atty. Philbine Believes He'll Be Free in a Month.

Be Free in a Month. New York, Aug. 13.-That Harry Kendall Thaw will be free within a month is the opinion of prominent New York lawyers. Eugene Philbine, for-merly district attorney, said today: "There is no doubt that once Thaw steps foot outside of New York state he will be a free man, or if not actually free, can be made so by a writ of ha-beas corpus. Harry Thaw was not con-victed of any crime. He was acquitted on the ground of insanity. Judge Dowl-ing, believing it to be for the good of the state, committed Thaw to Mattea-wan. This committenent is legal only in New York. "If the federal authorities demand

wah. This committeent is legal only in New York. "If the federal authorities demand Thaw's presence at the bankruptcy pro-ceedings in Pittsburg those who have Thaw in custody have no other course than to produce him. The service of a subpoche on either Thaw or the New York authorities would require his keep-ers to turn him over to a United States marshal, which would take him to Pitts-burg. Once across the river and in New Jersey, he would be legally free, and as long as he is kept out of the state of New York he would have no fear of im-prisonment."

Police Duty.

JAPS SHOT SUPPOSED SPY

Their Pekin Legation Soldiers Sought To Arrest Him. He Resisted and They Killed Him.

Pekin, Aug. 13 .- The killing in this city carly this month of a Japanese army officer, supposed to be a spy and traitor, by Japanese soldiers attached to the Pekin legation, will result in the presentation by China of a formal protest against the doing of police duty by legation guards outside of the legation precincts.

The officer in question was Capt Kawakita. He was in the artillery branch of the Kiroshima division and he was formerly an instructor in the Chinese military college at Pao Ting Fu. He was charged with selfing Japanese military secrets to a foreign power and disappeared from Japan in June. On Aug. 1 he was discovered, disguised as a Chinaman, hiding near the wur office in Pekin. This knowledge was communicated to the legation guards and a detachment was sent to capture him. He resisted arrest, where-upon the guards shot and wounded the spy and he died two days later in the hospital of the legation guard. The evidence against Capt. Kawa-kita consists of the following allega-tion: branch of the Kiroshima division and

tion: He was in the habit of sending large sums of money to his family in Tokici he was under the protection, when cap-tured, of Ting Chang, an attache of the judge advocate department of the Chinese war office; he made use of the name of Ting Chang and was en-gaged in tutoring eight Chinese army officers; six bundles of documents con-taining secrets relating to the Japanese army were found in the cantain's rooms

onicers; six bundles of documents con-taining secrets relating to the Japanese army were found in the captain's rooms and confiscated by the legation guard and, lastly, the captain is said to have confessed. M. Abe, the Japanese charge d'affaires, has urged lack of time and the importance of the prison-er in extenuation of the act of the guard in not notifying the Chinese au-thorities before arresting the captain. He explains further that the resistance of the prisoner was unforeseen, and that his consequent shooting could not be avoided. The Chinese government is not satisfied with this explanation and considers that its authority has been ignored. The incident has created a good deal of feeling on both sides. The Japanese say that China does not give evidence of a proper understand-ing of the case; that as a number of high mandarins are involved it was out of consideration for these officials us well as for the military intersets of

of consideration for these officials as well as for the military interests of Japan and the preservation of good relations with China, that Japan desired to dispose of the case as rapidly

as possible. China is proud of her modern metro-China is proud of her modern metro-politan police force and she is jealous of the police powers exercised by the foreign states, in the region of the capital. This condition has prevailed since the Boxer war in 1901. These Chi-nese government is especially fearful of the activity of Japan in this con-nection, as there are not less than 5,000 Japanese in Pekin. This friction has been increased by the fact that the Japanese newspapers published here have refused to conform to the press have refused to conform to the press regulations.
